Ladner,1996 **Paths of the Christian Mysteries** Virginia Sease,Manfred Schmidt-Brabant,2003 In recent decades there has been an upsurge of interest in the Camino the pilgrim s route to Santiago de Compostela in northern Spain But where does this fascination in the spiritual exploration of the Middle Ages come from and what is its significance Virginia Sease and Manfred Schmidt Brabant assert that we live in a time of spiritual quest discovery and change Humanity is becoming increasingly sensitive and primal memories are beginning to emerge in people s consciousness Within this dynamic context of inner transformation the Camino s historic importance is being reechoed in human souls Rudolf Steiner explained that people need to live not only with outer history but also with the esoteric hidden narrative behind it the history of the mysteries Today at the beginning of the twenty first century the authors suggest that it is increasingly necessary for us to live consciously with this veiled history of humanity s continual search for communion with the divine world Based on long research and contemplation the authors present a survey of extraordinary breadth and depth Focusing on the spiritual history of humankind they begin with the cosmic origin of the Grail Mysteries and culminate with the suprasensory Michael cultus and the being of Anthroposophia Topics also include the school of Athens early Christian art and its Gnostic impulses the Grail initiation in northern Spain the role of the Cathars and Troubadours in the Manichean spiritual stream the Camino to Santiago de Compostela and the esoteric aspect of music for the pilgrims the Music of the Spheres and the Elders of the Apocalypse the Templars as emissaries of the Holy Grail the initiations of Christian Rosenkreutz and his relation to anthroposophical art the early Rosicrucian impulses in America and Europe and much more **Handbook of Medieval Studies** Albrecht Classen,2010-11-29 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field The handbook consists of four parts The first large section offers articles on all of the main disciplines and discussions of the field The second section presents articles on the key concepts of modern medieval studies and the debates therein The third section is a lexicon of the most important text genres of the Middle Ages The fourth section provides an international bio bibliographical lexicon of the most prominent medievalists in all disciplines A comprehensive bibliography rounds off the compendium The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together **The World of Kosmas** Maja Kominko,2013-09-05 New study of the Christian Topography a sixth century illustrated treatise and its intellectual milieu Interpretation and Allegory Whitman,2022-03-28 Western literary philosophical and religious traditions from Plato and Paul to Augustine and Avicenna have utilized exploited or been subjected to allegorical

interpretation Naturally developing a composite picture of interpretive allegory from such a large landscape faces numerous difficulties As the editor puts it to imagine a definitive account of the theory and practice of allegorical interpretation in the West would require something of an allegorical vision in its own right With that caveat in mind however the international team of contributors from a variety of disciplines offers a historical and conceptual framework for understanding interpretive allegory in the West from antiquity through the early and late medieval and renaissance periods and from the eighteenth through the twentieth centuries This publication has also been published in hardback please click here for details

Crusaders and Crusading in the Twelfth Century Giles Constable, 2016-12-05 Crusading in the twelfth century was less a series of discrete events than a manifestation of an endemic phenomenon that touched almost every aspect of life at that time The defense of Christendom and the recovery of the Holy Land were widely shared objectives Thousands of men and not a few women participated in the crusades including not only those who took the cross but many others who shared the costs and losses as well as the triumphs of the crusaders This volume contains not a narrative account of the crusades in the twelfth century but a group of studies illustrating many aspects of crusading that are often passed over in narrative histories including the courses and historiography of the crusades their background ideology and finances and how they were seen in Europe Included are revised and updated versions of Giles Constable's classic essays on medieval crusading along with two major new studies on the cross of the crusaders and the Fourth Crusade and two excursions on the terminology of crusading and the numbering of the crusades They provide an opportunity to meet some individual crusaders such as Odo Arpinus whose remarkable career carried him from France to the east and back again and whose legendary exploits in the Holy Land were recorded in the Old French crusade cycle Other studies take the reader to the boundaries of Christendom in Spain and Portugal and in eastern Germany where the campaigns against the Wends formed part of the wider crusading movement Together they show the range and depth of crusading at that time and its influence on the broader history of the period

God and Gold in Late Antiquity Dominic Janes, 1998-02-19 From the conversion of the emperor Constantine in the early fourth century vast sums of money were spent on the building and sumptuous decoration of churches The resulting works of art contain many of the greatest monuments of late antique and early medieval society But how did such expenditure fit with Christ's message of poverty and simplicity In attempting to answer that question this 1998 study employs theories on the use of metaphor to show how physical beauty could stand for spiritual excellence As well as explaining the evolving attitudes to sanctity decorum and display in Roman and medieval society detailed analysis is made of case studies of Latin biblical exegesis and gold ground mosaics so as to counterpoint the contemporary use of gold as a Christian image in art and text

Hundert Jahre Forschungen zum antiken Mythos (1918/20–2018/20) Udo Reinhardt, 2022-08-01 Eine informative Gesamtorientierung über die internationale Forschung zum antiken Mythos in den letzten hundert Jahren war schon seit langem ein wissenschaftliches Desiderat. Dieser Forschungsbericht hervorgegangen aus einer fünf Dezennien umfassenden Arbeit am Mythos bezieht sich als erster seiner Art als selektive Übersicht nicht nur auf den traditionellen alttumswissenschaftlichen Kernbereich von den altorientalischen Vorlagen über die frühgriechischen Anfänge und die weitere Entwicklung in der griechisch-römischen Gesamtkultur bis zur christlichen Spätantike sondern auch auf den in der Forschung zunehmend beachteten rezeptionsgeschichtlichen Zusatzbereich von Byzanz und dem westlichen Mittelalter über Renaissance, Barock und Aufklärung bis zu Moderne und Postmoderne sowie auf die neuerdings immer stärker im Blickpunkt stehende narratologische Bedeutung des Mythos im Rahmen der europäischen Erzählforschung. Zum Zielpublikum dieses Forschungsberichts gehören also nicht nur klassische Philologen und klassische Archäologen sowie Spezialisten der Altorientalistik sondern auch Komparatisten und Kunstgeschichtler, Ethnologen und Religionswissenschaftler sowie alle Fachleute die sich entweder mit der Nachwirkung des antiken Mythos in der mittelalterlichen und neuzeitlichen Literatur, Kunst und Geistesgeschichte beschäftigen oder mit seiner beachtlichen Rolle etwa im Verhältnis zu Sagen, Märchen und anderen narratologischen Kleingattungen. Der Epilog stellt auch die Frage nach den Möglichkeiten künftiger Mythosforschung. Die detaillierten Register garantieren eine denkbar weitgehende Erschließung des behandelten Gesamtmaterials. **Wort des lebendigen Gottes** Alexander Zerfaß, Ansgar Franz, 2016-06-13 Von großem Gewicht für die Liturgiefeier ist die Heilige Schrift. Diese Worte des Zweiten Vatikanischen Konzils heben einen liturgietheologischen Grundsatz heraus und markieren einen Eckpfeiler der durch das Konzil initiierten Liturgiereform. Im Blick auf das 50-jährige Konzilsjubiläum 2012/2015 unternimmt es der vorliegende Band dieses Grundanliegen der Konzilsväter vor dem Hintergrund der bisherigen Erfahrungen aufzuheben und dem wechselseitigen Verhältnis von Heiliger Schrift und Liturgie als den Zentralorten des kulturellen Gedächtnisses des Christentums nachzugehen. Dazu wird das vielschichtige Beziehungsgeflecht zwischen Gottesdienst und Bibel aus liturgiewissenschaftlicher, exegetischer und homiletischer Perspektive aufgezeigt. **Stefan George und sein Kreis** Achim Aurnhammer, Wolfgang Braungart, Stefan Breuer, Ute Oelmann, Birgit Wägenbaur, 2012-12-21 Das Handbuch stellt Leben und Werk Stefan Georges umfassend dar und behandelt die internen Vernetzungen seines Kreises sowie seine externe Rezeption. Erstmals liegt damit ein verlässliches Kompendium für die wissenschaftliche Auseinandersetzung mit Stefan George und seinem Kreis vor. Die Forschung wird kritisch gesichtet und Desiderate werden markiert. Die bibliographischen Grundlagen werden neu gesichert und zahlreiche Rezeptionszeugnisse erstmals ausgewertet. Dem Wirken Georges und seines Kreises, das in vielfältige Bereiche des geistig-kulturellen, wissenschaftlichen und politischen Lebens ausstrahlte, entspricht das interdisziplinäre und diskursgeschichtlich orientierte Konzept des Handbuchs. Das Literatur- und Sozialwissenschaft, Politologie und Geschichte ebenso einschließt wie Kunst und

Wissenschaftsgeschichte Das Handbuch umfasst vier Teile Der erste Teil ist Georges Werk und seinem Kreis gewidmet der zweite behandelt systematische Aspekte wie Traditionsverhalten oder Zeitkritik und Politik der dritte erschließt die Wirkung des George Kreises der vierte bietet anhand von 158 Personenartikeln erstmals eine vollständige Kartierung der Personen Bände und Kreise um George
