Emergence Of Christian Theology:

The Emergence of Christian Theology Eric Francis Osborn, 1993-04 There are special times of movement in the history of ideas and one such time as the author of this study shows was the second half of the second century when Christian thought showed fresh vigour By concentrating on five seminal Christian thinkers of the second century Justin Athenegoras Irenaeus Clement of Alexandria and Tertullian Eric Osborn illustrates how it was that Christianity made monotheism axiomatic to its central doctrinal claims while adapting too to the peculiar circumstances in which it developed The stimulus for new thought came from the objections of the state philosophers Jews Gnostics and Marcion who in different ways denied the Christian claim to faith in one God In response Christian thinkers argued for one God who was the first principle of being goodness and truth In its presentation of the lively beginning which brought Christianity and classical thought together this book casts light on the growth of the European intellectual tradition

Readings in the History of Christian Theology: From its beginnings to the eve of the Reformation William Carl Placher, 1988-01-01 Discusses Gnosticism the School of Alexandria the Trinitarian controversies Eastern theology Saint Augustine and theologians of the Middle Ages

The Basis of Early Christian Theism Lawrence Thomas Cole, 2022-09-15 In *The Basis of Early Christian Theism* Lawrence Thomas Cole meticulously explores the foundational elements that shaped the early development of Christian belief Through a scholarly analysis of biblical texts patristic writings and socio historical contexts Cole artfully dissects the interplay between Hellenistic philosophy and Judaic traditions His literary style is characterized by clarity and precision allowing complex theological concepts to emerge with depth and accessibility This work situates itself within the broader discourse on the philosophical underpinnings of religion making significant connections between ancient thought and early Christian doctrine Lawrence Thomas Cole a respected theologian and historian of philosophy draws upon his extensive academic background to inform this critical examination His profound understanding of both ancient texts and contemporary theological debates equips him with unique insights into the formative stages of Christian thought Cole s dedication to unpacking the intricate layers of historical and theological discourse stems from his lifelong commitment to exploring the intersections of faith and reason *The Basis of Early Christian Theism* is highly recommended for scholars students and interested lay readers alike It not only enriches the understanding of early Christian theology but also invites a deeper reflection on the enduring questions of belief and existence Cole s work is a vital contribution that challenges readers to consider the complexities of faith as it was constructed in the early centuries of Christianity

A History of Christian Theology (Repack) Gerald Bray, 2024-10-29 A Historical Examination of Christian Theology through a Trinitarian Framework Theology is important But so is the story behind the specific doctrines that have been debated defined and refined throughout church history In this book professor Gerald Bray introduces readers to the history of Christian theology the Trinity our doctrine of God and the Bible our knowledge of God Unlike other books on the topic Bray s volume is not organized primarily by time period or distinct doctrinal categories Rather it puts theology first and

history second following a Trinitarian pattern that begins with God the Father moves on to God the Son and ends with God the Holy Spirit This unique approach offers readers a more holistic understanding of the development of theology paralleling the order in which the church wrestled through challenging theological issues and controversies related to God man and salvation Accessible Aimed at non specialists not just the academic community Unique Organization Uses a Trinitarian framework to provide a more holistic understanding of the development of theology Historical Explores the Jewish background behind the development of Christian theology Written by Gerald Bray An internationally renowned historian and theologian Replaces ISBN 978 1 4335 2694 7 History of Christian Theology in the Apostolic Age Eduard Reuss,1872

Readings in the History of Christian Theology, Volume 1, Revised Edition William C. Placher,Derek R. Nelson,2015-08-19 William C Placher and Derek Nelson compile significant passages written by the most important Christian thinkers from the early church through the Middle Ages and up to the beginning of the sixteenth century Illustrating the major theologians controversies and schools of thought Readings in the History of Christian Theology is an essential companion to the study of church history and historical theology Excerpts are preceded by the editors introductions allowing the book to stand alone as a coherent history This revised edition expands the work s scope with the addition of many new texts especially those from the voices of women and others who have been marginalized from the theological tradition This valuable resource brings together the writings of major theologians from the church s history for a new generation of students *The Emergence of Christian Theology as an Academic Discipline, 1100-1300* ,1981 **A Short History of Christian Thought** Linwood Urban,1986 This introduction to the history of Christian thought is organized topically analyzing the great issues that have occupied Christian thinkers since the earliest days of the Church Questions of doctrine such as the Trinity and the Incarnation are dealt with in full as well as such important issues in natural theology as the existence of God freedom of the will and the problem of evil Urban demonstrates that the foundations of Christian belief are largely rational and that Christian thought through history has encompassed the full range of human experience A History of Christian Doctrine Hubert Cunliffe-Jones,Benjamin Drewery,1978 In this classic volume Professor Cunliffe Jones has brought together a team of experts in various periods to create this comprehensive survey of the field The Emergence of the Christian Religion Birger A. Pearson,2012-11-08 In this book Birger Pearson argues for the study of Christianity as one of the religions of the world He proposes that the study of the New Testament and the other early Christian literature be moved out of the realm of theology and into the area of comparative research of religion The book therefore addresses the problematic of Christian origins that is the historical process by which a new religion Christianity emerges out of an older one Second Temple Judaism Included are studies ranging from the prehistory of Christianity Jesus together with an illuminating lengthy and detailed critical analysis of the work of the Jesus Seminar and the trends in current North American gospel research it reflects into the New Testament and up to the fourth century A concluding chapter presents the author s reflections on scholarly methods

used in the study of the Christian religion **The Birth of Christianity** Maurice Goguel, 2020-12-17 Originally published in 1953 The Birth of Christianity analyses the development of Christian doctrine and the establishment of the Church The book traces the history of the formation of the Church as a new religious society and considers its development both in the realm of thought as well as on a social level in both emotional life and moral action It explores how the Christian faith first found expression in society through a variety of forms that were gradually assimilated into one system of doctrine and examines both how Christian theology and dogma were formed and how the Church developed its constitution The Birth of Christianity will appeal to those with an interest in the history of religion the history of Christianity theology and the philosophy of religion **An Essay on the Development of Christian Doctrine** Cardinal John Henry Newman, 2010-01-01 Still considered essential reading for serious thinkers on religion more than a century and a half after it was written this seminal work of modern theology first published in 1845 presents a history of Catholic doctrine from the days of the Apostles to the time of its writing and follows with specific examples of how the doctrine has not only survived corruption but grown stronger through defending itself against it and is therefore the true religion This classic of Christian apologetics considered a foundational work of 19th century intellectualism on par with Darwin's Origin of Species is must reading not only for the faithful but also for anyone who wishes to be well educated in the fundamentals of modern thought Drama of the Divine Economy Paul M. Blowers, 2012-10-11 The theology of creation interconnected with virtually every aspect of early Christian thought from Trinitarian doctrine to salvation to ethics Paul M Blowers provides an advanced introduction to the multiplex relation between Creator and creation as an object both of theological construction and religious devotion in the early church While revisiting the polemical dimension of Christian responses to Greco Roman philosophical cosmology and heterodox Gnostic and Marcionite traditions on the origin constitution and destiny of the cosmos Blowers focuses more substantially on the positive role of patristic theological interpretation of Genesis and other biblical creation texts in eliciting Christian perspectives on the multifaceted relation between Creator and creation Greek Syriac and Latin patristic commentators Blowers argues were ultimately motivated less by purely cosmological concerns than by the urge to depict creation as the enduring creative and redemptive strategy of the Trinity The drama of the divine economy which Blowers discerns in patristic theology and piety unfolded how the Creator invested the end of the world already in its beginning and thereupon worked through the concrete actions of Jesus Christ and the Holy Spirit to realize a new creation **From Jesus to the New Testament** Jens Schröter, 2013 Traces the historical rationale for the development of the Christian canon rooted in the life preaching and teaching of Jesus R sum de l diteur An Essay on the Development of Christian Doctrine Blessed John Henry Newman, Aeterna Press, 2011 Considering the high gifts and the strong claims of the Church of Rome and its dependencies on our admiration reverence love and gratitude how could we withstand it as we do how could we refrain from being melted into tenderness and rushing into communion with it but for the words of Truth itself which bid us prefer it to

the whole world He that loveth father or mother more than Me is not worthy of Me How could we learn to be severe and execute judgment but for the warning of Moses against even a divinely gifted teacher who should preach new gods and the anathema of St Paul even against Angels and Apostles who should bring in a new doctrine Aeterna Press **A Journey Through Christian Theology** William P.
