Hands On The Past Pioneer Archaeologists:

Hands on the Past C. W. Ceram,1966 Hands on the past; pioneer archaeologists tell their own story C. W. Ceram,1973 HANDS ON THE PAST C.W. CERAM,1966 *Unsolved History* Joe Nickell,2005-06-10 The stories are interesting and the scientific approaches used to investigate them are fascinating The Paintsville Herald Kentucky What constitutes historical truth is often subject to change based on new evidence In this book former detective Joe Nickell demonstrates the techniques used in solving some of the world s most perplexing mysteries such as the authenticity of Abraham Lincoln s celebrated Bixby letter the 1913 disappearance of writer and journalist Ambrose Bierce and the apparent real life model for a mysterious character in a novel by Nathaniel Hawthorne Nickell also uses newly uncovered evidence to further investigate the identity of the Nazi war criminal known as Ivan the Terrible A thoughtful well documented book in which the author shares with the reader techniques for solving historical riddles Lexington Herald Leader Performing Antiquity Samuel N. Dorf,2019 *Performing Antiquity* tells the captivating story about some of the most intriguing Belle poque personalities archaeologists philologists classicists and musicologists and the dancers composers choreographers and musicians who brought their research to life at the birth of Modernism **Gods, Graves & Scholars** C.W. Ceram,2012-01-18 C W Ceram visualized archeology as a wonderful combination of high adventure romance history and scholarship and this book a chronicle of man s search for his past reads like a dramatic narrative We travel with Heinrich Schliemann as defying the ridicule of the learned world he actually unearths the remains of the ancient city of Troy We share the excitement of Lord Carnarvon and Howard Carter as they first glimpse the riches of Tutankhamen s tomb of George Smith when he found the ancient clay tablets that contained the records of the Biblical Flood We rediscover the ruined splendors of the Hanging Gardens of Babylon one of the wonders of the ancient world of Chichen Itza the abandoned pyramids of the Maya and the legendary Labyrinth of tile Minotaur in Crete Here is much of the history of civilization and the stories of the men who rediscovered it Illustrated with drawings maps and photographs Lords of the Scrolls: Literary Traditions in the Bible and Gospels Donald K. Sharpes,2005 *Lords of the Scrolls* analyzes ancient literary sources to show how biblical and gospel scribes borrowed and imitated themes from earlier literature to create heroic legends around Hebrew figures and Jesus Comparisons between the Epic of Gilgamesh Enuma Elish Canaanite Egyptian and Greek legends Homeric epics the histories of Herodotus and selected biblical and gospel passages reveal thematic and literary similarities Tracing literary classics from the birth of writing to the first millennium of the modern era this book demonstrates that Hebrew scribes used previous literature to establish a national identity and that gospel scribes borrowed heavily from Homer to create epic legends around the person of Jesus Reconstructing Western Civilization Barbara Sher Tinsley,2006 This is a collection of eleven essays laced with humor and irony on the Dawn of Man Mesopotamia Egypt Hebrews Minoans and Mycenaens classical Greece Alexander the Great the Hellenistic world Rome s Republic and Empire and several church fathers Irenaeus

Tertullian Jerome and Augustine who influenced the Primitive Church Tinsley highlights current research while showcasing themes of contemporary as well as ancient significance misogyny the manipulation of rhetoric to justify privilege the contributions of the anonymous to the well being of the famous the paradox of progress the distortion of prophecy the use and misuse of myth and other media the exploitation of spiritual intellectual physical and sexual resources the comforts and perils of provincialism versus the dangers and benefits of organization spiritual imperial or both **Mesopotamia** Don Nardo, 2013 The peoples of ancient Mesopotamia oversaw one of the major cradles of human civilization The world's first cities and empires grew on the plains of what is now Iraq Some of the world's first farmers worked land in what historians call the Fertile Crescent **Ambrose Bierce is Missing** Joe Nickell, 2021-10-21 What constitutes historical truth is often subject to change Through ingenious detection the accepted wisdom of one generation may become the discredited legend of another or vice versa In this wide ranging study of historical investigation former detective Joe Nickell allows the reader to look over his shoulder as he demonstrates the use of varied techniques in solving some of the world's most perplexing mysteries All the major categories of historical mystery are here ancient riddles biographical enigmas hidden identity fakelore questioned artifacts suspect documents lost texts obscured sources and scientific challenges Each is then illustrated by a complete case from the author's own files Nickell's investigation of the giant Nazca drawings in Peru for example thought by some to provide proof of ancient extraterrestrial visitations uses innovative techniques to reveal a very different origin Other cases concern the 1913 disappearance of writer and journalist Ambrose Bierce the authenticity of the Shroud of Turin the truth about the identity of John Demjanjuk Ivan the Terrible to Polish death camp victims the fate of a lost colonial American text the authenticity of Abraham Lincoln's celebrated Bixby letter and the apparent real life model for a mysterious character in a novel by Nathaniel Hawthorne In reaching his solutions Nickell demonstrates a wide variety of investigative techniques chemical and instrumental analyses physical experimentation a psychological autopsy forensic identification archival research linguistic analysis folklore study and many others His highly readable book will intrigue the scholar and the history buff no less than the mystery lover *Visible Speech* John DeFrancis, 1989-06-01 Visible Speech is an attempt to set the record straight about the nature of writing John DeFrancis a noted specialist in the Chinese language shows that writing can be based only upon a sound system and not upon any other linguistic level He corrects the erroneous views of Chinese writing as pictographic ideographic logographic or morphemic and defends his conclusion that because of these misrepresentations the nature of all writing continues to be misunderstood Using the writing systems of Sumerian Egyptian Arabic Japanese Korean Greek Mayan and English among others to illustrate his points Dr DeFrancis stresses their basic identity as representatives of visible speech while noting their secondary differences as manifested in their diverse script forms He proposes a new classification of writing systems based on this theme of diversity and oneness and makes an impassioned case for the essential phonetic component of all writing This book reflects the author's sound scholarship and

novel insights which place it in the forefront with such classics on writing as those by Gelb Diringer Cohen F vrier and Jensen The readable style aims at a general audience interested in understanding the nature of the symbols that first strike the eye while the academic research involved makes it an indispensable work for scholars in the many fields related to language and linguistics
