Handbook Of Psychiatric Nursing For Primary Care In Southern Africa:

The Palgrave Handbook of Mental Health Practice in Sub-Saharan Africa Kate E. Murray, Robert D. Schweitzer, Ashraf Kagee, Lily Kpobi, 2025-04-03 The focus of this handbook is to highlight the key issues in addressing the challenges and opportunities to promote mental health in Sub-Saharan Africa. A unique feature of this work is the privileging of African voices in expressing the strengths, vulnerabilities, and unique approaches which have been found within the Sub-Saharan context. The handbook is broken into three sections. The first introduces the handbook and the general issues and concepts discussed. The second describes diverse community outreach and mental health interventions applied by the contributors in diverse Sub-Saharan Africa countries and contexts and addressing a range of mental health topics. The third focuses on systemic issues that affect mental health service delivery with recommendations provided. Opportunities for creating new models for sharing practices and disseminating knowledge generated by Sub-Saharan African practitioners for their culture and contexts are discussed.

Routledge Handbook of Global Mental Health Nursing Edilma Yearwood, Vicki Hines-Martin, 2016-09-19 Awarded second place in the 2017 AJN Book of the Year Awards in Psychiatric and Mental Health Nursing. I welcome at long last a book on global mental health targeted to nurses, the front line health worker for billions of people around the world. The roles that nurses can and should play in mental health care are diverse and this book addresses both well-trodden as well as emerging concerns across the continuum of care from promotion to prevention to treatment. Importantly at the heart of this diversity is the foundation of compassion and care, the hallmark of the nursing profession. Vikram Patel, Professor of International Mental Health and Wellcome Trust Principal Research Fellow in Clinical Science, Centre for Global Mental Health, London School of Hygiene and Tropical Medicine, UK. Psychiatric disorders have consistently been identified as serious and significant global burdens of disease, yet meeting the needs of people in mental distress has not often been a priority in health care. This important reference work sets out the knowledge base for understanding the state of mental health care globally and translating that into effective practice. The Handbook provides a historical and contemporary context of mental health care, identifies and discusses evidence-based standards of care and strategies for mental health promotion, and explores the need to deliver care from interdisciplinary and community-based models, placing these imperatives within a human rights and empowerment framework. It is made up of four core sections which look at Key and emerging issues that affect global mental health practice and research, including the social context of health, Evidence-based health promotion strategies for major areas of practice internationally, A range of country studies reflecting different problems and approaches to mental health and mental health care internationally, and What constitutes empowering practice. The only comprehensive work looking at global perspectives on mental health nursing, this is an invaluable reference for all students, academics, and professionals involved in mental health research with an interest in global or cross-cultural issues.

The Routledge International Handbook of Race, Culture and Mental Health Roy Moodley, Eunjung Lee, 2020-10-27

This handbook presents a thorough examination of the intricate interplay of race ethnicity and culture in mental health historical origins subsequent transformations and the discourses generated from past and present mental health and wellness practices The text demonstrates how socio cultural identities including race gender class sexual orientation disability religion and age intersect with clinical work in a range of settings Case vignettes and recommendations for best practice help ground each in a clinical focus guiding practitioners and educators to actively increase their understanding of non Western and indigenous healing techniques as well as their awareness of contemporary mental health theories as a product of Western culture with a particular historical and cultural perspective The international contributors also discuss ways in which global mental health practices transcend racial cultural ethnic linguistic and political boundaries The Routledge International Handbook of Race Culture and Mental Health is an essential resource for students researchers and professionals alike as it addresses the complexity of mental health issues from a critical global perspective

Juta's Manual of Nursing Anne Young, C. F. Van Niekerk, S Mogotlane, 2003 The basics of fundamental and general nursing science are presented in this health resource for auxiliary enrolled and registered general nurses A strong community nursing focus infuses the outcome based teachings and questions to stimulate further discussion Practical information on nursing in South Africa is provided including working in the legal framework managing the challenges of nursing in a culturally diverse society and dealing with patients suffering from HIV and AIDS Medical teachings on the use of oxygen temperature regulation mobility and skin integrity complement the ethical discussions

The Oxford Handbook of Impulse Control Disorders Jon E. Grant, Marc N. Potenza, 2012 Research in the area of impulse control disorders has expanded exponentially The Oxford Handbook of Impulse Control Disorders provides researchers and clinicians with a clear understanding of the developmental biological and phenomenological features of a range of impulse control disorders as well as detailed approaches to their treatment

Primary Health Care Psychiatry Sean Exner Baumann, 2007 Written to be highly readable this book is intended to be practical broad in scope and accessible to a wide range of disciplines and readers with various levels of knowledge of psychiatry Rather than be just a reference manual this book uses a novel problem based format which allows readers to understand symptoms and solutions in context rather than as isolated incidents of human behavior To maintain currency the book also includes new material on ethics and the philosophy of psychiatry

Handbook of the Clinical Psychology of Ageing Robert T. Woods, Linda Clare, 2015-04-13 The first authoritative reference on clinical psychology and aging the Handbook of the Clinical Psychology of Ageing was universally regarded as a landmark publication when it was first published in 1996 Fully revised and updated the Second Edition retains the breadth of coverage of the original providing a complete and balanced picture of all areas of clinical research and practice with older people Contributions from the UK North America Scandinavia and Australia provide a broad overview of the psychology of aging psychological problems including depression anxiety psychosis and dementia the current social service context and
