The Emergence of Metropolitan America, 1915-1966 Blake McKelvey, 1963 **The Emergence of Metropolitan America, 1915-1966** Blake MacKelvey, 1972 **The emergence of metropolitan America** Blake McKelvey, 1968 **The Metropolitan Revolution** Jon C. Teafor, 2006-05-16 In this absorbing history Jon C Teafor traces the dramatic evolution of American metropolitan life At the end of World War II the cities of the Northeast and the Midwest were bustling racially and economically integrated areas frequented by suburban and urban dwellers alike Yet since 1945 these cities have become peripheral to the lives of most Americans Edge cities are now the dominant centers of production and consumption in post suburban America Characterized by sprawling freeways corporate parks and homogeneous malls and shopping centers edge cities have transformed the urban landscape of the United States Teafor surveys metropolitan areas from the Rust Belt to the Sun Belt and the way in which postwar social racial and cultural shifts contributed to the decline of the central city as a hub of work shopping transportation and entertainment He analyzes the effects of urban flight in the 1950s and 1960s the subsequent growth of the suburbs and the impact of financial crises and racial tensions He then brings the discussion into the present by showing how the recent wave of immigration from Latin America and Asia has further altered metropolitan life and complicated the black white divide Engaging in original research and interpretation Teafor tells the story of this fascinating metamorphosis **Metropolitan America** Kenneth Fox, 1985 *A History of American State and Local Economic Development* Ronald W. Coan, 2017-04-28 A History of American State and Local Economic Development relates the history of American local and state economic development from 1790 to 2000 This multi variable multi disciplinary history employs a bottom up policy making systems approach while exploring the three eras of economic development Harvard Guide to American History Frank Freidel, Frank Burt Freidel, Richard K. Encyclopedia of American Urban History David Goldfield, 2007 Publisher description **Henry Ford's Plan for the American Suburb** Heather Barrow, 2018-10-29 Around Detroit suburbanization was led by Henry Ford who not only located a massive factory over the city's border in Dearborn but also was the first industrialist to make the automobile a mass consumer item So suburbanization in the 1920s was spurred simultaneously by the migration of the automobile industry and the mobility of automobile users A welfare capitalist Ford was a leader on many fronts he raised wages increased leisure time and transformed workers into consumers and he was the most effective at making suburbs an intrinsic part of American life The decade was dominated by this new political economy also known as Fordism linking mass production and consumption The rise of Dearborn demonstrated that Fordism was connected to mass suburbanization as well Ultimately Dearborn proved to be a model that was repeated throughout the nation as people of all classes relocated to suburbs shifting away from

central cities Mass suburbanization was a national phenomenon Yet the example of Detroit is an important baseline since the trend was more discernable there than elsewhere Suburbanization however was never a simple matter of outlying communities growing in parallel with cities Instead resources were diverted from central cities as they were transferred to the suburbs The example of the Detroit metropolis asks whether the mass suburbanization which originated there represented the American dream and if so by whom and at what cost This book will appeal to those interested in cities and suburbs American studies technology and society political economy working class culture welfare state systems transportation race relations and business management **American Studies** Jack Salzman, American Studies Association, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 *The New Suburban History* Kevin M.
