Handbook Of Social Gerontology Societal Aspe:

The SAGE Handbook of Social Gerontology Dale Dannefer, Chris Phillipson, 2010-08-13 This SAGE Handbook integrates basic research on social dimensions of aging. It presents programmatic applications of research in areas not often seen in Handbooks including imprisonment technology and aging urban society aged and elderly migration. The authors constitute a Who's Who of international gerontology and the focus on globalization and aging is unique among Handbooks today. This Handbook should be in the library of every social gerontologist. Vern L. Bengtson, Professor of Gerontology, University of Southern California. This volume reflects the emergence of ageing as a global concern including chapters by international scholars from Asia, Australasia, Europe and North America. It provides a comprehensive overview of key trends and issues in the field drawing upon the full range of social science disciplines. The Handbook is organized into five parts each exploring different aspects of research into social aspects of ageing. Disciplinary overviews, summaries of findings from key disciplinary areas within social gerontology. Social relationships and social differences explores areas like social inequality, gender, religion, inter-generational ties, social networks and friendships. Individual characteristics and change in later life examines different aspects of individual aging including self and identity, cognitive processes and bio-social interactions and their impact on physical and psychological aging. Comparative perspectives and cultural innovations. Topics include ageing and development, ageing in a global context, migration and cross-cultural perspectives on grandparenthood. Policy issues covering policy concerns such as long-term care, technology and older people, end of life issues, work and retirement and the politics of old age. This will be essential reading for all students, researchers and policy makers concerned with the major issues influencing the lives of older people across the globe.

Handbook of Social Gerontology Clark Tibbitts, 1965 **Social Work and Health Care in an Aging Society** Barbara Berkman, Linda Harootyan, 2003-06-01 This book places significant issues related to the health, mental health and well-being of older adults and their caregivers within the context of social work service delivery. By presenting the research of social work scholars, all experts in specific research areas, the editors clarify the value that social work brings to the larger realm of health care for older adults and their families. Special consideration is given to such issues as case management, urban African American elders, grandmothers raising grandchildren, aging persons with developmental disabilities, home health care and more. Handbook of Social Gerontology Clark Tibbitts, 1967 **Comprehensive Handbook of Psychopathology** Henry E. Adams, Patricia B. Sutker, 2013-04-17 The first edition of Comprehensive Handbook of Psychopathology was published in 1984, almost a decade ago. In the interim, there has been an explosion of information in psychopathology. Proliferation of knowledge has included a widening base of research data and changing or new concepts and theories regarding classification, measurement methods and etiology of abnormal behaviors and mental disorders. It has been an active and productive period for biological and behavioral scientists and clinicians, particularly in terms of changing notions of the

complex interaction of environmental and biological factors in many disorders For example with the classic disorders such as anxiety and dissociative disorders our understanding while far from perfect has been greatly enhanced in recent years Whereas there was almost a vacuum of empirical knowledge ten years ago about the personality disorders concentrated efforts have been undertaken to investigate classification comorbidities and expression of the personality disorders and variants in normal personality traits In addition scientific advances in the fields of behavioral medicine health psychology and neuropsychology have greatly contributed to our knowledge of psychopathology and the interplay of psychobiological factors It is now commonly acknowledged that psychopathology is not limited to the traditional mental illness categories it also plays a significant role in many physical illnesses such as cancer and AIDS With these developments it became clear that the first edition of this handbook was outdated and that a revision was needed *Growing Old in Different Societies* Jay

Sokolovsky,1987 **The Encyclopedia of Aging** George L. Maddox,2013-12-11 Comprehensive multidisciplinary encyclopedia dealing with aging processes and older adults Intended for the educated inquirer who needs a brief authoritative introduction to key topics and issues in aging Signed entries contain cross references Contains lengthy bibliography General index **Health Care for an Aging Society** David Haber,2014-01-02 First published in 1989 In an aging society however the challenge broadens to include health care and social support at home and in the community The major premise of this book is that cost conscious community care and self care will become increasingly important as the era of cost containment intensifies *Aging in a Changing Society* James Thorson,2013-08-21 The field of gerontology the study of aging has emerged as an area of increasing importance This book is an introduction to the multidisciplinary field of gerontology The text with its friendly narrative style assumes no prior knowledge of gerontology sociology or psychology

Aging, Globalization and Inequality Jan Baars,Dale

Dannefer,Chris Phillipson,Alan Walker,2016-11-03 This book is a major reassessment of work in the field of critical gerontology providing a comprehensive survey of issues by a team of contributors drawn from Europe and North America The book focuses on the variety of ways in which age and ageing are socially constructed and the extent to which growing old

is being transformed through processes associated with globalisation The collection offers a range of alternative views and visions about the nature of social ageing making a major contribution to theory building within the discipline of gerontology The different sections of the book give an overview of the key issues and concerns underlying the development of critical gerontology These include first the impact of globalisation and of multinational organizations and agencies on the lives of older people second the factors contributing to the social construction of later life and third issues associated with diversity and inequality in old age arising through the effects of cumulative advantage and disadvantage over the life course These different themes are analysed using a variety of theoretical perspectives drawn from sociology social policy political science and social anthropology *Aging Globalization and Inequality* brings together key contributors to critical perspectives on aging and is unique in the range of themes and concerns covered in a single volume The study moves forward an important area of debate in studies of aging and thus provides the basis for a new type of critical gerontology relevant to the twenty first century

Health Aspects of Aging Gari Lesnoff-Caravaglia, 2007 This second edition of *Health Aspects of Aging* serves to broaden the perspectives of societal change due to increases in life expectancy as well as the effects of age related changes as they impinge upon the provision of health care for older persons The growing presence of a large number of persons aged 65 and older worldwide has propelled a re evaluation of the nature of life that is protracted to 100 years and beyond The emphasis in this second edition is to replace the prevailing problem approach to aging by a problem solving approach The problem solving approach of this volume has all
