Blair's Successful War Andrew M. Dorman, 2016-04-08 Andrew Dorman introduces Sierra Leone as Blair's second great military adventure after Kosovo and the first he undertook on his own It is tied to Blair's 1999 Chicago speech on the Doctrine of the International Community his move towards humanitarianism and the impact of the Kosovo experience The book links this move with the rise of cosmopolitan militaries and the increasing involvement of Western forces in humanitarian operations and their impact on the

international system Furthermore it places it within the context of defence transformation and the emerging Western expeditionary capabilities in particular the European Union's new battle group concept and developments in concepts such as Network Centric Warfare and Networked Enabled Capability Examining the whole campaign and considering the impact on the Blair Government this book will prove to be a key reader on the topic Handbook of African Development Tony Binns, Kenneth Lynch, Etienne Nel, 2018-04-27 This handbook presents an extensive new overview of African development past present and future It addresses key core themes and topics that are pertinent to the continent's development including sections on history health and food politics economics rural and urban development and development policy and practice The volume draws on the expertise of over 60 of the world's leading scholars to provide a detailed and up to date analysis of the key opportunities and challenges that confront Africa and how such issues are being addressed Arranged by key themes the handbook provides not only a historical understanding of the past but also political perspectives on the future The chapters provide critically informed analyses of their topics by drawing upon the latest conceptual viewpoints and applied experiences in Africa in the form of case studies to offer a comprehensive examination of the opportunities challenges key debates and future prospects This handbook is an invaluable state of the art overview and reference concerning many different aspects of Africa's development which will be of interest to academics in all fields of African studies and also academics and students working in cognate disciplines such as development studies geography history politics and economics The Work of the Committee in Session 2008-09 Great Britain: Parliament: House of Commons: International Development Committee, 2009 work of the Committee in Session 2008 09 Second report of session 2009 10 report together with formal Minutes DFID's performance in 2008-09 and the 2009 White Paper Great Britain: Parliament: House of Commons: International Development Committee, 2010-03-11 DFID is right to focus more resources on fragile states if global poverty reduction goals are to be met However this report highlights a number of concerns about DFID's capacity to meet this and other new policy directions set out in the 2009 White Paper Cm 7656 ISBN 9780101765626 based on analysis of the Department's performance in 2008 09 the Department's annual report 2008 09 published as HC 867 I II ISBN 9780102962154 Climate change another key White Paper focus area threatens progress on poverty reduction and will hit the poorest people first and hardest The outcome of the Copenhagen Conference in December 2009 was disappointing and real progress needs to be made before the next conference at the end of this year The White Paper also indicates that DFID will channel more funding through multilateral organisations including the EU the UN and the World Bank This offers the prospect of more coordinated delivery of aid but only if these bodies increase their effectiveness and their poverty focus The report also argues for speedier reform of the governance of the international financial institutions The recession has had a significant impact on developing countries It is estimated that an additional 90 million people will be affected by poverty as a combined result of the global food financial and fuel crises over the last few years Donors including the UK have responded and have sought to identify specific needs in

Cultivating Development David Mosse, 2004-11-20 What if development agencies and researchers are not driven by policy Suppose that the things that make for good policy policy that legitimises and mobilises political support in reality make it impossible to implement By focusing in detail on the unfolding activities of a development project in western India over more than ten years as it falls under different policy regimes this book takes a close look at the relationship between policy and practice in development David Mosse shows how the actions of development workers are shaped by the exigencies of organisations and the need to maintain relationships rather than by policy but also that development actors work hardest of all to maintain coherent representations of their actions as instances of authorised policy Raising unfamiliar questions Mosse provides a rare self critical reflection on practice while refusing to endorse current post modern dismissal of development
