This BOOK EXAMINES the world confronted by the men of an American combat division during the Vietnam War Although the unit in question is the 25th Infantry Division this is not a unit history or standard military chronology Instead I try to view all of the major parts of the soldiers world including subjects as diverse as climate living conditions deadly combat and morale The world inhabited by the soldiers of the 25th Division was not theirs alone the men and women who served with other frontline units in Vietnam will immediately recognize the major landmarks Using the 25th Division as a focal point I hope to help the people of today better understand what the Vietnam War was like in fact not fiction This work is based on a variety of sources The documentary foundations come from a great number of 25th Division records generated during the war the most important of which are the large quarterly Division reports They in turn are complemented by the quarterly reports that came from II Field Force Vietnam the Army headquarters for the units operating in the provinces near Saigon The Center of Military History Department of the Army provided these documents to me while I was doing research on the village war in a Vietnamese province I used this research to write *The Dynamics of Defeat The Vietnam War in Hau Nghia Province* Westview Press 1991 which deals with the political and military struggle waged by both sides in an important part of the 25th Division's area of operations

Legions in Crisis: The Transformation of the Roman Soldier - 192 to 284 Paul Elliot , 2014-05-10

The third century AD was a turbulent and testing time for the Roman Empire A new and powerful foe in the east had risen up to challenge Rome directly Barbarians on the northern frontiers were now more aggressive and more numerous than before and internally the population of the empire had to contend with rampant inflation and a series of terrible plagues Unfortunately the chaos became magnified by a lack of continuity on the imperial throne The army had real political power in the third century making and unmaking emperors as it saw fit It had been aided in this by Septimius Severus the African emperor who

had won out in the civil wars following Commodus assassination He increased the army's pay and granted other privileges While the army gained rapidly in size stature and political savvy during the reign of Septimius Severus it also accelerated a material transformation Armour shields helmets swords and javelins all began to be replaced with new styles Legions in Crisis looks closely at the new styles of arms and armour comparing their construction use and effectiveness to the more familiar types of Roman kit used by soldiers fighting the earlier Dacian and Marcomannic Wars What did this transformation in military technology mean for the tactical choices used on the battlefield Although the outcome had looked in doubt the army and the empire it protected weathered the storm to emerge into the fourth century fully able to tackle the challenges of a new age
