**The Hands-on Fiction Workbook** Edward Allen,1996      **Hands on Fiction** Edward H. Allen,1995-12      *Touch, Sexuality, and Hands in British Literature, 1740-1901* Kimberly Cox,2021-09-05 From Robert Lovelace's uninvited hand grasps in Samuel Richardson's *Clarissa* to Basil Hallward's first encounter with Dorian Gray literary depictions of touching hands in British literature from the 1740s to the 1890s communicate emotional dimensions of sexual experience that reflect shifting cultural norms associated with gender roles sexuality and sexual expression But what is the relationship between hands tactility and sexuality in Victorian literature And how do we best interpret what those touches communicate between characters This volume addresses these questions by asserting a connection between the prevalence of violent sexually charged touches in eighteenth century novels such as those by Eliza Haywood Samuel Richardson and Frances Burney and growing public concern over handshake etiquette in the nineteenth century evident in works by Jane Austen the Brontës George Eliot Elizabeth Gaskell Thomas Hardy Oscar Wilde and Flora Annie Steel This book takes an interdisciplinary approach that combines literary analysis with close analyses of paintings musical compositions and nonfictional texts such as etiquette books and scientific treatises to make a case for the significance of tactility to eighteenth and nineteenth century perceptions of selfhood and sexuality In doing so it draws attention to the communicative nature of skin to skin contact as represented in literature and traces a trajectory of meaning from the forceful grips that violate female characters in eighteenth century novels to the consensual embraces common in Victorian and neo Victorian literature      **Changing Hands** Peter Capuano,2015-06 A new imagining of human hands as physical objects and literal representations in Victorian fiction      **Youthful Hands** Mira Skylark,AI,2025-03-13 Youthful Hands offers a practical guide to combating premature aging specifically addressing the often neglected skin on your hands The book highlights the importance of consistent hand care emphasizing that simple routines can maintain soft healthy and youthful looking hands It delves into key aspects like hydration explaining how it combats dryness and maintains skin elasticity to prevent wrinkles The book also underscores the necessity of sun protection to shield hands from damaging UV rays which are a primary cause of age spots and collagen breakdown The book progresses from introducing core concepts to developing them through dedicated chapters on hydration UV radiation and hand hygiene It emphasizes preventative care such as meticulous hand hygiene as the most effective strategy for maintaining youthful hands This approach empowers readers to proactively care for their skin and delay aging without resorting to invasive procedures Each chapter provides actionable steps and recommendations to build a personalized hand care routine      **Hand Book** Jeff Newman,2011-08-23 Starting with the clap of a baby's chubby new hands significant life moments are poignantly depicted with tender illustrations and sparse text in this masterful work from Jeff Newman Hands wave good bye as the first trip on the school bus is made hands toss a cap in the air at college graduation Shaking hands with someone new marks the start of a career and perhaps the most important gesture of all

graphic novels and other forms probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers who are of course also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror, such as ghosts, vampires, religion, and gender roles, have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.

**Columbia Law Review**, 1912 **Masculinity and Identity in Irish Literature** Cassandra S. Tully de Lope, 2024-03-25 This book addresses Irish identity in Irish literature, especially masculinity, in some of its forms through an interdisciplinary methodology. The study of language performance through literary analysis and corpus studies will enable readers to approach literary texts from both quantitative and qualitative perspectives, to take advantage of the texts' full potential as well as examining these same texts through the perspective of gender identity. This will be carried out through a specialised corpus composed of 18 novels written by twentieth and twenty-first century male Irish authors. Thus, the language and behaviour patterns of contemporary Irish masculinity can be found as part of these male characters' performance of identity. This book is primarily aimed at undergraduate and graduate students who wish to introduce themselves to the study of gender and identity in an Irish context, as well as researchers looking for interdisciplinary methodologies of study. What is more, it can present researchers with varied options of analysis that corpus studies have not yet touched upon so thoroughly, such as masculinity and Irish literature. As a monograph meant to show analysts new fields of study in Irish literature, this book will sell to academic libraries and can be used in MA courses.

**Non-literary Fiction** Esther Gabara, 2022-12-02 *Non-literary Fiction* examines contemporary art produced in Latin America in reaction to the growing tide of neoliberalism with its purging of specific social, ethnic, and racial meanings. Over decades, military juntas throughout South and Central America, often supported by the US, have brutally restricted freedom of movement and speech and caused whole segments of their populations to disappear. Gabara shows how many Latin American artists, since the late 1950s, have strategically positioned

their art as fictions in response to the social death and unspeakable violence that undergirds their experience By fictions Gabara means a kind of art that encourages a beholder or participant to create the work's meaning for herself out of her own experience thus engaging in fabulation She brings together artists working across Latin America in diaspora and in the US to offer a pathway out of the nationalistic frameworks that generally attend Latin American studies Mexican art Brazilian art etc She builds a case regarding nonliterary fictions through nuanced readings of works by many artists from famous ones such as Lygia Clark Hlio Oiticica and Francis Al s to emerging artists Abraham Cruzvillegas Amalia Pica and Chema Rosado Seijo to Latinx artists such as Asco Raphael Montez Ortiz and Ruben Ortiz Torres engaging work within the political frameworks of Brazil Mexico Argentina Chile Colombia Cuba Puerto Rico and the US
