Handbook of International Social Work Lynne M. Healy, Rosemary J. Link, 2012 Global knowledge is increasingly essential for all aspects of social work Today s professionals respond to concerns including permeable borders the upheavals of war displaced workers natural disasters international adoption and human trafficking Everywhere social workers work with service users and colleagues from diverse cultures and countries Globally relevant concepts such as human rights development and inclusion offer new perspectives to enhance policy and practice and facilitate the international exchange of ideas This handbook is the first major reference text to provide a solid foundation of knowledge for students and researchers alike The extensive collection of 73 chapters confirms the integral and necessary nature of international social work knowledge to all areas of practice policy and research Chapters systematically map the key issues organizations competencies training and research needs and ethical guidelines central to international social work practice today emphasizing the linkages among social work development and human rights practice In depth country case studies and policy examples encourage readers to understand how their practice in social work touches on international issues regardless of whether the work is done at home or abroad Representing all

regions of the world a wide range of contributors that are leaders in their fields have put together an exhaustive collection that represents the state of play of international social work today *Criminologies of the Military* Ben Wadham, Andrew Goldsmith, 2018-06-28 This innovative collection offers one of the first analyses of criminologies of the military from an interdisciplinary perspective While some criminologists have examined the military in relation to the area of war crimes this collection considers a range of other important but less explored aspects such as private military actors insurgents paramilitary groups and the role of military forces in tackling transnational crime Drawing upon insights from criminology this book's editors also consider the ways the military institution harbours criminal activity within its ranks and deals with prisoners of war The contributions by leading experts in the field have a broad reach and take a truly global approach to the subject **Total Defence Forces in the Twenty-First Century** Joakim Berndtsson, Irina Goldenberg, Stéfanie von

Hlatky, 2023-12-15 Total defence as a concept combines and extends military and civil defence in a state of war or emergency all social institutions mobilize to defend the state Total defence forces led by a diverse workforce of defence and security professionals are critical to both national defence and international security goals Total Defence Forces in the Twenty First Century looks at the various groups that make up this workforce members of the military's regular force reservists defence civil servants and contractors working for private military and security companies When civilian staff and military personnel work towards a common goal their distinct professional cultures and identities can make integration challenging Despite the often high levels of partnership underlying differences affect the quality of the collaboration and ultimately organizational and operational effectiveness Defence ministries around the world are increasingly recognizing the importance of optimizing the ways in which they employ and integrate civilian and military personnel This volume focuses on a critical question what are the main challenges to workforce integration and collaboration and how can such challenges be overcome to deliver the full potential of the total defence force Together scholars and practitioners provide some answers **The Routledge**

Companion to Military Research Methods Alison J. Williams, Neil Jenkins, Rachel Woodward, Matthew F. Rech, 2016-04-28 This new handbook is about the practices of conducting research on military issues As an edited collection it brings together an extensive group of authors from a range of disciplinary perspectives whose chapters engage with the conceptual practical and political questions raised when doing military research The book considers a wide range of questions around research about on and with military organisations personnel and activities from diverse starting points across the social sciences arts and humanities Each chapter in this volume Describes the nature of the military research topic under scrutiny and explains what research practices were undertaken and why Discusses the author's research activities addressing the nature of their engagement with their subjects and explaining how the method or approach under scrutiny was distinctive because of the military context or subject of the research Reflects on the author's research experiences and the specific often unique negotiations with the politics and practices of military institutions and military personnel before

during and after their research fieldwork The book provides a focussed overview of methodological approaches to critical studies of military personnel and institutions and processes and practices of militarisation and militarism In particular it engages with the growth in qualitative approaches to military research particularly research carried out on military topics outside military research institutions The handbook provides the reader with a comprehensive guide to how critical military research is being undertaken by social scientists and humanities scholars today and sets out suggestions for future approaches to military research This book will be of much interest to students of military studies war and conflict studies and research methods in general

The Sociology of Development Handbook Gregory Hooks, 2016-09-06 This handbook brings together essays by leading contributors to development sociology by addressing intellectual challenges internal and international migration transformation of political regimes globalization changes in household and family formations gender dynamics technological change population and economic growth environmental sustainability peace and war and the production and reproduction of social and economic inequality The Sociology of Development Handbook includes essays that reflect the range of debates in development sociology and in the interdisciplinary study and practice of development Provided by publisher

War, Peace and the Military Franz Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of rethinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society

Management and Military Studies Joseph Soeters, 2020-03-24 This book connects findings and insights authored by famous scholars in management and organization studies with challenges the military is facing today One assumes that management and organization studies is only about the rational predictable and manageable and that military action is predominately irrational unpredictable and unmanageable both assumptions are wrong This book argues that the discipline of management and organization studies is highly relevant for the military in both peace and wartime conditions and for any situation in between In all conditions the giant and complex military organization needs to be structured processed administrated led and accounted for Each chapter presented in this volume focuses on the contributions of founding thinkers in management and organization studies with their work translated and applied to the military setting These scholars are drawn from a variety of backgrounds including organizational sociology economics political science psychology and engineering Although the work of

only a few explicitly refers to the military the contributions of all these scholars are relevant in order to come to grips with security and military affairs Together with many other academics work the contributions of these 18 scholars constitute the core of the field of management and organization studies This book will be of much interest to students of military studies management studies and organization studies *Military Families and War in the 21st Century* Rene Moelker, Manon Andres, Gary Bowen, Philippe Manigart, 2015-05-14 This book focuses on the key issues that affect military families when soldiers are deployed overseas focusing on the support given to military personnel and families before during and after missions Today's postmodern armies are expected to provide social psychological support both to their personnel in military operations abroad and to their families at home Since the end of the Cold War and even more so after 9 11 separations between military personnel and their families have become more frequent as there has been a multitude of missions carried out by multinational task forces all over the world The book focuses on three central questions affecting military families First how do changing missions and tasks of the military affect soldiers and families Second what is the effect of deployments on the ones left behind Third what is the national structure of family support systems and its evolution The book employs a multidisciplinary approach with contributions from psychology sociology history anthropology and others In addition it covers all the services Army Navy Marines Air Force spanning a wide range of countries including UK USA Belgium Turkey Australia and Japan At the same time it takes a multitude of perspectives such as the theoretical empirical reflective life events narrative approach national and the global and uses approaches from different disciplines and perspectives combining them to produce a volume that enhances our knowledge and understanding of military families This book will be of much interest to students of military studies sociology war and conflict studies and IR political science in general **Researching the Military** Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world It explores the historical social institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy More than merely analyzing research experiences yet necessarily including them it is also about the experiences of researchers their position with regard to the object of their studies the institutional context where they work and the way their research impacts the academic and policy making fields in the respective countries The common theme to the various chapters is reflexivity a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface By collecting diverse experiences of researchers from across the world this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena This book will be of much interest to students of military studies research methods sociology social anthropology and security studies in general *Military Ethics* Igor Primoratz, 2017-05-15 Recent developments such as the new wars or the growing privatisation of warfare and the ever more sophisticated military technology present the military with difficult ethical

challenges This book offers a selection of the best scholarly articles on military ethics published in recent decades It gives a hearing to all the main ethical approaches to war just war theory consequentialism and pacifism Part I includes essays on justice of war jus ad bellum focussing on defence against aggression and humanitarian armed intervention but also addressing topics such as conscientious objection and the relation of patriotism to war Articles in Part II deal with the central problems of justice in war jus in bello civilian immunity and collateral damage to civilian life and property Essays in Part III look into the moral issues facing the military as a profession such as the civil military relations the responsibilities of officers to their soldiers and to their military superiors and the status and responsibilities of prisoners of war

Military and Democracy in Nepal Indra Adhikari, 2015-06-12 This book explores the development of the military as an organization and looks at the patterns of civil military relations that have emerged in modern Nepal especially after the rise of King Prithvi Narayan Shah who founded the unified state of Nepal It combines astute analyses with up to date data to present a comprehensive account of the relations between monarchy military and civil government and their impact on the democratization process in the country The author underlines the pressing need for establishing civilian supremacy over the military through developing and strengthening civilian supervisory mechanisms The book will be an important resource to researchers scholars students of politics military studies peace and conflict studies and history particularly those concerned with Nepal It will also interest policy makers security experts and military personnel

The Combat Soldier Anthony King, 2013-02-21 A work of historical comparative sociology examining the evolution of infantry tactics in the American Australian Canadian British French German and Italian armies from the First World War to the present It addresses a key question in the social sciences of how social solidarity cohesion is generated and sustained

Reforming Civil-Military Relations in New Democracies Aurel Croissant, David Kuehn, 2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations By tracing the development of civil military relations in various new democracies from a comparative perspective it links two bodies of scholarship that thus far have remained largely separate the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other The empirical and theoretical findings presented here will appeal to scholars of civil military relations democratization and security issues as well as to defense policy makers

Civil-military Relations in Europe Hans Born, 2006 This comparative study looks at how democratic control of the military functions in practice in Europe This is essential reading for students of civil military relations democratization European politics and security studies in general

Ethics Education in the Military Nigel de Lee, 2017-03-02 With formal ethics education programmes being a rarity in most countries armed forces there is a growing importance for servicemen to undergo additional military ethics training But how do we ensure that soldiers learn the right lessons from it Furthermore how can we achieve a uniformity of approach The current lack of uniformity about what

constitutes ethical behaviour and how troops should be educated in it is potentially a cause for serious alarm This book advances knowledge and understanding of the issues associated with this subject by bringing together experts from around the world to analyze the content mode of instruction theoretical underpinnings and the effect of cultural and national differences within current ethics programmes It also explores whether such programmes are best run by military officers chaplains or academic philosophers and reflects whether it is feasible to develop common principles and approaches for the armed forces of all Western countries This is an invaluable volume for military academies and staff colleges to enhance understanding of a matter which requires much further thought and which is becoming a vital force in influencing outcomes on the battlefields of the twenty first century The book will primarily be of interest to military officers and others directly involved in ethics education in the military as well as to philosophers and students of military affairs

Social Sciences and the Military Giuseppe Caforio, 2006-11-22 Analyzes the military from a broad interdisciplinary basis in the social sciences filling the gap in the market Contains an international cast of scholars from the fields of military sociology and social sciences Will appeal to scholars of military sociology conflict resolution peace studies military history security studies and professionals in NGOs and military colleges

Military Unionism In The Post-Cold War Era Richard Bartle, Lindy Heineken, 2006-07-29 This unique study of military unionism shows how the changing nature of present day conflicts has made soldier representation more important than ever This new collection of essays clearly establish the key factors in the military union debate in recent years and highlight the mechanisms different armed forces have created to deal with the aspirations of their members Core issues covered include the nature of organizational and force restructuring since the end of the Cold War the new structures of military employment changes in value systems such as rising individualism and the new culture of recruits legal political social and economic factors driving the debate Placing military unionism in comparative perspective these chapters provide the reader with an excellent basis for the examination of international military unionism from the viewpoint of countries with no unions those recently unionised and those unionised for some time This new book will be of great interest to students researchers and professionals in military studies defence management and sociology of the armed forces

Research Methods in Defence Studies Delphine Deschaux-Dutard, 2020-08-09 This textbook provides an overview of qualitative and quantitative methods used in different social sciences to investigate defence issues Recently defence issues have become of increasing interest to researchers in the social sciences but they raise specific methodological questions This volume intends to fill a gap in the literature on defence studies by addressing a number of topics not dealt with sufficiently before The contributors offer a range of methodological reflections and tools from various social sciences political science sociology geography history economics and public law for researching defence issues They also address the increasingly important question of data and digitalization The book introduces the added value of quantitative and qualitative methods and calls for a cross fertilization of methods in order to facilitate better research on defence topics and to fully grasp

the complexity of defence in the 21st century This book will be of much interest to students researchers and practitioners of defence studies war studies military studies and social science research methods in general
