Radiological Differential Diagnosis, 2001

Differential Diagnosis in Small Animal Medicine Alex Gough, 2008-04-15

Veterinary practitioners and students are presented with many different and complex cases and are expected to offer an accurate diagnosis quickly. The differential diagnosis list is one of the most important aspects of the problem-oriented approach to clinical diagnosis. Finding good lists in a readily available form can be difficult and can involve laborious reference to multiple texts and sources. *Differential Diagnosis in Small Animal Medicine* brings this information together in one place in an easy reference format. A rapid reference that concentrates solely on differential diagnosis lists of major problems in small animal medicine. Details differential diagnoses from diverse findings such as history, physical examination, diagnostic imaging and laboratory test results. Includes radiographs, ultrasounds, selected diagnostic algorithms, colour pictures and suggestions for further testing. Saves time spent searching multiple texts and sources by bringing the information together in one place in an easy reference format.
