Handbook on German Military Forces Bob Carruthers,2013-05-15 The Handbook On German Military Forces is an indispensable primary reference source for historians and enthusiasts In 1945 the Allies were still engaged in bitter fighting against stiff resistance from the German armies in the west The US War Department was determined to do its best to equip the US forces fighting the Germans in the field with as much knowledge as possible March 1945 saw the issue of an astonishing document entitled the Handbook On German Military Forces This was a truly remarkable work of intelligence gathering which formed a vast compendium of all the relevant knowledge amassed on the German Wehrmacht Amazingly accurate and comprehensive the Handbook ran to over six hundred pages and was designed to equip commanders in the field with everything they were likely to need to know about the German forces The Handbook remained classified until 1953 and then slipped into obscurity This new paperback reprint rescues this great work from obscurity covering the psychology organisation tactics and operational aspects of the German forces The weapons machines aircraft and uniforms of the German forces are also documented within the Handbook The Handbook On German Military Forces is a fascinating primary

Radio Materiel** ,1945 **Allied Intelligence Handbook to the German Army 1939-45** Stephen Bull,2017-04-06 What did the British or American soldier know about the German Army Was this knowledge accurate and just how did he know it There have been several handbooks of Second World War armies but they never tell us exactly what the Allied soldier knew at the time or how he was informed This is of importance because it influenced both conduct on the battlefield and the way in which the soldier thought about his enemy The book explains the background history of the organisations involved followed by short chapters based around a series of original documents This puts the original into context and also discusses whether the document that follows was correct in the picture it painted and what can be deduced about sources and the concerns of the intelligence officers who compiled the material Most of the documents were produced at the time by the British War Office or US War Department and cover different aspects of the German Army including tactics weapons and uniforms Subjects include Allied intelligence on the German Army from 1930 onwards British SIS MI6 and US Military Intelligence The organisations responsible how they worked and how they changed very rapidly with the coming of war The role of technology modern like the radio transmitter ancient as in scouring libraries and periodicals reports on military manoeuvres and parades Limitations of Ultra The German army itself from the tiny force left after Versailles to the rapid expansion in the late 1930s Innovation in tanks tactics machine guns rocket weaponry The problems of gathering intelligence not just danger but finance asking the right questions and the limitations of reporting and distribution
