Eloquent Zen:

Eloquent Zen Kenneth Kraft, 1997-01-01 Zen master Daito 1282 1337 played a leading role in the transmission of Zen Chan from China to Japan He founded Daitokuji a major monastery that has been influential for centuries and he provided interpretations of Chinese texts Daito's traditional biography is full of vivid episodes including his years among the beggars of Kyoto and ending with his dramatic death in the meditation posture Despite his importance however Daito has remained virtually unknown in the West With the publication of Eloquent Zen Kenneth Kraft offers the first comprehensive account of the life and teachings of one of the greatest of Japan's Zen masters Dr Kraft begins with the foundations of medieval Japanese Zen He shows that Daito's predecessors were concerned with clarifying the essentials of Zen as it began to take root in Japan During this formative phase the Zen pioneers embraced varied conceptions of enlightenment and divergent notions of authenticity Kraft places Daito's contributions within this context offering new insights about early Japanese Zen and about Zen itself Throughout this study Kraft looks closely at the complex role of language in Zen a tradition supposedly distrustful of words Daito wrote haiku like poetry participated in brilliant dialogues and delivered powerful sermons His virtuosity in articulating the way of Zen beyond words beyond silence is nowhere more apparent than in his use of the capping phrase an interpretive and commentarial device unique to Zen Analyzing Daito's use of this device Kraft elucidates the significance of the literary and aesthetic dimensions of the Zen tradition Eloquent Zen includes valuable translations of Daito's poetry and other writings Illustrations include three classic portraits of Daito and rare examples of his calligraphy This lucid and engaging study will interest scholars and nonspecialists interested in Zen Japanese culture and Asian philosophy poetry and related fields

Zen Sand Victor Sogen Hori, 2003-02-28 Zen Sand is a classic collection of verses aimed at aiding practitioners of k'an meditation to negotiate the difficult relationship between insight and language As such it represents a major contribution to both Western Zen practice and English language Zen scholarship In Japan the traditional Rin'zai Zen k'an curriculum includes the use of jakugo or capping phrases Once a monk has successfully replied to a k'an the Zen master orders the search for a classical verse to express the monk's insight into the k'an Special collections of these jakugo were compiled as handbooks to aid in that search Until now Zen students in the West lacking this important resource have been severely limited in carrying out this practice Zen Sand combines and translates two standard jakugo handbooks and opens the way for incorporating this important tradition fully into Western Zen practice For the scholar Zen Sand provides a detailed description of the jakugo practice and its place in the overall k'an curriculum as well as a brief history of the Zen phrase book This volume also contributes to the understanding of East Asian culture in a broader sense

The Poetry Demon Jason Protass, 2021-07-31 Chinese Buddhist monks of the Song

dynasty 960 1279 called the irresistible urge to compose poetry the poetry demon In this ambitious study Jason Protass seeks to bridge the fields of Buddhist studies and Chinese literature to examine the place of poetry in the lives of Song monks Although much has been written about verses in the gong'an Jpn k'an tradition very little is known about the large corpora roughly 30 000 extant poems composed by these monastics Protass addresses the oversight by using strategies associated with religious studies literary studies and sociology He weaves together poetry with a wide range of monastic sources and in doing so argues against positing a literary Chan movement that wrote poetry as a path to awakening he instead presents an understanding of monks poetry grounded in the Song discourse of monks themselves The work begins by examining how monks fashioned new genres created their own books and fueled a monastic audience for monks poetry It traces the evolution of g'th from hymns found in Buddhist scripture to an independent genre for poems associated with Chan masters as living buddhas While Song monastic culture produced a prodigious amount of verse at the same time it promoted prohibitions against monks participation in poetry as a worldly or Confucian art This constructive tension was an animating force The Poetry Demon highlights this and other intersections of Buddhist doctrine with literary sociality and charts productive pathways through numerous materials including collections of Chan recorded sayings monastic rulebooks eminent monk and flame record hagiographies manuscripts of poetry Buddhist encyclopedia primers and s'tra commentary Two chapter length case studies illustrate how Song monks participated in two of the most prominent and conservative modes of poetry of the time those of parting and mourning Protass reveals how monks used Chan humor with reference to emptiness to transform acts of separation into Buddhist teachings In another chapter monks in mourning expressed their grief and dharma through poetry The Poetry Demon impressively uncovers new and creative ways to study Chinese Buddhist monks poetry while contributing to the broader study of Chinese religion and literature

Explaining Pictures Ikumi Kaminishi, 2006-02-28. Early Japanese Buddhism was patronized by the literate classes and remained a prerogative of the elite until the end of the twelfth century. With the fiscal and political decline of its aristocratic patrons, the Buddhist establishment turned increasingly to lay commoners for financial support, using paintings to accommodate its new and often subliterary audiences. One type of preaching, known as *etoki* (pictorial decipherment), helped bridge the worlds of esoteric Buddhism and lay practice and reveals much about the role of art in the context of didactic storytelling and proselytization. Beginning with the provocative claim that the popularization of Buddhism in the medieval period was a phenomenon of visual culture, *Explaining Pictures* reexamines the history and historiography of medieval Japanese Buddhism. With theoretical sophistication and a full appreciation of the power of imagery to convey and control religious meaning, it investigates a range of aspects of *etoki*, including the particularly active role of itinerant nuns whose performances were especially edifying to female audiences, as well as the visual hagiography of the reputed founder of Japanese Buddhism, the pictorial projections of Buddhist paradise and hell, and the explanation through visual imagery of sacred mountains. Part One presents the social history of *etoki* as it appears in a broad variety of written sources from the tenth to the fifteenth centuries and investigates how *etoki* helped establish the cult of Shōtoku Taishi. Part Two covers the period between the late twelfth and fourteenth centuries, with a focus on Pure Land Buddhist propaganda and its use in *etoki* practice. *Etoki* sermons on the Taima Mandala, the visual description of the Pure Land Buddhist canons, show how envisioning the land of bliss substitutes for meditative concentration.

to gain enlightenment Ikumi Kaminishi next turns to the itinerant etoki proselytes and similar performing artists between the fifteenth and the sixteenth centuries These individuals preached on the road and through their missionary work reached out to commoners turning etoki into an effective method of imparting religious beliefs and soliciting alms In the late medieval period audiences regarded itinerant preachers much like traveling artists and vendors which has led modern scholars to conclude that etoki priests desecrated religious rituals Kaminishi reconsiders this historiographical problem in relation to the social meaning of itinerant performing artists of the period Finally she examines etoki's effect on the popularization of sacred mountain worship in particular Kumano and Tateyama during the seventeenth through nineteenth centuries Chapters focus on the Kumano propaganda image used by nuns how Christian religious imagery was exploited in seventeenth century Buddhist propaganda and the ways in which etoki campaigns made the remote Tateyama a popular pilgrimage site in early modern times *Explaining Pictures* is an important groundbreaking work the first book length study devoted to the phenomenon of Buddhist art as religious propaganda and pictorial storytelling as a form of popular culture in medieval Japan A truly interdisciplinary study it suggests fruitful avenues of discussion between art historians and historians of Japanese Buddhism Scholars and students with an interest in Japanese Buddhism art and social and cultural history will find its examination of significant issues fresh and stimulating It will also find an appreciative audience among those concerned with the relationship between art and religion the mechanics of proselytization and Asian visual culture
