## **Emancipation Consciousness:**

Jewish Philosophical Politics in Germany, 1789-1848 Sven-Erik Rose, 2014-08-05 In this book Rose illuminates the extraordinary creativity of Jewish intellectuals as they reevaluated Judaism with the tools of a German philosophical tradition fast emerging as central to modern intellectual life While previous work emphasizes the subversive dimensions of German Jewish thought or the inner antisemitism of the German philosophical tradition Rose shows convincingly the tremendous resources German philosophy offered contemporary Jews for thinking about the place of Jews in the wider polity Offering a fundamental reevaluation of seminal figures and key texts Rose emphasizes the productive encounter between Jewish intellectuals and German philosophy He brings to light both the complexity and the ambivalence of reflecting on Jewish identity and politics from within a German tradition that invested tremendous faith in the political efficacy of philosophical thought itself

**Marxism as Scientific Enterprise** P.C. Joshi, 2022-10-06 In this collection of essays the eminent social scientist Dr P C Joshi argues that Marxism needs to be extended beyond the traditional confines set by Lenin and Mao in order to remain relevant in societies in which individuals have freedom of political expression and which are witnessing gigantic strides in communication technology In democratic societies with a vibrant media the Lenin Mao inspired templates of conspiracy and peoples war carry far less traction than in autocracies where communism has been successful Dr Joshi argues that democracy is ingrained in the spirit and legacy of Marx and the two can be true partners in social development This requires tapping into classes and strata not considered by mainstream Marxists such as intermediate classes intellectuals and bureaucrats and harnessing the liberating potential offered by advances in technology

*An Introduction to Early Buddhist Soteriology* G. A. Somaratne, 2022-05-09 The book offers a comprehensive discussion on the Buddhist liberation and meditation concepts based on the original P li scriptures of Therav da Buddhism It interprets the early Buddhist soteriology critically and sympathetically by interweaving the Buddhological and the Buddhistic debates on understanding the Buddha s original teaching on bondage liberation liberated ones and meditation It showcases the liberal and pluralistic character of early Buddhist soteriology by interpreting it psychologically through the lens of the Buddha s recognition of two sets of psychosomatic and epistemic mental configurations active in the human mind It shows how this dualism pervades the early Buddhist soteriology by pointing out its recognition of craving and ignorance as two causes of suffering the emancipation of mind and the emancipation by wisdom as two constituents of liberation and the meditative appeasing and the meditative watching as two methods to attain that liberation It demonstrates how the Buddha structures a gradual path to liberation enabling individuals to experience many temporary and irreversible secondary goals along the way and allowing them to join the path at any stage appropriate to their temperaments and advancement at a given time and space The book therefore serves the students and scholars of Buddhism religion and psychology to obtain a comprehensive and insightful introduction to Buddhist soteriology

Beautiful Risk of Education Gert J. J. Biesta, 2015-11-17 This is a book about what many teachers know but are increasingly being prevented from talking about that real education always involves a risk The risk is there because as W B Yeats has put it education is not about filling a bucket but about lighting a fire It is there because students are not to be seen as objects to be moulded and disciplined but as subjects of action and responsibility The Beautiful Risk of Education is organised around a critical discussion of seven key educational concepts creativity communication teaching learning emancipation democracy and virtuosity By opposing the risk aversion that characterises many contemporary educational policies and practices Gert J J Biesta makes a strong argument for giving risk a central place in our educational endeavours and brings risk taking to the forefront of a critical pedagogical practice

**Philosophy of the Unconscious: Metaphysics of the unconscious** Eduard von Hartmann, 1893 V 1 The class of books to which the Philosophy of the Unconscious belongs is all but unrepresented in our literature but the absence of similar home productions can no longer be held to imply either an inability to comprehend their scope or an indifference to their results To what shall we attribute the welcome accorded of late to certain reproductions and elucidations of the master works of modern Transcendentalism if not to the awakening of a long repressed desire to re-examine the foundations of a spiritual fabric for whose stability an instinctive confidence alone made answer To many two attitudes of mind have become insupportable that of total unconcern about fundamental truth and that of unthinking acquiescence in the admission of merely juxtaposed and uncommunicating spheres of positive knowledge and impenetrable nescience PsycINFO Database Record c 2011 APA all rights reserved

*Philosophy of the Unconscious* Eduard Von Hartmann, 2014-06-23 This is Volume VII of eight in a series on the Philosophy of Mind and Language Originally published in 1931 this book presents Speculative Results according to the Inductive Method of Physical Science Interest in Hartmann's conception of the Unconscious until

the beginning of the present century was primarily metaphysical his treatise was merely the first and most significant of the thirty volumes which set forth his system      **Philosophy of the Unconscious** Eduard von Hartmann, 1884      **Elgar Encyclopedia of Critical Management Studies** Leo McCann, Ödül Bozkurt, Rachael Finn, Edward Granter, Carolyn Hunter, Nina Kivinen, Arun Kumar, Brian Wierman, 2025-04-09 This expansive Encyclopedia provides a detailed overview of Critical Management Studies CMS This exciting and iconoclastic area of research and scholarship has had a major impact on the academic field of business and management studies opening up possibilities for exploring radical and liberatory ideas in the often conservative and technicist realm of business school education Covering many of the substantive areas of CMS such as control and gender and providing reflexive discussions and critiques this Encyclopedia is a vital contribution to this important and unique field      **The Returns of Zionism** Gabriel Piterberg, 2020-05-05 In this original and wide ranging study Gabriel Piterberg examines the ideology and literature behind the colonization of Palestine from the late nineteenth century to the present Exploring Zionism's origins in Central Eastern European nationalism and settler movements he shows how its texts can be placed within a wider discourse of western colonization Revisiting the work of Theodor Herzl and Gershom Scholem Anita Shapira and David Ben Gurion and bringing to light the writings of lesser known scholars and thinkers influential in the formation of the Zionist myth Piterberg breaks open prevailing views of Zionism demonstrating that it was in fact unexceptional expressing a consciousness and imagination typical of colonial settler movements Shaped by European ideological currents and the realities of colonial life Zionism constructed its own story as a unique and impregnable one in the process excluding the voices of an indigenous people the Palestinian Arabs      *Beyond* Santosh Jha, 2021-08-12 You may waste time reading later writing bad reviews if you seek exactitude of My Type reading experience This fiction is probabilistic Beyond typecasts It is Beyond familiarity definitude of habitual story regularity It is a journey of a celebrity Beyond success into emancipation the pathways he creates in absolute nakedness She reciprocates perfectly Love liberates leads Beyond      **Lenin and the Logic of Hegemony** Alan Shandro, 2014-07-10 In Lenin and the Logic of Hegemony by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti metaphysical event identified by Gramsci in Lenin's political practice and theory the emergence of the philosophical fact of hegemony In so doing he effectively disputes conventional caricatures of Lenin's role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it      **Essays on Ethics and Culture** Sabina Lovibond, 2022-10-17 These essays discuss various ontological and epistemological questions in moral philosophy drawing on ideas from Platonic Aristotelian ethics the later Wittgenstein and Iris Murdoch though without seeking to weave these into any unified system The general approach is realist or objectivist paying some attention to the role of imaginative literature especially the novel in ethical formation A common

theme is the lived experience of the socially situated subject including our capacity for engagement with the values present in an inherited tradition or form of life. Such engagement once raised to consciousness may contain elements both of affirmation and of cultural critique. In the book as a whole the critical theme predominates with a certain emphasis on discourses of social disruption. But it is always assumed that the right place to stand as an observer of the domain of value is within that domain and that moral critique will be immanent with respect to the culture addressed that is it will make do with just the conceptual and linguistic resources available to ordinary participants in moral political or aesthetic conversation.

**The Making of Modern Zionism** Shlomo Avineri, 2017-04-04. An expanded edition of a classic intellectual history of Zionism now covering the rise of religious Zionism since the 1970s. For eighteen centuries pious Jews had prayed for the return to Jerusalem but only in the revolutionary atmosphere of nineteenth century Europe was this yearning transformed into an active political movement. Zionism. In *The Making of Modern Zionism* the distinguished political scientist Shlomo Avineri rejects the common view that Zionism was solely a reaction to anti-Semitism and persecution. Rather he sees it as part of the universal quest for self-determination. In sharply etched intellectual profiles of Zionism's major thinkers from Moses Hess to Theodore Herzl and from Vladimir Jabotinsky to David Ben-Gurion Avineri traces the evolution of this quest from its intellectual origins in the early nineteenth century to the establishment of the State of Israel. In an expansive new epilogue he tracks the changes in Israeli society and politics since 1967 which have strengthened the more radical nationalist and religious trends in Zionism at the expense of its more liberal strains. The result is a book that enables us to understand as perhaps never before one of the truly revolutionary ideas of our time.

**Nursing Praxis** Sally E. Thorne, Virginia E. Hayes, 1997. With the evolution of nursing knowledge and theory relationships between ideas and actions often become blurred and difficult to articulate. In this ground-breaking volume the contributors present some of the ways in which nursing scholars are confronting this problem by reflecting upon the nature of nursing knowledge and the application of theory in practice. The book is divided into three sections that address the nature of knowledge in clinical practice, the application of theoretical knowledge and the creation of new forms and avenues of inquiry.
