Elizabethan Nation:

The Elizabethan Country House Entertainment Elizabeth Zeman Kolkovich, 2016-07-04 This is the first full length critical study of country house entertainment a genre central to late Elizabethan politics It shows how the short plays staged for the Queen at country estates like Kenilworth Castle and Elvetham shaped literary trends and intervened in political debates including whether women made good politicians and what roles the church and local culture should play in definitions of England In performance and print country house entertainments facilitated political negotiations rethought gender roles and crafted regional and national identities In its investigation of how the hosts used performances to negotiate local and national politics the book also sheds light on how and why such entertainments enabled female performance and authorship at a time when English women did not write or perform commercial plays Written in a lively and accessible style this is fascinating reading for scholars and students of early modern literature theatre and women s history

The New Elizabethan Age Irene Morra, Rob Gossedge, 2016-09-30 In the first half of the twentieth century many writers and artists turned to the art and received example of the Elizabethans as a means of articulating an emphatic and anti Victorian modernity By the middle of that century this cultural neo Elizabethanism had become absorbed within a broader mainstream discourse of national identity heritage and cultural performance Taking strength from the Coronation of a new young Queen named Elizabeth the New Elizabethanism of the 1950s heralded a nation that would now see its modern televised monarch preside over an imminently glorious and artistic age This book provides the first in depth investigation of New Elizabethanism and its legacy With contributions from leading cultural practitioners and scholars its essays explore New Elizabethanism as variously manifested in ballet and opera the Coronation broadcast and festivities national historiography and myth the idea of the Young Elizabethan celebrations of air travel and new technologies and the New Shakespeareanism of theatre and television As these essays expose New Elizabethanism was much more than a brief moment of optimistic hyperbole Indeed from modern drama and film to the reinvention of Richard III from the London Olympics to the funeral of Margaret Thatcher it continues to pervade contemporary artistic expression politics and key moments of national pageantry

Catholics and the 'Protestant Nation' Ethan H. Shagan, 2005-09-03 This book brings together leading historians of Catholicism and other notable historians of early modern English society in order to pull Catholicism back into the mainstream of English historiography and to ask readers to suspend their assumptions and prejudices about the nature of Catholic history Its primary assertion is that many of the fundamental issues of English history cannot be adequately understood without taking into account a Catholic perspective while many of the fundamental issues of Catholic history cannot be understood in isolation from the rest of English society

Our Nation's Heritage Reuben Post Halleck, Juliette Frantz, 1925 A survey of the development of Western Civilization and its influence on the early history and characteristics of the United States

Text/Events in Early Modern England Sandra Logan, 2018-01-18 Engaging with a range of events historical moments theatrical performances public

presentations and courtly intrigues and the texts that record them this book explores representational practice as a component of Elizabethan political culture Considering the inscriptive production of mediated indirect experience as an authorial challenge to the value of the immediate direct experience of events and conversely recognizing the multi valent impact of theatrical performance and performativity as a reinvigoration of the immediate this study traces the emergence of realness as a textual effect and a mode of political intervention This interactive refractive nexus of experience and inscription comprises what Sandra Logan calls the text event The four primary foci of this investigation the 1558 coronation entry the 1575 entertainments at Kenilworth the 1590s dramatizations of the reign of Richard II and the Essex trial of 1601 serve as exempla of four moments in the reign of Elizabeth I which suggest an increasingly complex interaction between events and texts developing in the last half of the sixteenth century Logan argues that in representing England s recent and distant past a wide range of social subjects engaged in a struggle for intellectual credibility and social viability and in the process generated a contingent public sphere within which history framed as a coherent narrative shaped by causal relationships was brought to bear on the concerns of the Elizabethan present and future Assessing how these chronicles short prose histories and historical dramas each made use of the materials and techniques of the others blurring the distinctions between historiography and poetry as well as between past and present Logan considers the conjunctions between the development of new genres and perceptions about inscription and experience and changing socioeconomic institutions and practices

Charles Lea Professor of History Harvard University A list of works on ornament in the National art library Victoria and Albert museum libr,1882 **The Reformation of Romance** Christina Wald,2014-08-27 This study takes a fresh look at the abundant scenarios of disguise in early modern prose fiction and suggests reading them in the light of the contemporary religio political developments More specifically it argues that Elizabethan narratives adopt aspects of the heated Eucharist debate during the Reformation including officially renounced notions like transubstantiation to negotiate culturally pressing concerns regarding identity change Drawing on the rich field of research on the adaptation of pre Reformation concerns in Anglican England the book traces a cross fertilisation between the Reformation and the literary mode of romance The study brings together topics which are currently being strongly debated in early modern studies the turn to religion a renewed interest in aesthetics and a growing engagement with prose fiction Narratives which are discussed in detail are William Baldwin s Beware the Cat Robert Greene s Pandosto and Menaphon Philip Sidney s Old and New Arcadia and Thomas Lodge s Rosalynd and A Margarite of America George Gascoigne s Steele Glas John Lyly s Euphues An Anatomy of Wit and Euphues and his England Barnabe Riche s Farewell Greene s A Quip for an Upstart Courtier and Thomas Nashe s The Unfortunate Traveller *List[s] of Books and Pamphlets in the National Art Library: Gems; 1886. Glass; 1887. Gold and silversmiths' work and jewellery; 1882 & 2d ed. 1887. Heraldry; 1880 & 2d ed. 1884. Lace and needlework; 1879. Metal work; 1883. Ornament; 1882 & 2d ed. 1883. Painting; 2d ed. 1883* National Art Library (Great Britain),1886 **The Nation and Athenæum** ,1912 The English Revolution and the Roots of Environmental Change George Yerby,2015-08-20 This study brings a new perspective to a pivotal debate the causes of the English Revolution It pinpoints the economic motives behind the opposition to the crown and shows their connection to the changing mind set and political transitions of the time Distinctively it identifies the radicalism of the mercantile sphere and the developing claim of freedom of trade the basis on which parliament challenged the king s fiscal prerogative Freedom of trade was associated with rights of consent which were asserted as a guarantee of economic interests and as a political principle This informed the constitutional changes pushed through by parliament early in 1641 establishing freedom of trade by parliamentary control of the customs and giving the assembly an automatic place at the center of affairs the first requirement of representative government Crucially it was not the crown but parliament that appropriated the state interest through an independent definition of national priorities As England coalesced into a political and commercial unit the open and communal patterns of medieval times were overlaid The land itself came to be perceived and used in a different way Freedom of trade had an agrarian aspect An extended class of gentry and yeomanry occupied consolidated farms displacing the smallholders from the common lands With intensified marketing the old moral restraints on trade and property died away A more exploitative ethic undermined the balance of relationship with the land The book makes an original connection between the English Revolution and the processes of environmental change **Ruin and Reformation in Spenser, Shakespeare, and Marvell** Stewart Mottram,2019-01-31

Ruin and Reformation in Spenser Shakespeare and Marvell explores writerly responses to the religious violence of the long reformation in England and Wales spanning over a century of literature and history from the establishment of the national church under Henry VIII 1534 to its disestablishment under Oliver Cromwell 1653 It focuses on representations of ruined churches monasteries and cathedrals in the works of a range of English Protestant writers including Spenser Shakespeare Jonson Herbert Denham and Marvell reading literature alongside episodes in English reformation history from the dissolution of the monasteries and the destruction of church icons and images to the puritan reforms of the 1640s The study departs from previous responses to literature's bare ruined choirs which tend to read writerly ambivalence towards the dissolution of the monasteries as evidence of traditionalist catholic or Laudian nostalgia for the pre reformation church Instead Ruin and Reformation shows how English protestants of all varieties from Laudians to Presbyterians could and did feel ambivalence towards and anxiety about the violence that accompanied the dissolution of the monasteries and other acts of protestant reform The study therefore demonstrates that writerly misgivings about ruin and reformation need not necessarily signal an author's opposition to England's reformation project In so doing Ruin and Reformation makes an important contribution to cross disciplinary debates about the character of English Protestantism in its formative century revealing that doubts about religious destruction were as much a part of the experience of English protestantism as expressions of popular support for iconoclasm in the sixteenth and seventeenth centuries

A History of British Art Andrew Graham-Dixon, 1999 Andrew Graham Dixon unveils the long kept secret of Britain's rich and vital visual culture *The Nation and the Athenaeum*, 1925

Shakespeare, Spenser, and the Crisis in Ireland Christopher Highley, 1997-12-11 Ireland is increasingly recognized as a crucial element in early modern British literary and political history Christopher Highley's book explores the most serious crisis the Elizabethan regime faced its attempts to subdue and colonize the native Irish Through a range of literary representations from Shakespeare and Spenser and contemporaries like John Hooker John Derricke George Peele and Thomas Churchyard he shows how these writers produced a complex discourse about Ireland that cannot be reduced to a simple ethnic opposition This book challenges traditional views about the impact of Spenser's experience in Ireland on his cultural identity while also arguing that the interaction between English and Ireland is a powerful and provocative subtext in the work of Shakespeare and his fellow dramatists Highley argues that the confrontation between an English imperial presence and a Gaelic other was a profound factor in the definition of an English poetic self **Yeats Annual** Richard J.

Finneran, 1982-06-18 Social England Henry Duff Traill, 1895 **Archaeologies of the British** Susan Lawrence, 2003 Beginning with the early English colonisation of Ireland and Virginia the international range of contributors in Archaeology of the British examine the interplay of objects and identity in Scotland and Wales regional England Canada Australia South Africa Cyprus and Sri Lanka Informed by developments in historical archaeology and by postcolonial scholarship the case studies in this volume look at the colonists themselves The evidence drawn upon includes vernacular architecture landscapes

and objects of everyday life Archaeologies of the British makes it clear that Britishness has never been a fixed entity and that material culture can challenge historical and contemporary understandings of Britishness
