Elizabeth Bowen and the Writing of Trauma Jessica Gildersleeve, 2014-02-15 Elizabeth Bowen and the Writing of Trauma analyses the treatment of memory and the past in Bowen's writing through the lens of trauma theory It draws on the theories of Jacques Derrida Hélène Cixous Julia Kristeva Sigmund Freud and Cathy N. Davidson to propose that Bowen's work is best understood through the psychological narratological and linguistic effects of trauma in her fiction Bowen's writing complicates existing deconstructive and psychoanalytic models of trauma and testifies to the responsibility of survival and the ethics of bearing witness

Janik, Del Ivan Janik, 2002-11-30 The 20th century witnessed several major cultural movements including modernism anti modernism and postmodernism These and other means of understanding and perceiving the world shaped the literature of that era and with the rise of feminism resulted in a particularly rich body of literature by women writers This reference includes alphabetically arranged entries on 58 British women writers of the 20th century Some of these writers were born in England while others such as Katherine Mansfield and Doris Lessing came from countries of the former Empire or Commonwealth The volume also includes entries for women of color such as Kamala Markandaya and Buchi Emecheta Each entry is written by an expert contributor and includes an overview of the writer s background an analysis of her works an assessment of her achievements and lists of primary and secondary sources The volume closes with a selected general bibliography Elizabeth Bowen Maud Ellmann, 2003 This study offers an authoritative introduction to Bowen s works revealing both their pleasures for the fiction addict and their fascinations for the literary critic theorist and historian **Women in Twentieth-Century Literature** Bettina L. Knapp, 2010-11-01 New Insights into the Language and Cognition Interface Rafal Augustyn, Agnieszka Mierzwinska-Hajnos, 2018-11-16 This book brings together on the one hand theoretical assumptions in cognitive linguistics and on the other empirical studies on language It portrays in a compact manner the latest state of the dynamically changing research in five areas of cognitive explorations of language including conceptual blending discourse and narratology multimodality linguistic creativity and construction grammar These are shown mainly from the perspective of two languages Polish and English The volume will be of essential value to both students and scholars as well as anyone interested in the application of current trends developed within cognitive linguistics to the empirical study of language and language related phenomena *The Wireless Past* Emily C. Bloom, 2016 Emily Bloom chronicles the emergence of the British Broadcasting Corporation as a significant promotional platform and aesthetic influence for Irish modernism from the 1930s to the 1960s She situates the works of W B Yeats Elizabeth Bowen Louis MacNeice and Samuel Beckett in the context of the media environments that shaped their works **Borderlands and Liminal Subjects** Jessica Elbert Decker, Dylan Winchcock, 2017-11-15 Borders are essentially imaginary structures but their effects are very real This volume explores both geopolitical and conceptual borders through an interdisciplinary lens bridging the disciplines of philosophy and literature With contributions from scholars around the world this collection closely examines the concepts of race nationality gender and sexuality in order to reveal the paradoxical ambiguities inherent in these seemingly solid binary oppositions while critiquing structures of power that produce and police these borders As a political paradigm liminality may be embraced by marginal subjects and communities further blurring the boundaries between oppressive distinctions and categories

Union Catalogs, 1963- ,1964 Diaphanous Bodies Jeremy Colangelo,2021-11-09 Diaphanous Bodies Ability Disability and Modernist Irish Literature examines ability as a category of embodiment and embodied experience and in the process opens up a new area of inquiry in the growing field of literary disability studies It argues that the construction of ability arises through a process of exclusion and forgetting in which the depiction of sensory information and epistemological judgment subtly or sometimes un subtly elide the fact of embodied subjectivity The result is what Colangelo calls the myth of the diaphanous abled body a fiction that holds that an abled body is one which does not participate in or situate experience The diaphanous abled body underwrites the myth that abled and disabled constitute two distinct categories of being rather than points on a constantly shifting continuum In any system of marginalization the dominant identity always sets itself up as epistemologically and experientially superior to whichever group it separates itself from Indeed the norm is always most powerful when it is understood as an empty category or a view from nowhere Diaphanous Bodies explores the phantom body that underwrites the artificial dichotomy between abled and disabled upon which the representation of embodied experience depends **English Novel Explication** ,1990
