Embracing Race Michele S. Moses, 2002 With clarity passion and creativity Michele Moses offers a new and promising lens for viewing the unsolved issues of race and education In this book Moses provides a comprehensive examination of four major race conscious educational policies bilingual education multicultural curricula affirmative action and remedial education She argues convincingly that such policies are critical to fostering self determination and personal autonomy in students who will otherwise be left with a deficient education Presenting a strong theoretically grounded case for race conscious educational policies this volume offers a new framework for examining the complex interaction between race education opportunities and justice Some of the important questions addressed in this volume include What must the educational system do to promote social justice for students of color and poor students What is required to help these students to develop self determination How will race conscious educational policies help to provide a fair education for all students

Theoretical Models and Processes of Literacy Donna E. Alvermann, Norman J. Unrau, Misty Sailors, Robert B. Ruddell, 2018-10-03 The Seventh Edition of this foundational text represents the most comprehensive source available for connecting multiple and diverse theories to literacy research broadly defined and features both cutting edge and classic contributions from top scholars Two decades into the 21st century the Seventh Edition finds itself at a crossroads and differs

from its predecessors in three major ways the more encompassing term literacy replaces reading in the title to reflect sweeping changes in how readers and writers communicate in a digital era the focus is on conceptual essays rather than a mix of essays and research reports in earlier volumes and most notably contemporary literacy models and processes enhance and extend earlier theories of reading and writing Providing a tapestry of models and theories that have informed literacy research and instruction over the years this volume s strong historical grounding serves as a springboard from which new perspectives are presented The chapters in this volume have been selected to inspire the interrogation of literacy theory and to foster its further evolution This edition is a landmark volume in which dynamic dialogic and generative relations of power speak directly to the present generation of literacy theorists and researchers without losing the historical contexts that preceded them Some additional archival essays from previous editions are available on the book s eResource New to the Seventh Edition Features chapters on emerging and contemporary theories that connect directly to issues of power and contrasts new models against more established counterparts New chapters reflect sweeping changes in how readers and writers communicate in a digital era Slimmer volume is complemented by some chapters from previous editions available online

Teaching Adolescents Religious Literacy in a Post-9/11 World Robert Nash, Penny A. Bishop, 2009-11-01 For thousands of years religion has been a key element of human societies Whenever we as educators exclude or minimize religion's vast role in society we leave out a large part of our world's shared history This is a serious act of educational omission even neglect on the part of our nation's public middle and secondary schools particularly when adolescents are so ready to engage in meaningful conversation about the world that surrounds them Our book's central purpose is to provide middle level and high school teachers with the necessary background knowledge and pedagogical skills necessary to help adolescents become religiously literate learners and citizens Currently there is no text like ours on the market that both covers a number of world religions and presents concrete recommendations for teaching and learning this material Our book is meant to educate the following audiences teacher educators middle level and high school teachers in all content areas administrators school boards and parents For us educating for religious literacy is all about bringing adolescents into the 21st century of teeming religious and spiritual diversity a long neglected component of the multicultural curriculum in public schools In a post 9 11 world religious literacy requires that students understand the whats and whys of differing religious beliefs both in their own country and elsewhere It means looking for commonalities as well as differences between and among the great wisdom traditions both nationally and internationally It is about understanding how all of us might live peacefully in a religiously diverse world Our book accomplishes these goals by being informative practical experiential case based and above all accessible to beginners

Moses,2016-03-28 How to handle affirmative action is one of the most intractable policy problems of our era touching on controversial issues such as race consciousness and social justice Much has been written both for and against affirmative action policies especially within the realm of educational opportunity In this book philosopher Michele S Moses offers a crucial new pathway for thinking about the debate surrounding educational affirmative action one that holds up the debate itself as an important emblem of the democratic process Central to Moses s analysis is the argument that we need to understand disagreements about affirmative action as inherently moral products of conflicts between deeply held beliefs that shape differing opinions on what justice requires of education policy As she shows differing opinions on affirmative action result from different conceptual values for instance between being treated equally and being treated as an equal or between seeing race consciousness as a pernicious political

force or as a necessary variable in political equality As Moses shows although moral disagreements about race conscious policies and similar issues are often seen as symptoms of dysfunctional politics they in fact create rich opportunities for discussions about diversity that nourish democratic thought and life Handbook of Research on Educational Leadership for Equity and Diversity Linda C. Carter,Kevin G. Welner,2013-04-26 Closing the Opportunity Gap offers accessible research based essays written by leading experts who highlight the disparities that exist in our public schools for the opportunity to learn instead of test scores and outcomes They focus on how policy decisions and broader circumstances conspire to cumulatively create the opportunity gap that leads inexorably to the academic achievement gaps that have become so stark **How Schools Make Race** Laura C.
