

Emergence of Private Sector

- The new set of economic reforms aimed at giving greater role to the private sector and the nation building process of a reduced role to the public sector.
- This was the reversal of the government strategy pursued so far by Indian planners.
- To achieve this, the government redefined the role of public sector in the new industrial policy of 1991, adopted the policy of planned disinvestment of the public sector and decided to refer the loss making and sick enterprises to the board of industrial and financial reconstruction.
- The term disinvestment used here means transfer in the public sector enterprises to the private sector.
- It results in dilution of stake of the government ownership beyond 51%, it would result in transfer of ownership and management to the enterprise of private sector.
