HowExpert Guide to Recycling HowExpert,Jen Thilman,2023-01-03 If you want to learn how to recycle eliminate disposables reduce waste pollution conserve resources save energy and protect the environment then check out HowExpert Guide to Recycling Have you ever been gaslighted You know grossly misled to believe something for the benefit of someone else Unfortunately we've all been victims of this for decades by big corporations especially the oil industry They have spent billions to convince us that climate change is our fault That if we dispose of our trash the right way and lower our carbon footprint we wouldn't have the environmental problems we are now facing Nothing could be further from the truth This guide will show how we've been misled to believe this narrative in order to protect corporate profits and how changing our disposable habits and fighting misinformation is the best thing we can do to beat climate change Corporations have lied to keep us buying their products and distracted from the fact that waste and emissions are caused by how they do business Single use plastics are a big money maker for the fossil fuel industry They created the

triangle symbol to make us think plastics will recycle even though that can't easily be done. Manufacturers choose not to invest in recycled packaging and materials. Virgin materials mined from Earth are cheaper and often subsidized. Technology exists to eliminate most of the greenhouse gas emissions they cause. It's time to fight for the truth and take matters into our own hands. What we buy and how it's made affects how well reduce, reuse, and recycle works. Using the power of our voices and wallets, we can make corporations change how they do business. They answer to us, the people who buy their products and invest in their stock. We can insist they take responsibility for the damage they cause. We have the power to fight climate change at home and in our cities. I don't know about you, but I'm not ready to leave the health and well-being of my family in the hands of people who I hope will figure this mess out. We all need to change for the better of our planet and our lives. There are alternatives to buying disposable goods and packaging. Buy durable goods and reusable packaging to save money and the planet. Reduce and reuse packaging. First, eliminate plastic shopping bags. We can do things differently to change our eating and buying habits. A lot of trash comes with convenience dining like packaged and fast foods. Buying used products reduces wasted energy, materials, and water. It's time we use our buying power and our votes to change for the better. Waste of anything, food, energy, goods, needs to be eliminated. Elect representatives who put people before corporations. Your voice can create change. Check out HowExpert Guide to Recycling to learn how to recycle, eliminate disposables, reduce waste, pollution, conserve resources, save energy, and protect the environment. The Childlike Kingdom Jay J. Anderson, 2025-02-27. O Father, Lord of heaven and earth, thank you for hiding these things from those who think themselves wise and clever, and for revealing them to the childlike. Yes, Father, it pleased you to do it this way. JESUS. This book, crayons, and cartoons notwithstanding, really isn't a children's book. Yet at its heart, that's exactly what it is. It's kind of hard to explain, which is probably why the author uses so many colors and pictures, though that's not the only reason. As a starting point, let's agree it's a book alphabet for kids of all ages, especially those who have experienced a few more birthday parties and Christmas mornings. And for Anderson's first word play, it is also a book filled with truth that is for all times, all places, and all people, all ages. After all, the eternal words of Jesus will be front and center from start to finish. The call of Jesus to his kingdom requires we become and live childlike. So what does that sound like, look like, and live like? Oh, and play like. You are invited by the King to enter The Childlike Kingdom.
