## **Elites In Australia:**

Elites in Australia John Higley, Desley Deacon, Don Smart, 1979      Australia's Toxic Medical Culture Vicki Adele Pascoe, 2018-10-11 This book explores dominance in Australia's medical culture through the positioning of international medical graduates IMGs. It argues that IMGs are othered and ultimately positioned as an underclass, a positioning validated and reinforced by the intersecting inequalities of class, race, and nation. It also suggests that the positioning of IMGs is organised through the dimensions of structural power, hegemonic power, and interpersonal power, which allow an exploration of power relations between the structures of the health system, the Australian medical profession, and the agency of IMGs. The Australian narrative presented to the world espouses a community of social justice and human rights. Instead, an historical lens traces the formation and persistence of difference represented in ethnocentrism, racism, and xenophobia from 1788 to the present. The research presented is multidisciplinary in scope. An anti-oppressive theoretical framework enables the voices of lived experience to penetrate throughout, and a social justice platform engages the participants and the reader into the interwoven conversations. The data set comprises a focus group, 10 individual interviews with IMGs, and a selection of inquiry submissions revealing rich and sometimes shocking evidence to paint a stark picture. Other medical voices join the conversation via media responses to revelations of experiences not only by IMGs but also by Australian-trained doctors. It exposes a toxic culture endemic with bullying and sexual harassment. This book is of interest to practitioners, researchers, and administrators in the fields of medical education, human resource management, legal studies, health sciences, social sciences, health services, government departments, universities, and hospitals, as well as those tasked with duty of care and the provision of a safe workplace. The voices gifted to this study raise awareness of current issues within medicine in Australia at a very personal level and begin to formulate a policy and practical response to address these disturbing revelations.      Elite Foundations of Liberal Democracy John Higley, Michael G. Burton, 2006-08-02 This compelling and convincing study, the capstone of decades of research, argues that political regimes are created and sustained by elites. Liberal democracies are no exception; they depend above all on the formation and persistence of consensually united elites. John Higley      *Contemporary Politics in Australia* Rodney Smith, Ariadne Vromen, Ian Cook, 2012-02-02 A diverse range of experts provide a comprehensive introduction to current theories, debates, and research in Australian political science.      **Financial Elites and Transnational Business** Georgina Murray, John Scott, 2012-01-01 This volume brings together leading scholars from around the world and a cross-section of some of the most exciting and cutting-edge research on transnational capitalists. The varied contributions are timely. They provide great insight into the structures and processes behind today's international business and political headlines. It is a must-read for scholars and students of the new global capitalism. William I. Robinson, University of California at Santa Barbara, US. This absorbing book addresses the seemingly simple question of who rules the world by linking it to debates about who owns the world and what this means for the dynamics of global power distribution. Several

expert contributors focus on global issues including the role of transnational finance interlocking directorates ownership and tax havens Others examine how these issues at the global level interact with the regional or nation state level in the US the UK China Australia and Mexico the books scrutinizes globalization from a fresh holistic perspective examining the relationship between the national and transnational to uncover the most significant structures and agents of power Possible policy futures are also considered Academics and researchers across a varied spectrum of fields encompassing business and management international studies and public policy will find this book both fascinating and important

Researching Amongst Elites Luis L.M. Aguiar, Christopher J. Schneider, 2016-04-22 Academics often direct their research across in order to examine issues that grip members of the middle classes or down in order to understand the difficulties workers and other marginalized groups endure Research that is directed up at individuals and groups with positions of greater wealth and power is less common yet studying up can contribute to our understanding of growing inequality economic polarization and social change by studying the rich powerful and elite in our society Presenting the latest empirical case studies from Canada The USA and Australia this volume explores the challenges and difficulties involved in conducting research amongst the rich and elite whilst shedding light on the manner in which power is harnessed protected and controlled to manage and manipulate resources A demonstration of the importance of studying up to our understanding of decision making governance and the nature of contemporary democracy in the global economy Researching Amongst Elites will be of interest to sociologists anthropologists and geographers working in areas such as social research methods social stratification the sociology of elites and relations of class wealth and power

**Australia's Evolving Democracy** Mark Evans, Patrick Dunleavy, John Phillimore, 2024-12-05 In recent times Australia has developed into one of the world's leading liberal democracies Its governments have delivered continuous economic growth for more than three decades even against the turmoil of a global pandemic And the country's highly competitive elections and strong political institutions operate within a stable and balanced federal system In Australia's Evolving Democracy a team of leading academic authors use an audit approach to critically explore national government institutions as well as state and territory level politics and to examine how each has contributed to or held back Australian political life as it has changed and diversified For instance the top two parties monopoly of governance has only begun to adjust to a modern transition to multi party politics although balanced voting systems for two house legislatures have allowed for some adaptation To date the country has successfully avoided both rancorous populist politics as in the USA and serious governance decline as in the UK Each of the book's 28 chapters tackles one institution or issue outlining recent developments along with an analysis of strengths weaknesses opportunities and threats to fully evaluate the state of Australian democracy in the 21st century In doing so the authors draw key lessons for other democracies showing in detail how robust major and micro institutions can guard against democratic backsliding and policy failures This comprehensive audit also highlights scope for potential democratic improvements Australia continues

to confront the challenges of partisan political barriers to addressing climate change and improving the situation of First Nations peoples redressing modern social inequalities and responding to popular mistrust of government and politicians By taking an in depth nuanced approach to multiple democratic issues across the whole of the country s distinctive political system this book provides analysis that is accessible for students new to Australian politics along with many insights for political scientists studying comparative democratic politics and Australian institutions

**Scrutinising Elites and Schooling in Post-Communist Poland** Alexandra Margaret Dunwill,2023-09-05 This book offers new insights and methodological tools to improve our understandings of how prestigious schools in Poland navigate the major political social and cultural crosscurrents The range of choice for elite schooling in Poland has expanded during its post communist transformation However while elite education in countries such as the US Australia the UK France and Switzerland has been extensively studied post communist countries have been largely neglected This book explores the emergence of such schools within a context influenced by a range of different and often conflicting social forces In doing so the study elucidates how the socio historical processes since 1989 diversified Poland s egalitarian education system and facilitated the emergence of schools for elites The book demonstrates that social and political changes in Poland triggered the emergence of new elites with different political and social outlooks leading to a variety of types of elite schools that reflect and reproduce the elites positions and idiosyncrasies A bespoke theoretical arrangement scrutinises extant and generated data from elite schools websites online readers forums and interviews with elite school principals The book contributes new insights into elite schools in Central and Eastern European CEE countries enriching the existing body of knowledge on elites and elite schools around the world It will be of interest to researchers and postgraduate students investigating elite education sociology of education education policy and education and international development

**The European Union and the Asia-Pacific** Natalia Chaban,Martin Holland,2008-05-22 A central problem for the European Union is said to be that of the politics of identity Within this the concept of the EU s international identity requires exploration in terms of how it is both constructed and represented globally To address this issue this book identifies measures and compares public awareness and perceptions of the EU within the Asia Pacific region It deals with the under researched issue of the public perception of the EU outside the Union and the role of the media in shaping such perceptions It builds on what has been described as the EU s communication deficit a phenomenon which has typically been explored as an internal EU dynamic but has yet to be applied to the EU s external relations The volume presents findings from a systematic research project designed to measure the EU s external communication deficit and to raise the level of its awareness in other regions through three perception levels The study of EU images in news mass media production A survey of general public perceptions and attitudes on the EU A survey of the elite perceptions of the EU Drawing on research from New Zealand Australia South Korea and Thailand this book will be of interest to students and researchers of politics communication studies European studies and Asian studies

The

*Chinese Immigration and Australian Politics* Jia Gao, 2020-07-14 This book analyses how an increasing number of new Chinese migrants have integrated into Australian society and added a new dimension to Australian domestic politics as a result of Australia's merit based immigration system and its shift towards Asia These policies have helped Australia sustain its growth without a recession for decades but have also slowly changed established patterns in the distribution of job opportunities wealth and

political influence in the country These transformations have recently triggered a strong Sinophobic campaign in Australia the most disturbing aspect of which is the denial of the successful integration of Chinese migrants into Australian society Based on evidence gathered through a longitudinal study of Chinese migrants in Australia this book examines the misconceptions troubling Australia s current China debate from six important but overlooked perspectives ranging from migration policy changes economic factors grassroots responses the role of major political parties community activism to knowledge issues Australia's Money Mandarins Stephen Bell,2004-04-06 For most of its life the Reserve Bank of Australia RBA has lead a fairly conservative existence **Elite Girls' Schooling, Social Class and Sexualised Popular Culture** Claire Charles,2013-11-26 Young women s identities are an issue of public and academic interest across a number of western nations at the present time This book explores how young women attending an elite school for girls understand and construct empowerment It investigates the extent to which and the ways in which their constructions of empowerment and identity work to overturn or resist key regulations and normative expectations for girls in post feminist hyper sexualised cultural contexts The book provides a succinct overview of feminist theorisations of normative femininities in young women s lives in western cultural contexts It includes familiar sexist discourses such as sexual double standards as well as more recent commentary about the regulation of young women s subjectivities in neoliberal post feminist hyper sexualised cultures Drawing on ethnographic research in the context of an elite girls secondary school the author explores how empowerment for young women is constructed and understood across a range of textual practices From visual representations of young women in school promotional material to students constructions of popular celebrities the question of how girls resistance to normative femininities begins to develop is examined This rich empirical work makes a unique contribution to the study of elite schooling within the sociology of education drawing on important insights from the field of critical girlhood studies and posing a challenge to popular feminist notions about media literacy young women and empowerment It will be of interest to scholars and postgraduates in the areas of gender studies sociology education youth studies and cultural studies Fringe Nations in World Soccer Kausik Bandyopadhyay,Sabyasachi Mallick,2013-09-13 Soccer is the most popular mass spectator sport in the world gaining huge media coverage and reaching all levels of society in countries all around the world More than just entertainment soccer has proved to be a reflection of national cultural community and ethnic identity as well as an indication of the development and international status of post colonial nation states For those nations still at the fringes of the modern global game soccer represents a vision of potential commercialisation capable of generating foreign reserves and bringing in considerable economic power This book explores aspects of the development of soccer in countries which have recently been marginalised in world soccer or have only erratic success on the international stage These fringe nations include a greater part of Africa the USA Australia Israel India Nepal Bhutan Burma Indonesia Thailand Maldives and Sri Lanka and while these countries are rarely noticed by the global football media they nonetheless have great potential to excel

and many have a rich soccer heritage that still holds a place of central importance in the every day life of the people This book was previously published as a special issue of Soccer and Society Power Transition in Asia David Walton,Emilian Kavalski,2016-08-12 Current preoccupations with the rise of Asia attest to the nascent contestation of the very idea of what the pattern of international politics should look like and how it should be practiced In this respect the growing reference to a shift to the East in global politics has become a popular shorthand for the nascent power transition in world affairs This volume offers a detailed conceptual and empirical investigation of the dynamics of power transition in Asia and details the accommodation strategies and coping mechanisms of different small and middle powers in Asia and importantly China s responses to these approaches Political Science ,1996 **How Leaders Mobilize Workers** Konstantin Vössing,2017-06-22 This book explains why leaders choose social democracy revolution or moderate syndicalism to mobilize workers and why it matters In some countries leaders have responded effectively to their political environment while others have made ill fitting choices V ssing explains not only why leaders make certain choices but also how their choices affect the success of interest mobilization and subsequent political development Using quantitative data and historical sources this book combines an analysis of the formation of class politics in all twenty industrialized countries between 1863 and 1919 with a general theory of political mobilization It integrates economic political and ideational factors into a comprehensive account that highlights the critical role of individual leaders The Locked-up Country Shahar Hameiri,Tom Chodor,2023-10-31 Donald Horne famously called Australia the lucky country So how did we become the locked up country and how might the future look different Australia has changed enormously since Horne s 1960s but its response to the COVID 19 pandemic demonstrates the enduring truth of his thesis that our luck was undeserved and wouldn t last By closing its borders and imposing a nationally coordinated lockdown Australia unexpectedly eliminated COVID 19 in 2020 achieving one of the world s lowest excess mortality rates But as governments proceeded to bungle key planks of the pandemic response by mid 2021 Australia was locked up closed off to the world and fragmented along state and territory borders with its major cities enduring repeated and extended lockdowns It soon became clear that Australia s regulatory state had let us down But these failures were not inevitable and we can manage future crises more successfully In The Locked up Country political experts Tom Chodor and Shahar Hameiri identify the source of Australia s recent challenges and suggest a better way forward
