John Moschos' Spiritual Meadow Brenda Llewellyn Ihssen, 2016-05-06 John Moschos' *Spiritual Meadow* is one of the most important sources for late sixth early seventh century Palestinian Syrian and Egyptian monasticism. This undisputedly invaluable collection of beneficial tales provides contemporary society with a fuller picture of an imperfect social history of this period. It is a rich source for understanding not only the piety of the monk but also the poor farmer. Brenda Llewellyn Ihssen fills a lacuna in classical monastic secondary literature by highlighting Moschos' unique contribution to the way in which a fertile Christian theology informed the ethics of not only those serving at the altar but also those being served. Introducing appropriate historical and theological background to the tales, Llewellyn Ihssen demonstrates how Moschos' tales address issues of the autonomy of individual ascetics and lay persons in relationship with authority figures. Economic practices, health care, death and burials of lay persons and ascetics are examined for the theology and history that they obscure and reveal. Whilst teaching us about the complicated relationships between personal agency and divine intercession, Moschos' tales can also be seen to reveal liminal boundaries we know existed between the secular and the religious.

Superior Women Jennifer C. Edwards, 2019-07-11 *Superior Women* examines the claims of abbesses of the abbey of Sainte Croix in medieval Poitiers to authority from the abbey's foundation to its 1520 reform. These women claimed to hold authority over their own community over dependent chapters of male canons and over extensive properties in Poitou. Male officials such as the king of France and the pope repeatedly supported these claims. To secure this support, the abbesses relied on two strategies that the abbey's founder, the sixth-century Saint Radegund, established: they documented support from a network of allies made up of powerful secular and ecclesiastical officials, and they used artefacts left from Radegund's life to shape her cult and win new patrons and allies. Abbesses across the 900 years of this study routinely turned to these strategies successfully when faced with conflict from dependents or more local officials such as the bishop of Poitiers. Sainte Croix's nuns proved adept at tailoring these strategies to shifting historical contexts, turning from Frankish bishops to the kings of Frankia, then to the Pope, and finally to the King of France as former allies became unavailable to them. The book demonstrates respectful cooperation between men and monastic women and more extensive respect for female monastic authority than scholars typically recognize. Chapters focus on the cult's manuscripts, church decoration, procession, jurisdictions between cult institutions, reform and rebellion.

Jonas of Bobbio and the Legacy of Columbanus Alexander O'Hara, 2018-06-01 Jonas of Bobbio's life mirrored many of the transformations of the seventh century, while his three saints' Lives provide a window into the early medieval Age of Saints and the monastic and political worlds of Merovingian Gaul and Lombard Italy.
