

Immigration, Industry, and the American Dream

Overview

In this game, formatted as a mystery party, students will role-play representative figures of the immigration boom and second industrial revolution (1850–1920). Some, like Andrew Carnegie, are famous figures from United States history, while others will represent recent immigrants. Students have scripted questions, answers, and clues to use while trying to solve the “Mystery of the Golden Key.” This fun game provides an overview of period issues and attitudes while offering students the opportunity to express their inner ham. Depending on your desired level of involvement, you can run this game with very little prep, or can have students dress up, bring food, and have a well-planned class party.

The total class time to complete the activity should be about two, 50-minute periods. You will assess student learning through discussion and by collecting their finished character sheets at the end of the activity.

Jaroszyńska-Kirchmann,2004-10-15 At midcentury two distinct Polish immigrant groups those Polish Americans who were descendants of economic immigrants from the turn of the twentieth century and the Polish political refugees who chose exile after World War II and the communist takeover in Poland faced an uneasy challenge to reconcile their concepts of

responsibility toward the homeland. The new arrivals did not consider themselves simply as immigrants but rather as members of the special category of political refugees. They defined their identity within the framework of the exile mission, an unwritten set of beliefs, goals and responsibilities placing patriotic work for Poland at the center of Polish immigrant duties. In *The Exile Mission*, an intriguing look at the interplay between the established Polish community and the refugee community, Anna Jaroszyska Kirchmann presents a tale of Polish Americans and Polish refugees who like postwar Polish exile communities all over the world worked out their own ways to implement the mission's main goals. Between the outbreak of World War II and 1956, as Professor Jaroszyska Kirchmann demonstrates, the exile mission in its most intense form remained at the core of relationships between these two groups. *The Exile Mission* is a compelling analysis of the vigorous debate about ethnic identity and immigrant responsibility toward the homeland. It is the first full length examination of the construction and impact of the exile mission on the interactions between political refugees and established ethnic communities.
