only formal and pretentious places are gardens But an open lawn about the house may be a garden so may a row of hollyhocks along the wall or an arrangement of plants in the greenhouse Usually there is some central feature to a garden a theme to which all other parts relate This may be a walk or a summer house or a sun dial or a garden bed or the residence itself or a brook falling down the sward between trees and bushes and clumpy growths About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
