Hanks Idea:

The Coen Brothers Encyclopedia Lynnea Chapman King, 2014-10-10 Joel and Ethan Coen have written and directed some of the most celebrated American films of the last thirty years. The output of their work has embraced a wide range of genres including the neo noirs *Blood Simple* and *The Man Who Wasn't There*, the absurdist comedy *Raising Arizona* and the violent gangster film *Miller's Crossing*. Whether producing original works like *Fargo* and *Barton Fink* or drawing on inspiration from literature such as Charles Portis' *True Grit* or Cormac McCarthy's *No Country for Old Men*, the brothers put their distinctive stamp on each film. In *The Coen Brothers Encyclopedia*, all aspects of these gifted siblings as writers, directors, producers, and even editors in the guise of Roderick Jaynes are discussed. Entries in this volume focus on creative personnel behind the camera, including costume designers, art directors, and frequent contributors like cinematographer Roger Deakins and composer Carter Burwell. Recurring actors are also represented, such as Jeff Bridges, Steve Buscemi, George Clooney, John Goodman, Holly Hunter, Frances McDormand, and John Turturro. Each entry is followed by a bibliography of published sources, both in print and online. From *Blood Simple* to *Inside Llewyn Davis*, *The Coen Brothers Encyclopedia* is a comprehensive reference on two of the most significant filmmakers of the last three decades. An engaging examination of their work, this volume will appeal to scholars, researchers, and fans interested in this creative duo. *Clusivity* Anna Ewa Wieczorek, 2014-09-18 Dealing with the concepts of inclusion and exclusion encoded linguistically, both implicitly and explicitly, this book develops an original framework for the analysis of these phenomena in political discourse. The approach taken situates political discourse in a broader context of social and psychological relations between groups and their members, which influence the manner in which the speaker's message is constructed and construed by individuals. The present study proposes a pragmatic cognitive model which underlies and explains the discursive representation of belongingness and dissociation in terms of the conceptual location of various discourse entities in the Discourse Space of Chilton (2005). The model in question is concerned with three mechanisms which combined form a fully fledged apparatus for the analysis of the legitimising power of association and dissociation in political discourse through positive self and negative other presentation tactics. The study is a theoretical enterprise which, however, includes a comprehensive empirical part whose aim is to evaluate and confirm the theoretical assumptions made. The focus is essentially on the relationship between the speaker and the addressees and the speaker's attempt to maintain it discursively. Thus *Clusivity: A New Approach to Association and Dissociation in Political Discourse* will appeal to discourse analysts, pragmaticians, and cognitive analysts as well as to political and social sciences analysts, social psychologists, journalists, and speechwriters. *Pretty People* Anna Everett, 2012-05-14 In the 1990s American civil society got upended and reordered as many social, cultural, political, and economic institutions were changed forever. *Pretty People* examines a wide range of Hollywood icons who reflect how stardom in that decade was transformed as the nation itself was signaling significant changes to familiar ideas about gender.

race ethnicity age class sexuality and nationality Such actors as Denzel Washington Andy Garcia Halle Berry Angela Bassett Will Smith Jennifer Lopez and Antonio Banderas became bona fide movie stars who carried major films to amazing box office success Five of the decade's top ten films were opened by three women Julia Roberts Jodie Foster and Whoopi Goldberg Chick flick entered the lexicon as Leonardo DiCaprio became the King of the World ushering in the cult of the mega celebrity Tom Hanks and Tom Cruise defined screen masculinity as stark contrasts between the regular guy and the intense guy while the roles of Michael Douglas exemplified the endangered Average White Male A fascinating composite portrait of 1990s Hollywood and its stars this collection marks the changes to stardom and society at century's end

Corpora, Constructions, New Englishes Samantha Laporte, 2021-06-15 This book takes an integrated approach to the fields of Corpus Linguistics Construction Grammar and World Englishes through a thorough constructional and corpus based examination of the patterning of the versatile high frequency verb make in British English and New Englishes It contributes to Construction Grammar theory by adopting a verb based rather than construction based perspective on argument structure This allows the probing of the interface between verb independent generalizations and item specificity from an underexplored angle that offers new insights into the shape of the constructicon From a variationist perspective it seeks to i identify features of New Englishes and gauge whether these features exhibit traces of conventionalization and ii assess whether the degree of institutionalization of the New Englishes correlates with linguistic behavior both from a social and cognitive perspective thereby contributing to the budding effort to integrate the cognitive and social dimensions into the modeling of linguistic variation in World Englishes

Force, Content and the Unity of the Proposition Gabriele M. Mras, Michael Schmitz, 2021-12-30 This volume advances discussion between critics and defenders of the force content distinction and opens up new ways of thinking about force and speech acts in relation to the unity problem The force content dichotomy has shaped the philosophy of language and mind since the time of Frege and Russell Isn't it obvious that for example the clauses of a conditional are not asserted and must therefore be propositions and propositions the forceless contents of forceful acts But others have recently asked in response how can a proposition be a truth value bearer if it is not unified through the forceful act of a subject that takes a position regarding how things are Can we not instead think of propositions as being inherently forceful but of force as being cancelled in certain contexts And what do assertoric but also directive and interrogative force indicators mean Force Content and the Unity of the Proposition will be of interest to researchers working in philosophy of language philosophical logic philosophy of mind and linguistics
