Proctor,2022-11-03 Come to My Garden 1970 introduced the world to Minnie Riperton the solo artist Minnie captivated listeners with her earth shattering voice s uncanny ability to evoke melancholy and exultance Born out of Charles Stepney s masterful composition and Richard Rudolph s attentive songwriting the album fused a plethora of music genres A blip in the universe of fusion music that would come to dominate the 1970s Come to My Garden also featured the work of young bandleaders like Ramsey Lewis and Maurice White thus bridging the divide between jazz and R B Despite fairly positive reviews of the album even in its many re releases it never garnered critical attention Minnie Riperton s Come to My Garden by Brittney L Proctor uses rare archival ephemera the multiple re issues of the album interviews cultural history and personal narrative to outline how the revolutionary album came to be and its lasting impact on popular music of the post soul era the late 20th to the early 21st century **Dead Funny** David Gillota,2023-07-14 Horror films strive to make audiences scream but they also garner plenty of laughs In fact there is a long tradition of horror directors who are fluent in humor from James Whale to John Landis to Jordan Peele So how might horror and humor overlap more than we would expect Dead Funny locates humor as a key element in the American horror film one that is not merely used for extraneous comic relief moments but often serves to underscore major themes intensify suspense and disorient viewers Each chapter focuses on a different comic style or device from the use of funny monsters and scary clowns in movies like A Nightmare on Elm Street to the physical humor and slapstick in movies ranging from The Evil Dead to Final Destination Along the way humor scholar David Gillota explores how horror films employ parody satire and camp to comment on gender sexuality and racial politics Covering everything from the

grotesque body in *Freaks* to the comedy of awkwardness in *Midsommar* this book shows how integral humor has been to the development of the American horror film over the past century

Reading the Homeless Eungjun Min, 1999-06-30 As one of our country's major social problems homelessness is often in the news The media tend to portray the homeless as drunk stoned crazy or sick individuals a portrayal that is only partly accurate and represents an obstacle to our understanding of the wider social implications of this complex issue This edited collection examines the various ways both verbal and visual in which the homeless have been portrayed by the media from the 1980s to the present day The contributors apply different frameworks ranging from phenomenology to culture studies to analyze the characteristics implications and consequences of the stories and images disseminated by the media

Uncharitable Dan Pallotta, 2022-10-21 *Uncharitable* investigates how for profit strategies could and should be used by nonprofits *Uncharitable* goes where no other book on the nonprofit sector has dared to tread Where other texts suggest ways to optimize performance inside the existing charity paradigm *Uncharitable* suggests that the paradigm itself is the problem and calls into question our fundamental canons about charity Dan Pallotta argues that society's nonprofit ethic creates an inequality that denies the nonprofit sector critical tools and permissions that the for profit sector is allowed to use without restraint These double standards place the nonprofit sector at an extreme disadvantage While the for profit sector is permitted to use all the tools of capitalism the nonprofit sector is prohibited from using any of them Capitalism is blamed for creating inequities in our society but charity is prohibited from using the tools of capitalism to rectify them and ironically this is all done in the name of charity This irrational system Pallotta explains has its roots in four hundred year old Puritan ethics that banished self interest from the realm of charity The ideology is policed today by watchdog agencies and the use of so called efficiency measures which Pallotta argues are flawed unjust and should be abandoned By declaring our independence from these obsolete ideas Pallotta theorizes we can dramatically accelerate progress on the most urgent social issues of our time *Uncharitable* is an important provocative timely and accessible book a manifesto about equal economic rights for charity This edition has a new updated introduction by the author

Sweet Charity? Janet Poppendieck, 1999-08-01 In this era of eroding commitment to government sponsored welfare programs voluntarism and private charity have become the popular optimistic solutions to poverty and hunger The resurgence of charity has to be a good thing doesn't it No says sociologist Janet Poppendieck not when stopgap charitable efforts replace consistent public policy and poverty continues to grow In *Sweet Charity* Poppendieck travels the country to work in soup kitchens and gleaning centers reporting from the frontlines of America's hunger relief programs to assess the effectiveness of these homegrown efforts We hear from the clients who receive meals too small to feed their families from the enthusiastic volunteers and from the directors who wonder if their successful programs are in some way perpetuating the problem they are struggling to solve Hailed as the most significant book on hunger to appear in decades *Sweet Charity* shows how the drive to end poverty has taken a wrong turn with thousands of well meaning volunteers on board

We Are

Not Able to Live in the Sky Mara Kardas-Nelson, 2024-06-11 Shortlisted for the J Anthony Lukas Prize A deeply reported work of journalism that explores the promises and perils of microfinance told through the eyes of international lenders and women borrowers in West Africa In the mid 1970s Muhammad Yunus an American trained Bangladeshi economist met a poor female stool maker who needed money to expand her business In an act widely known as the beginning of microfinance Yunus lent 27 to forty two women hoping small credit would help the women pull themselves out of poverty Soon Yunus s Grameen Bank was born and the idea of giving very small high interest loans to poor people took off In 2006 Yunus and the Grameen Bank won the Nobel Peace Prize for efforts to create economic and social development from below But there s a problem with this story There are mounting concerns that these small loans are as likely to bury poor people in debt as they are to pull them from poverty with borrowers from India to Kenya facing consequences such as jail time and forced land sales Reportedly hundreds have even committed suicide What happened Did microfinance take a wrong turn or was it flawed from the beginning Mara Kardas Nelson s *We Are Not Able to Live in the Sky* is about unintended consequences blind optimism and the decades long ramifications of seemingly small policy choices The book is rooted in the stories of women borrowers in Sierra Leone West Africa Their narratives woven through a deep history of modern international development are set against the rise of Yunus s vision that tiny loans would put poverty in museums Kardas Nelson asks What is missed with a single financially focused solution to global inequity that ignores the real drivers of poverty Who stands to benefit and more important who gets left behind *Clearinghouse Review*, 1986

The Politics of Plunder Doug Bandow, 1990-01-01 This slashing critique charges that the federal government and interest groups have badly mismanaged the political process for private ends Transcending conventional ideologies Bandow sees the root of the problem as our failure to honor the Founding Fathers intention to establish a limited government with severely circumscribed powers in all areas People abuse power it is human nature Only limited state authority will keep the political process from disintegrating into petty fighting among factions each competing for its own limited self interest The demise of the original restraints has created an overgrown federal government that is ever more wasteful inefficient and unjust Doug Bandow spares no sacred cows He considers state interference in the free market responsible for an ethic of legalized theft which allows interest groups to use the state to enrich themselves through subsidies competitive restrictions and other protectionist measures He sees a judiciary that has aided the other branches of government in manipulating human conduct and restricting personal freedom for both liberal and conservative reasons And in foreign policy he sees the development of an interventionist consensus whereby Washington attempts to remake foreign nations in its image through military intervention and foreign aid with disastrous results *The Politics of Plunder* is written by an insider who combines theoretical and analytical skill with practical political experience Bandow served in the most conservative administration of recent years yet freely criticizes the nostrums of the Right He is an evangelical Christian yet dislikes the tactics of the Religious Right His unique background campaign worker lawyer

presidential aide magazine editor policy analyst and journalist enables him to go far beyond the usual Washington commentary Bandow's objective is to develop a new political perspective that transcends both conservative and liberal boundaries and emphasizes individual liberty skepticism of state power and tolerance of others Those interested in the world of ideas will find this an accessible practical guide to libertarian thought Those interested in the world of public policy will find here a detailed discussion of scores of recent controversies *The Age of Access* Jeremy Rifkin, 2001-03-05 Visionary activist and author Jeremy Rifkin exposes the real stakes of the new economy delivering the clearest summation yet of how the Internet is really changing our lives The Seattle Times Imagine waking up one day to find that virtually every activity you engage in outside your immediate family has become a paid for experience It's all part of a fundamental change taking place in the nature of business contends Jeremy Rifkin After several hundred years as the dominant organizing paradigm of civilization the traditional market system is beginning to deconstruct On the horizon looms the Age of Access an era radically different from any we have known *Our Fears Made Manifest* Ashley Jae Carranza, 2021-01-27 The beginning of the 21st century was a time of unprecedented events in American society Y2K 9 11 and the wars that followed partisan changes in government and the rapid advancements of the Internet and mass consumerism In the two decades since popular culture particularly film has manifested the underlying anxieties of the American psyche This collection of new essays examines dozens of movies released 1998 2020 and how they drew upon and spoke to mass cultural fears Contributors analyze examples across a range of genres horror teen rom coms military flicks slow burns and animated children's films covering topics including gender and sexuality environmental politics technophobia xenophobia and class and racial inequality
