Hopkins,1971      **British Imperialism in West Africa** Elinor Burns,1927      British Imperialism and Globalization, C. 1650-1960 Gareth Austin,2022 Examining the domestic politics of imperial expansion these essays question the role of the Industrial Revolution and British imperial leadership beyond the issue of hierarchy and The Great Divergence This volume brings together leading global economic historians to honour Patrick O Brien s contribution to the establishment of global economic history as a coherent and respected field in the academy Inspired by O Brien s seminal work on the British Industrial Revolution as a global phenomenon these essays expand the role of the Industrial Revolution and British imperial leadership beyond the issue of hierarchy and The Great Divergence The change from the protective Atlantic empire 1650 1850 to the free trade empire of the last half of the long nineteenth century is elaborated as are the conscious efforts of the free trade empire to develop markets and market economies in Africa British domestic politics associated with the change and the continuation to the recent politics of Brexit are fascinatingly narrated and documented including the economic rationale for imperial expansion in the first instance The narrative continues to the crises of globalization caused by the world wars and the Great Depression which forced the free trade British Empire to change course Further the effects of the crises and the imperial reaction on the East African colonies and on New Zealand and Australia are examined Given current concerns about the environmental impact of economic activities it is noteworthy that this volume includes the environmental impact of globalization in India caused by the free trade policy of the British free trade empire      The Empire of Progress D. Stephen,2013-09-19 This much needed study of the British Empire Exhibition reveals durable persistent connections between empire and domestic society in Britain during the interwar years It demonstrates that the Exhibition was a marker of how by 1924 imperial relations were increasingly likely to be shaped by forces located on the colonial periphery      The Cambridge History of the British Empire John Holland Rose,1929      **The Business of Decolonization** Sarah Stockwell,2000-08-03 The Business of Decolonization serves to deepen our understanding of the end of the British empire too often approached as if it was a process shaped and experienced exclusively by nationalist and imperial politicians and policy makers It explores British companies experience of and involvement in developments leading to the transfer of power in Ghana the former colony of the Gold Coast The book

demonstrates that businessmen developed strategies to cope with political change reveals the extent of their involvement in nationalist politics and highlights the contrasting responses of different companies to political and constitutional developments in the colony Drawing on an extensive range of company business association personal and official papers the book focuses primarily on company activity However it also investigates relations between British firms and the colonial state on the eve of Ghanaian independence and examines the place of British business interests in British policy

[Africa's Development in Historical Perspective](#) Emmanuel Akyeampong, Robert H. Bates, Nathan Nunn, James Robinson, 2014-08-11 Why has Africa remained persistently poor over its recorded history Has Africa always been poor What has been the nature of Africa's poverty and how do we explain its origins This volume takes a necessary interdisciplinary approach to these questions by bringing together perspectives from

Japanese Shipping and Shipbuilding in the Twentieth Century Peter Davies, 2009-12-01 Britain's foremost scholar of the international shipping industry based at the Centre for Port and Maritime History University of Liverpool here examines the

growth and development of Japan's modern shipping and shipbuilding industries across a wide range of topics through the pre-war Pacific War and post-war periods to the transfer of shipping technology the role of bulk carriers and world trade and the organization and structure of the Japanese merchant navy Prompted originally by his research into the decline of the British industries in a global context his focus inevitably turned to Japan which in the post-war years had replaced Britain as the world's largest ship operators and ship owners and remains so today
