Managing Community Resettlement Robert Gerrits,2023-06-22 Each year millions of people are displaced from their homes and lands While international environmental and social performance standards on land access and involuntary resettlement exist no framework supporting livelihood restoration has been developed This book provides a framework that will help improve practice for those who are involved in resettlement projects and crucially improve the outcomes for the resettlement affected households and communities Evidence from the implementation of public and private sector led resettlement projects indicates that livelihood restoration is a persistent shortcoming if not failure across these projects This book addresses this issue by re characterising the livelihood restoration objective as livelihood re establishment and development and proposes a framework for the entire resettlement process that puts livelihood considerations first The framework enables proactive identification of the potential livelihood challenges associated with each step of the resettlement process design planning execution monitoring and evaluation as well as the opportunities that resettlement project development and induced economic growth create This book is essential reading for experts in social impact assessment resettlement specialists planners administrators non governmental and civil society organisations and students of development studies and social policy *Privatising Development* Michael Likosky,2005 This book looks at the shift since the 1980s away from state financed and towards privatised international infrastructure projects An interdisciplinary group of contributors look at the relationship between privatisation and human rights in diverse national settings and in multiple

sectors of the economy These issues are explored through international organisation frameworks and internal policies legislative guides contracts and public private partnerships The roles of the World Bank MIGA export credit agencies the UN Commission on International Trade Law credit ratings agencies international banks TNCs NGOs community groups and state agencies are examined The Handbook of Highway Engineering T.F. Fwa,2005-09-28 Modern highway engineering reflects an integrated view of a road system s entire lifecycle including any potential environmental impacts and seeks to develop a sustainable infrastructure through careful planning and active management This trend is not limited to developed nations but is recognized across the globe Edited by renowned authority *Land Access and Resettlement* Gerry Reddy,Eddie Smyth,Michael Steyn,2017-09-08 This book is an up to date accessible and practical guide on how to optimally plan for implement and review land access and resettlement It provides step by step information on how to avoid pitfalls ensure that best practice is being employed and the correct standards are being applied With useful real life examples of when projects have gone well and when they haven t the book is based on the main lessons that have been learned on the ground over the past decade Natural resource projects can have considerable impacts on local communities chiefly due to the need to acquire large areas of land When projects are located in developing and middle income economies the impacts are most keenly felt as it often requires displacement of large rural populations with predominately land based livelihoods The authors have planned implemented and reviewed over 50 land access and resettlement projects in over 30 countries internationally and conducted benchmarking exercises on a further 60 projects This experience provides the basis for the book The book guides the reader through the different stages of preparing for a land resettlement project Land Access and Resettlement is a key social risk for the natural resources sector particularly the mining oil and gas industries who are operating in a context of increased awareness and regulation regarding the potential social impacts of their activities At the same time companies increasingly appreciate the business case for getting social right This book provides a practical road map to corporate leaders project managers practitioners academia government and civil society for practically planning and implementing successful land access and resettlement and creating win win outcomes for companies and communities

Handbook of Environmental Impact Assessment Arjun Kumar A. Rathi,2021-03-29 Due to rapid economic growth and enhancing employment opportunities manufacturing and infrastructural projects play a vital role especially in developing nations Even though voluminous literature is available on environmental impact assessment EIA guidelines on conducting good quality assessments are lacking It may be recognized that good EIA reports can only facilitate government decision making with sustainability considerations The book is the result of the review of more than 150 EIA reports and the analysis of shortcomings observed by the author It will serve to bridge the gap in the limited understanding of EIA concepts by practitioners and practical aspects by fresh graduates The book describes the output and salient features of a good quality EIA report and case studies to facilitate professionals preparing and appraising these reports It will be of immense use to

environment ministries EIA practitioners EIA appraisal authorities project proponents academics and NGOs especially in the emerging economies Handbook for Preparing a Resettlement Action Plan ,2002 The goal of the International Finance Corporation is to promote sustainable development through private sector investment in developing countries in order to reduce poverty and improve people s lives IFC often supports investments that involve complex social and environmental issues and it takes these issues very seriously IFC recognizes that the resettlement of people from their homes or displacement of people from their livelihoods is economically and socially disruptive and may affect some people living close to the edge of survival Where resettlement is unavoidable each project requires its utmost attention IFC considers resettlement an opportunity to improve peoples lives by providing sustainable benefits and improved means of livelihood to people affected by IFC financed projects This handbook outlines methods and practices for the preparation of successful resettlement action plans conforming to IFC s policy on involuntary resettlement As a reference for project developers it describes the issues associated with the economic and physical displacement of people and provides an appreciation of the level of effort a project will require It is intended primarily to assist the practitioners consultants NGOs and community based organizations that design and carry out resettlement activities The handbook may be used in conjunction with IFC s public consultation Good Practice Manual and its Community Development Guide Making a Difference? Susanna Price,Kathryn Robinson,2015-01-01 Social assessment for projects in China is an important emerging field This collection of essays from authors whose formative work has influenced the policies that shape practice in development affected communities locates recent Chinese experience of the development of social assessment practices including in displacement and resettlement in a historical and comparative perspective Contributors social scientists employed by international development banks national government agencies and sub contracting groups examine projects from a practitioner s perspective Real life experiences are presented as case specific praxis theoretically informed insight and pragmatic lessons learned grounded in the history of this field of development practice They reflect on work where economic determinism reigns supreme yet project failure or success often hinges upon sociopolitical and cultural factors Displacement Beyond Conflict Christopher McDowell,Gareth Morrell,2010-12-01 There is growing political concern about the increasing numbers of people displaced both within the borders of their countries and internationally This volume explores the interrelated drivers of contemporary global displacement with a particular focus on low level conflict climatic and environmental change and infrastructure development The authors examine the governance of global displacement assessing the protection needs and responses of national governments and the international community It further considers options for improving the humanitarian and political management of this growing problem *Assessing the Social Impact of Development Projects* Hari Mohan Mathur,2015-12-16 This book shows how social impact assessment SIA which emerged barely five decades ago as a way to anticipate and manage potentially negative social impacts of building dams power stations urban infrastructure highways

industries mining and other development projects is now widely in use as a planning tool especially in developed countries Although SIA has still not gained much acceptance among development planners in Asia the situation is gradually changing In India SIA initially mandated as a policy guideline in 2007 is now a legal requirement SIA in China has also recently become obligatory for certain types of development projects Bangladesh Laos Nepal Pakistan and Sri Lanka are other Asian countries that provide examples from a variety of externally funded projects illustrating the use of social impact analysis in project planning to improve development outcomes With contributions from an array of leading experts this book is a valuable resource on SIA indispensable for policymakers planners and practitioners in government international development agencies private sector industry private banks consultants teachers researchers and students of social sciences and development studies also NGOs everywhere not in Asia alone

Socio-Economic Human Rights in Essential Public Services Provision Marlies Hesselman, Antenor Hallo de Wolf, Brigit Toebes, 2016-11-10 There is a clear overlap between securing socio economic human rights for all persons and arranging adequate access to essential public services across society Both are necessary to realise thriving inclusive societies with adequate living standards for all based on human dignity This edited volume brings together the two topics for the first time In particular it identifies the common challenges for essential public services provision and socio economic human rights realisation and it explores how socio economic rights law can be harnessed to reinforce better access to services An important aim of this book is to understand how international socio economic human rights law and guideposts can be used and strengthened to improve access to services and assess socio economic legal and policy decisions The volume includes contributions from different continents on a range of different services and engages with the realities of different regulatory settings After an introduction that sets out the most important challenges for universal access to services including sufficient resources mobilisation private actor involvement and regulation or the need for improved checks and balances the book goes on to discuss current issues in services provision and socio economic rights as well as explores the place and role of private business actors in the provision of services In particular it assesses how the responsibility and accountability of such actors for human rights can be improved The final part of the book narrows in on the under explored human rights concepts of participation and accountability as essential prerequisites for better checks and balances Overall this volume presents a unique and powerful illustration of how socio economic human rights law supports improved access to essential public services for all
