Bioethics and Biopolitics Péter Kakuk, 2017-10-03 This volume links three different theoretical approaches that have a common focus on the relationship between biopolitics and bioethics This collection of papers can be categorized into different domains that are representative of the contemporary usage of biopolitics as a concept On the one hand several chapters develop a clear and up to date understanding of the primary sources of the concept and related theories of Agamben Negri or Foucault and approach the question of relevance within the field of bioethics Another group of papers apply the philosophical concepts and theories of biopolitics biopower Homo Sacer biocitizenship on very specific currently debated bioethical issues Some scholars rely on the more mundane understanding of bio politics and investigate how its relationship with bioethics could be philosophically conceptualized Additionally this work also contains papers that follow a more legally oriented analysis on the effects of contemporary biopolitics on human rights and European law The authors are philosophers legal scholars or bioethicists The major strength of this volume is to provide the reader with major insights and orientation in these different contemporary usages of the concept and theories of biopolitics within the context of its various ethically relevant applications **Instructor**, 1974-02 **California's Health**, 1971 Occupational Therapy for Children Jane Case-Smith, Anne S.
