Scott, 2002-02-28 James Baldwin's *Later Fiction* examines the decline of Baldwin's reputation after the middle 1960s his tepid reception in mainstream and academic venues and the ways in which critics have often misrepresented and undervalued his work Scott develops readings of *Tell Me How Long the Train's Been Gone* *If Beale Street Could Talk* and *Just Above My Head* that explore the interconnected themes in Baldwin's work the role of the family in sustaining the arts the price of success in American society and the struggle of black artists to change the ways that race sex and masculinity are represented in American culture Scott argues that Baldwin's later writing crosses the cultural divide between the 1950s and 1960s in response to the civil rights and black power movements Baldwin's earlier works his political activism and sexual politics and traditions of African American autobiography and fiction all play prominent roles in Scott's analysis

Modern American Queer History Allida Mae Black, 2001 In the twentieth century countless Americans claimed gay lesbian bisexual and transgender identities forming a movement to secure social as well as political equality This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change Whether the subject is an individual life story a community study or an aspect of public policy these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance Theoretically informed but accessible the essays shed light too on the difficulties of writing history when
