Economic Problem Of Man Its Islamic So:

The Making of Islamic Economic Thought Sami Al-Daghistani, 2022-01-06 Interrogating the development and conceptual framework of economic thought in the Islamic tradition pertaining to ethical philosophical and theological ideas this book provides a critique of modern Islamic economics as a hybrid economic system From the outset Sami Al Daghistani is concerned with the polyvalent methodology of studying the phenomenon of Islamic economic thought as a human science in that it nurtures a complex plentitude of meanings and interpretations associated with the moral self By studying legal scholars theologians and Sufis in the classical period Al Daghistani looks at economic thought in the context of Shar a s moral law Alongside critiquing modern developments of Islamic economics he puts forward an idea for a plural epistemology of Islam s moral economy which advocates for a multifaceted hermeneutical reading of the subject in light of a moral law embedded in a particular cosmology of human relationality metaphysical intelligibility and economic subjectivity **Makers of Contemporary Islam** John L. Esposito, John Obert Voll, 2001 This book examines the biographies of nine major activist intellectuals whose work provides the core of what the Islamic resurgence became in the 1990s adn is an important foundation for what it can become in the 21st century Nine figures are covered Ismail al Faruqi Khurshid Ahmad Maryam Jameelah Hasan Hanafi Anwar Ibrahim and Abdurrahman Wahid *What Is Wrong with Islamic Economics?* Muhammad Akram Khan, 2013-01-01 I read with great interest the current state of Islamic economics and finance as examined by Muhammad Akram Khan who has given a fresh outlook for the readers to find out its limitations and to search for its solutions Khan has read widely in the subject matter and presented his views with reference to literature and thoughtful and logical arguments While many may not agree with his arguments or will have a better explanation I find his arguments at least worthy of examination to strengthen the arguments of those who might oppose him Although Khan is critical of the subject matter he is very sympathetic to the greater objectives of Islamic economics and provides his own prescriptions to achieve those objectives M Kabir Hassan University of New Orleans US This is a very thought provoking book coming at a crucial stage in the development of Islamic economics and finance Although the reader may not agree with some of the conclusions reached it is clearly a scholarly and extensively researched piece of work it should be read by all serious students of the subject area Amongst other things it throws light on the reasons why the practical implementation of Islamic economics and finance particularly in relation to the financial system and financial institutions has not always conformed to the true theoretical foundations laid down by Islamic scholars John Presley Loughborough University UK and recipient of Islamic Development Bank Prize in Islamic Finance 2001 2002 Islamic economic system is a type of capitalism with a spiritual dimension is a major conclusion of this book I applaud this insight of Muhammad Akram Khan The same can be perhaps said of Islamic finance which in its hurry to build viable and efficient financial institutions has ignored the very same need to start with profits and risk sharing principle and no riba principles to build pricing models to anchor the new sub

discipline The good news is that in the course of time to come Akram's advocacy may be realised since such serious works have already begun Mohamed Ariff University Putra Malaysia and Bond University Australia Although there are many books on Islamic economics this critical but sympathetic account by Muhammad Akram Khan is worthy of attention The author has clearly read widely on the subject and appreciates the limitations of much that he has read Islamic economics is a work in progress and by focusing on its shortcomings Khan challenges the assumptions of many working in the field His discussion of methodology is insightful and even the prohibition of riba for many the defining characteristic of Islamic finance is examined from a fresh perspective While many will not agree with the analysis and the conclusions even critics should be able to appreciate the strengths of the arguments made In summary this is a worthwhile and in many respects an innovative survey of the state of Islamic economics and finance It deserves to be widely read Rodney Wilson Durham University UK What is Wrong with Islamic Economics takes an objective look at the state of the art in Islamic economics and finance It analyses reasons for perceived stagnation and also suggests a way forward As well as probing various myths the book presents several innovative ideas and a methodology for developing the subject on new foundations It also highlights weaknesses in the conventional position on prohibition of interest which has led Islamic banks devise a series of legal tricks The author notes how the original aim of devising a new brand of banking has become less prominent whilst Islamic banks now position themselves more closely to conventional banks The book also offers insights into how certain traditional thinking has seemingly ignored the egalitarian spirit of the law of zakah and created a scenario where zakah is not able to help the billions of poor people around the globe This detailed book will appeal to students professors researchers Islamic banks and finance houses consulting companies accounting firms and regulatory bodies Professional economists libraries in research and training organizations as well as anyone with a general interest in the topic will find much to interest them , **Limits**

of Islamism Maidul Islam, 2015-03-09 The book examines the dynamics from the formation of Islamist politics for the struggle for hegemony to failure to become a hegemonic force in Bangladesh The contradiction between Islamic universalism Islamist populism on one hand and a politics of Muslim particularism in India on the other is revealed in this study
