Connecticut Needlework Susan P. Schoelwer, 2012-01-01 Winner of the Connecticut Book Award 2011 Winner of the Connecticut League of History Organizations Award of Merit 2012 Connecticut women have long been noted for their creation of colorful and distinctive needlework including samplers and family registers bed rugs and memorial pictures crewel embroidered bed hangings and garments silk embroidered pictures of classical or religious scenes quilted petticoats and bedcovers and whitework dresses and linens This volume offers the first regional study encompassing the full range of needle arts produced prior to 1840 Seventy entries showcase more than one hundred fascinating examples many never

before published from the Connecticut Historical Society's extensive collection of this early American art form. Produced almost exclusively by women and girls, the needle arts provide an illuminating vantage point for exploring early American women's history and education, including family-based traditions predating the establishment of formal academies after the American Revolution. Extensive genealogical research reveals unseen family connections linking various types of needlework similar to the multi-generational male workshops documented for other artisan trades such as woodworking or metalsmithing. Photographs of stitches, reverse sides, sketches, design sources, and related works enhance our understanding and appreciation of this fragile art form and the talented women who created it. An exhibition of needlework in this book will be held at the Connecticut Historical Society in late fall 2010. Funding for this project has been provided by the Coby Foundation Ltd and the National Endowment for the Arts.

Elizabeth I, the People's Queen Kerrie Logan Hollihan, 2011-06. One of England's most fascinating monarchs is brought to life in this hands-on study for young minds. Combining projects, pictures, and sidebars with an authoritative biography, children will develop an understanding of the Reformation, Shakespearean England, and how Elizabeth's 45-year reign set the stage for the English Renaissance and marshaled her country into a chief military power. Providing 21 activities from singing a madrigal and growing a knot garden to creating a period costume complete with a neck ruff and a cloak for the queen's court, readers will experience a sliver of life in the Elizabethan age. For those who wish to delve deeper, a time line, online resources, and a reading list are included to aid in further study.

Consumption and Gender in the Early Seventeenth-Century Household Jane Whittle, Elizabeth Griffiths, 2012-03-01. Lady Alice Le Strange of Hunstanton in Norfolk kept a continuous series of household accounts from 1610-1654. Jane Whittle and Elizabeth Griffiths have used the Le Stranges' rich archive to reconstruct the material aspects of family life. This involves looking not only at purchases but also at home production and gifts, and not only at the luxurious but at the everyday consumption of food and medical care. Consumption is viewed not just as a set of objects owned but as a process involving household management, acquisition, and appropriation, a process that created and reinforced social links with craftsmen, servants, labourers, and the local community. It is argued that the county gentry provide a missing link in histories of consumption, connecting the fashions of London and the royal court with those of middling strata of rural England. Recent writing has focused upon the transformation of consumption patterns in the eighteenth century. Here the earlier context is illuminated, and instead of tradition and stability we find constant change and innovation. Issues of gender permeate the study.

Consumption is often viewed as a female activity and the book looks in detail at who managed the provisioning purchases and work within the household how spending on sons and daughters differed and whether men and women attached different cultural values to household goods This single household s economy provides a window into some of most significant cultural and economic issues of early modern England innovations in trade retail and production the basis of gentry power social relations in the countryside and the gendering of family life The Ladies' Fancy Needle-work Instructor ...
