**Seeing Signs. On the appearance of manual movements in gestures** Jeroen Arendsen, 2009

**Language Complexity as an Evolving Variable** Geoffrey Sampson, David Gil, Peter Trudgill, 2009-02-26 This book presents a challenge to the widely held assumption that human languages are both similar and constant in their degree of complexity For a hundred years or more the universal equality of languages has been a tenet of faith among most anthropologists and linguists It has been frequently advanced as a corrective to the idea that some languages are at a later stage of evolution than others It also appears to be an inevitable outcome of one of the central axioms of generative linguistic theory that the mental architecture of language is fixed and is thus identical in all languages and that whereas genes evolve languages do not Language Complexity as an Evolving Variable reopens the debate Geoffrey Sampson's introductory chapter re-examines and clarifies the notion and theoretical importance of complexity in language linguistics cognitive science and evolution Eighteen distinguished scholars from all over the world then look at evidence gleaned from their own research in order to reconsider whether languages do or do not exhibit the same degrees and kinds of complexity They examine data from a wide range of times and places They consider the links between linguistic structure and social complexity and relate their findings to the causes and processes of language change Their arguments are frequently controversial and provocative their conclusions add up to an important challenge to conventional ideas about the nature of language The authors write readably and accessibly with no recourse to unnecessary jargon This fascinating book will appeal to all those interested in the interrelations between human nature culture and language

Second Language Learning Michael Sharwood Smith, Christopher N. Candlin, 2014-09-19 A survey and analysis of second language theory discusses the development of ideas in this expanding area of language studies It looks at the implications of these ideas and directions for future research Contains study questions and activities as well as practical guidelines on the use of available research resources

*Competing Structures in the Bilingual Mind* Elif Bamyacı, 2015-12-28 This volume combines psycholinguistic experiments with typological investigations in order to provide a comprehensive exploration of the linguistic structure of verb number agreement in bilingual speakers with a particular focus

on the Turkish language It takes as its starting point the question of which linguistic structures pose difficulties for bilingual speakers and then proceeds to evaluate the question by using the interface phenomenon of optional verb number agreement In doing so this volume investigates how the bilingual mind handles grammatical structures that demand high processing sources working towards a processing based linguistic framework for the bilingual mind Beginning with a thorough survey of the current research of the interface phenomenon in the bilingual mind the volume then proceeds to present two separate studies on each linguistic interface type namely semantics syntax interface and syntax pragmatics interface thus filling a number of gaps in the bilingualism research with regards to the interface phenomenon The results and conclusions of these studies are then integrated with current knowledge and research from the field within a theoretical and processing based framework in order to explore new psycholinguistic insights for the bilingual mind specifically the conclusion that the grammar of bilingual speakers is shaped according to cross linguistic tendencies Ultimately it provides a unified account and a comprehensive conclusion regarding the non native like patterns in grammar of bilingual speakers Serving as a fascinating and timely resource *Competing Structures in the Bilingual Mind An Investigation of Optional Verb Number Agreement* will appeal to bilingualism researchers clinical linguists cognitive scientists experimental linguists and any linguist specializing in Turkic or Altaic languages *Research Methods in Language Variation and Change* Manfred Krug, Julia Schlüter, 2013-10-24 Methodological know how has become one of the key qualifications in contemporary linguistics which has a strong empirical focus Containing 23 chapters each devoted to a different research method this volume brings together the expertise and insight of a range of established practitioners The chapters are arranged in three parts devoted to three different stages of empirical research data collection analysis and evaluation In addition to detailed step by step introductions and illustrative case studies focusing on variation and change in English each chapter addresses the strengths and weaknesses of the methodology and concludes with suggestions for further reading This systematic state of the art survey is ideal for both novice researchers and professionals interested in extending their methodological repertoires The book also has a companion website which provides readers with further information links resources demonstrations exercises and case studies related to each chapter *The Oxford Handbook of Linguistic Fieldwork* Nicholas Thieberger, 2011-11-24 This book offers a state of the art guide to linguistic fieldwork reflecting its collaborative nature across the subfields of linguistics and disciplines such as astronomy anthropology biology musicology and ethnography Experienced scholars and fieldworkers explain the methods and approaches needed to understand a language in its full cultural context and to document it accessibly and enduringly They consider the application of new technological approaches to recording and documentation but never lose sight of the crucial relationship between subject and researcher The book is timely an increased awareness of dying languages and vanishing dialects has stimulated the impetus for recording them as well as the funds required to do so The handbook is an indispensable source guide and reference for everyone involved in linguistic and cultural work *The Oxford Handbook of*
