1980 issued in three parts Series Authors and Titles      **The Metabolic Pattern of Societies** Mario Giampietro,Kozo Mayumi,Alevgül H. Sorman,2011-10-12 It is increasingly evident that the conventional scientific approach to economic processes and related sustainability issues is seriously flawed No economist predicted the current planetary crisis even though the world has now undergone five severe recessions primed by dramatic increases in the price of oil This book presents the results of more than twenty years of work aimed at developing an alternative method of analysis of the economic process and related sustainability issues it is possible to perform an integrated and comprehensive analysis of the sustainability of socio economic systems using indicators and variables that have been so far ignored by conventional economists The book s innovative approach aims to provide a better framework with which we can face the predicaments of sustainability issues It begins by presenting practical examples of the shortcomings of conventional economic analysis and examines the systemic problems faced when trying to use quantitative analysis for governance In providing a critical appraisal of current applications of economic narratives to the issue of sustainability the book presents several innovative concepts required to generate a post Newtonian approach to quantitative analysis in the Musiasem approach An empirical section illustrates the results of an analysis of structural changes in world and EU countries Finally the book using the insight gained in the theoretical and empirical analysis exposes the dubious quality of many narratives currently used in the sustainability debate Overall the performance of modern economies across different hierarchical levels of organization and across different disciplinary knowledge systems is fully analyzed and a more realistic measure of happiness and well being is devised The book should be of interest to researchers and students looking at the issue of sustainability within a variety of disciplines      *American Book Publishing Record* ,2003      **Scientific and Technical Books and Serials in Print** ,1989
