Historical Paul gathers leading voices on various aspects of Paul's biography into a thorough reconsideration of him as a historical figure. The contributors show how recent trends in Pauline scholarship have invited new questions about a variety of topics including his social location, his mode of subsistence, his cultural formation, his place within Judaism, his religious experience and practice, and his affinities with other religious actors of the Roman world. Through careful attention to biographical detail, social context, and historical method, it seeks to describe him as a contextually plausible social actor. The volume is structured in three parts. Part One introduces sources, methods, and historiographical approaches surveying the foundational texts for Paul and the early Pauline tradition. Part Two examines key biographical questions pertaining to Paul's bodily comportment, the material aspects of his career, and his religious activities. Part Three reconstructs the biographical portraits of Paul that emerge from the letters associated with him, presenting a series of micro-biographies pieced together by leading Pauline scholars.
