Old Labor and New Immigrants in American Political Development Gwendolyn Mink,2019-06-30 Why have American politics developed differently from politics in Europe Generations of scholars and commentators have wondered why organized labor in the United States did not acquire a broad based constituency or form an autonomous labor party In this innovative and insightful book Gwendolyn Mink finds new answers by approaching this question from a different angle she asks what determined union labor s political interests and how those interests influenced the political role forged by the American Federation of Labor At bottom Mink argues the demographic dynamics of industrialization produced a profound racial response to economic change among organized labor This response shaped the AFL s political strategy and political choices In her account of the unique role played by labor in politics prior to the New Deal Mink focuses on the ways in which the organizational and political interests of the AFL were mediated by the national issue of immigration and links the AFL s response to immigration to its conservative stance in and toward politics She investigates the political impact of a labor

market split between union and nonunion old and new immigrant workers of dramatic demographic change and of nativism and racism Mink then elucidates the development of trade union political interests ideology and strategy the movement of the AFL into established state and party structures and the consequent separation of the AFL from labor's social base
