Emergence Of The Nation 1783-1815:

The Emergence of the Nation, 1783-1815 John Chester Miller, 1972 **American Eras: Development of a nation, 1783-1815** Robert J. Allison, 1997 Covers the individuals and events related to such topics as world events the arts communication education government and politics and science and medicine from the colonial era onward **The British Army, 1783-1815** Kevin Linch, 2024-04-30 The British army between 1783 and 1815 the army that fought in the French Revolutionary and Napoleonic wars has received severe criticism and sometimes exaggerated praise from contemporaries and historians alike and a balanced and perceptive reassessment of it as an institution and a fighting force is overdue That is why this carefully considered new study by Kevin Linch is of such value He brings together fresh perspectives on the army in one of its most tumultuous and famous eras exploring the global range of its deployment the varieties of soldiering it had to undertake its close ties to the political and social situation of the time and its complex relationship with British society and culture In the face of huge demands on its manpower and direct military threats to the British Isles and territories across the globe the army had to adapt As Kevin Linch demonstrates some changes were significant while others were in the end minor or temporary In the process he challenges the Road to Waterloo narrative of the army's steady progress from the nadir of the 1780s and early 1790s to its strong performances throughout the Peninsular War and its triumph at the Battle of Waterloo His reassessment shows an army that was just good enough to cope with the demanding campaigns it undertook **The Cambridge History of British Foreign Policy, 1783-1919: 1783-1815** Sir Adolphus William Ward, George Peabody Gooch, 1922 **British Criticisms of American Writings, 1783-1815** William B. Cairns, 1918 **1783-1815** Sir Adolphus William Ward, George Peabody Gooch, 1922 **Women in the American Revolution** Barbara B. Oberg, 2019-05-24 Building on a quarter century of scholarship following the publication of the groundbreaking *Women in the Age of the American Revolution* the engagingly written essays in this volume offer an updated answer to the question What was life like for women in the era of the American Revolution The contributors examine how women dealt with years of armed conflict and carried on their daily lives exploring factors such as age race educational background marital status social class and region For patriot women the Revolution created opportunities to market goods find a new social status within the community or gain power in the family Those who remained loyal to the Crown however often saw their lives diminished their property confiscated their businesses failed or their sense of security shattered Some essays focus on individuals Sarah Bache Phillis Wheatley while others address the impact of war on social or commercial interactions between men and women Patriot women in occupied Boston fell in love with and married British soldiers in Philadelphia women mobilized support for nonimportation and in several major colonial cities wives took over the family business while their husbands fought Together these essays recover what the Revolution meant to and for women *The Frontier in the Formative Years, 1783-1815* Reginald Horsman, 1975 **The Teaching of American History** Andrew Cunningham

McLaughlin,1900 *The Politics of History* Arthur H. Shaffer,2017-07-12 This is an analysis of the American Revolutionary generation s attempt to create a national history that would justify the Revolution and develop a sense of nationhood Shaffer pursues a number of themes and establishes a connection between the historians republican ideology political concerns and outlook and the precise ways in which they interpreted American history He also includes an analysis of their background education profession political persuasion personal ambitions and circumstances and attitudes toward the problem of union during the 1780s The writings here offer unusual insights into the mind of the Revolutionary generation The histories produced during the early national period represent the beginnings of a genre of writing new to America one characterized by the subjugation of history to the service of nationalism It is this elementnationalismthat gave this history its flavor made possible its achievement saddled it with difficulties and although unintentionally produced a tone and emphasis different from that of the Enlightenment The contribution of the Revolutionary generation of historians to the public identity represents an important aspect of the intellectual history of the early national period With all their frequent vagueness and imprecision of formulation almost incantatory repetitiousness and patriotic sentimentality the works of the first national generation of historians comprise a revealing effort to come to grips with the meaning of the Revolution and nationhood This striving charted much of the course that American historiography was to travel thereafter *The Emergence of a National Economy, 1775-1815* Curtis P. Nettels,2017-07-28 Part of a series of detailed reference manuals on American economic history this volume traces the development of agriculture transportation labour movements and the factory system foreign and domestic commerce technology and the ramifications of slavery **Revolutionary Europe, 1783-1815** George F. E. Rudé,1975 *1975 Annual Supplement* George W. Johnson,1976-01-05 **The Cumulative Book Index** ,1998 A world list of books in the English language *The Military-industrial Complex* Paul A. C. Koistinen,1980 **1865 TO THE PRESENT** **A UNITED STATES HISTORY FOR HIGH SCHOOLS** ,1865 **American Social and Political Movements, 1945-2000** Robert J. Allison,Benjamin Frankel,2000 This guide presents differing perspectives on the Cold War drawn from all parts of the world *Beating Plowshares Into Swords* Paul A. C. Koistinen,1996 Koistinen describes how an undeveloped preindustrial economy forced Americans to fight defensive wars of attrition like the Revolution and the War of 1812 By the time of the Mexican War however a gradually maturing economy allowed the United States to use a much more offensive minded strategy to achieve its goals The book concludes with an exhaustive examination of the Civil War a conflict that both anticipated and differed from the total wars of the industrialized era Koistinen demonstrates that the North relied upon its enormous economic might to overwhelm the Confederacy through a strategy of annihilation while the South bungled its own strategy of attrition by failing to mobilize effectively a much less developed economy **An Analytical and Descriptive Guide to the Materials in The History Teacher's Magazine and The Historical Outlook** Richard Harrison Shryock,1925 **University of Arkansas Catalog** University of Arkansas, Fayetteville. College of Arts and Sciences,1975
