Is This the Real Life? Mark Blake, 2010-10-25 Queen are unique among the great rock bands It is nearly twenty years since frontman Freddie Mercury's death brought the band to an end yet their fanbase remains massive They appeal equally to men and women Their fans are just as likely to be teenagers too young to have been born when the band were still touring and making records thanks not least to the huge success of the musical We Will Rock You And their musical history is one of constant reinvention from heavy metal and prog rock to disco pop stadium anthems and even jazz influences Now Mark Blake the experienced Mojo journalist who wrote Aurum's bestselling book on Pink Floyd has written the definitive history Having already interviewed the surviving band members over the years he has now tracked down dozens and dozens of new interviewees from Queen's first long forgotten bass players to Freddie Mercury's schoolmates in Isleworth Middlesex to trace

Queen's long career from their very first gawky performances in St Helens through their sensational stage stealing appearance on Live Aid to the band's collaboration with Paul Rodgers at the beginning of the century Full of fascinating new revelations especially about the improbable transformation of a shy Asian schoolboy called Bulsara into the outrageous living hedonist that was Freddie Mercury this is a book every Queen fan will want to have **The General Stud Book**

Ettington, I ve written a number of books about legendary beings such as Bigfoot Dragons Thunderbirds Sea Monsters Giants and more I also wrote a book titled *The Mythical People of Ireland* which covered the Tuatha Da Danann Druids and Leprechaun elves The information I found for that book caused me to become more curious about the little people generally There are legends of the Little People all over the world Even more interesting is that a race of very small people who were close to three feet tall were uncovered recently in Indonesia This race is called the Flores Man and was of a similar size to the beings in many of the legends of the little people This find is amazing because none of the other legendary beings have confirmed evidence of those little people in archeological sites These findings add a lot of credibility to those old legends In this book we cover these little beings from different areas of the world This includes where they came from stories about them possibly coming from different dimensions and stories about sightings of them Hope you enjoy this adventure into what seems like it might be a real race of intelligent legends
