Addressing Racial Disproportionality and Disparities in Human Services Rowena Fong, Alan J. Dettlaff, Joyce James, Carolyn Rodriguez, 2014-11-25 The issue of racial disproportionality in the child welfare

system particularly as it impacts African American children and families has long been a concern to practitioners and policymakers. However, disproportionality is not limited to the African American community. Latino, Native American, Asian American, and Pacific Islander populations experience inequities in treatment. From leading voices on culturally competent care comes a cutting edge book that examines disproportionalities across all of these racial and ethnic groups. *Eliminating Racial Disproportionality and Disparities* examines a wide range of systems that often affect and interact with child welfare. Chapters are devoted to the juvenile justice system, mental health, the courts, education, and healthcare, making it the only book to offer a multisystemic approach to disparities and disproportionality. Filled with in depth case studies, key terms, study questions, and resources, and written to reflect CSWE mandated competencies, this expansive book gives students, educators, policymakers, practitioners, and administrators new knowledge for providing culturally competent services while simultaneously addressing disproportionality across various systems of care.

Play Therapy Treatment Planning and Interventions Kevin John O'Connor, Sue Ammen, 2012-10-31 *Play Therapy Treatment Planning and Interventions: The Ecosystemic Model and Workbook 2e* provides key information on one of the most rapidly developing and growing areas of therapy. Ecosystemic play therapy is a dynamic integrated therapeutic model for addressing the mental health needs of children and their families. The book is designed to help play therapists develop specific treatment goals and focused treatment plans as now required by many regulating agencies and third party payers. Treatment planning is based on a comprehensive case conceptualization that is developmentally organized, strength based, and grounded in an ecosystemic context of multiple interacting systems. The text presents guidelines for interviewing clients and families, as well as pretreatment assessments and data gathering for ecosystemic case conceptualization. The therapist's theoretical model, expertise, and context are considered. The book includes descriptions of actual play therapy activities organized by social, emotional, developmental levels of the children. Any preparation the therapist may need to complete before the session is identified, as is the outcome the therapist may expect. Each activity description ends with a suggestion about how the therapist might follow up on the content and experience in future sessions. The activity descriptions are practical and geared to the child. Case examples and completed sections of the workbook are provided. It provides the therapist with an easy to use format for recording critical case information, specific treatment goals, and the overall treatment plan. Workbook templates can be downloaded and adapted for the therapist's professional practice. Presents a comprehensive theory of play therapy. Clearly relates the theoretical model to interventions. Provides examples of the application of both the theory and the intervention model to specific cases. Describes actual play therapy activities. Workbook format provides a means of obtaining comprehensive intake and assessment data. Case examples provided throughout.

Legal Issues in Mental Health Care
B.A. Weiner, R. Wettstein, 2013-06-29 I OVERVIEW *Legal Issues in Mental Health Care* is aimed at the mental health clinician who provides services on either an inpatient or an outpatient basis It is written for psychiatrists psychologists social workers nurses and other therapists to help them understand and manage legal issues in their daily practice The issues covered apply to therapists who work for an agency or hospital as well as those who work independently The book is meant to serve as a handbook but it also provides a quick resource as legal questions arise which are related to the obligations of the therapist It addresses the legal issues that confront the clinician It is not aimed at the clinician who specializes in forensic mental health issues because the information provided does not reach that level of detail or sophistication Nor is it aimed at the scholar because our goal is to provide practical information in a clear and concise format We have not addressed the wide array of laws protecting the mentally disabled from discrimination most notably the Americans with Disabilities Act 1990 and the Fair Housing Act Most states also have laws that prohibit discrimination in employment services and housing These issues are beyond the scope of this book because we are addressing the legal issues that arise in providing care rather than the rights of mentally disabled persons 11 ORGANIZATION OF THE BOOK The book consists of eleven chapters and a Glossary of Legal Terms
