Sprott, Ph.D., 2006-03-17 A COMPREHENSIVE RESOURCE ON GERONTOLOGY AND GERIATRICS Since its inception in 1987 The Encyclopedia of Aging has proven to be the definitive resource for scholars and students across the burgeoning and increasingly interdisciplinary fields of gerontology and geriatrics Like its three esteemed predecessors the fourth edition contains concise readable explorations of hundreds of terms concepts and issues related to the lives of older adults as well as timely coverage of the many new programs and services for the elderly Updated under the distinguished stewardship of editor in chief Richard Schulz to reflect the infusion of new information across the scientific disciplines this new edition brings readers up to the moment significant advances in biology physiology genetics medicine psychology nursing social services sociology economics technology and political science While retaining the format and standard of excellence that

marked the first three editions the fourth edition encompasses a wealth of new information from the social and health sciences It contains the most current bibliography of an expanding literature an exhaustive index and extensive cross references This much anticipated update of the field s most authoritative resource will take its place as an indispensable reference for specialists and non specialists across a broad range of disciplines that now comprise the field of aging SPRINGER SERVING THE HEALTHCARE AND HELPING PROFESSIONS FOR MORE THAN 55 YEARS Practice of Geriatric Surgery Ronnie Ann Rosenthal, Michael E. Zenilman, Mark R. Katlic, 2013-06-29 More than two decades ago in response to the special healthcare needs of the aging American population interest in the field of geriatrie medieine began to grow and blossom in the United States In 1984 and 1985 under the editorialleadership of Christine K Cassel and William R Hazzard respectively two major textbooks devoted to the medical care of aged patients were published These scholarly comprehensive texts provided insight into the principles of aging and guidance in the care of the geriatrie patient Three editions later the need to understand the special issues involved in the medical care of the elderly is widely accepted by intemists primary care providers and medical specialists For the editors of this book the special issues involved in the surgical care of the elderly have been apparent for nearly as long Although there have been a few scholarly texts on the subject including one in 1990 by Mark R Katlic general acceptance of the concept of geriatrie surgery by our surgical and medical colleagues has however lagged This is not the result of a proportionately smaller number of older patients with surgieal disease because cancer cardiovascular disease and orthopedie problems are diseases of the aged It is rather the result of uncertainty about the value of surgery in the elderly and concems about the risks of operations In the past such concems prevented primary care givers from referring patients for surgical care and prevented surgeons from agreeing to Aging and Human Motivation Ernest Furchtgott, Mary Wilkes Furchtgott, 1999-10-31 This book covers age operate associated changes in human motivation Starting with age decrements in energetic or biological functions it progresses to an analysis of the psychological and sociological factors that affect the behavioral choices of healthy older people The author emphasizes the contextual nature of human motives to examine a variety of behaviors ranging from the traditional to the The Aging Dimension Matilda White Riley, Joseph D. Matarazzo, Andrew Baum, 2024-05-10 Originally more complex published in 1987 this volume and the working conference that preceded it broke new ground in addressing the complex topic of aging health and behavior Taking a bio behavioral approach to a range of topics contributors to this book advanced their disciplines This volume as well as searching for important interfaces between behavior and health also added the dynamic aspect of aging Cells organ systems and whole human beings all change as they move through life linking health in varied and intricate ways to changes in behavior patterns social structures and cultural values and norms Clinical **Neurology of Aging** Martin L. Albert, Janice E. Knoefel, 1994 This thorough revision of a well established text presents essential information on the neurobiology of aging There are new chapters on competency and ethics problems of daily living

psychopharmacology and stability and falls Written in a accessible style this book will be invaluable to clinicians and neurologists who treat elderly patients **Aging with Spinal Cord Injury** Gale G. Whiteneck, PhD, Maan H.
