S. Lewis, one of the greatest English writers of the medieval period. This book is a part of a set of ten books of the Greatest Classic Series containing thrilling and exciting stories with an amazing suspense and mystery surrounding each one of them that will arouse your curiosity and compel you to go through all the stories written by the world-acclaimed author Sir Arthur Conan Doyle, who is known across the globe for creating one of the greatest detectives the world has ever known by the name of Sherlock Holmes. Actually, the entire classic series has been aimed to enrich the young minds with the wonderful assets of English language and literature and to develop their interest in understanding the language, inculcating in them the reading habits, particularly among the school-going children in the age group of 12 to 18 years studying in higher classes from standard seven to twelve. This book contains an introductory page exclusively about the author, his brief life sketch, notable works, and achievements, along with word meanings of difficult words on each page marked and highlighted in the text for the students' convenience and easy understanding of the story. There is also an Exercise part after each story titled as *An Understanding*, containing four or five Questions which the reader/student has to answer, making the book all the more interesting and reader-friendly. Therefore, these books are a must-read for all the students, irrespective of their age, education, and social background. Vega, 2024-05-21 The first scholarly exploration of the forum's practice and economics of functional medicine. *Physicians of the Future* interrogates the hidden logics of inclusion and exclusion in functional medicine. FM, a holistic form of personalized medicine that targets chronic disease, Rosalynn Vega uncovers how, as wounded healers, some FM practitioners who are former chronic disease sufferers turn their illness narratives into a form of social capital, leveraging social media to relate to patients and build practices as doctor influencers.

Arguing that power and authority operate distinctly in FM when compared to conventional medicine largely because FM services are paid for out of pocket by socioeconomically privileged clients Vega studies how FM practitioners engage in entrepreneurship of their own while critiquing the profit motives of the existing healthcare system pharmaceutical industry and insurance industry Using data culled from online support groups conferences docuseries blogs podcasts YouTube and TED Talks as well as her own battles with chronic illness Vega argues that FM practices prioritize the individual while inadvertently reinscribing inequities based on race and class Ultimately she opens avenues of possibility for FM interlocutors wrestling with their responsibility for making functional medicine accessible to all *Meal Balancing* Dr. Jasmine Blake Hollywood,2020-08-02 Meal Balancing is a transformative and empowering Kitchen Training Guide that blends the art of cooking with three vital initiatives medical nutrition therapy through the Paleo Diet lifestyle recovery and food insecurity This comprehensive book aims to equip you with essential culinary and kitchen skills while covering a diverse range of topics that profoundly impact our health well being and communities *Natural Ways to Health* C.
