Marx's critical theory to which the concept of the good society is central. As long as socialist regimes continue to invoke Marx, they subject themselves to the norms contained within Marx's understanding of freedom in a community. *Human Nature, Mind and the Self in Adam Smith's Moral Philosophy* Riccardo Bonfiglioli, 2024-04-24. This book investigates the problematisation in Adam Smith's moral philosophy of a classical question: what makes us human beings from a moral standpoint. To do this, Riccardo Bonfiglioli explores the relationship between the concepts of human nature, mind and the self in order to reconstruct Smith's theory of subjectivity. After providing a systematic reconstruction of Adam Smith's conceptions of human nature, mind and the self, exploring some aspects of Smith's philosophy of history, sympathy and imagination and their empirical expressions, education, conduct and character, Bonfiglioli argues that in Adam Smith's work the meaning of moral human beings would depend on the human being's effort to live in harmony with oneself and the others. According to Bonfiglioli, in Smith's moral theory this harmony with oneself and the others would be achieved in relation to a certain kind of awareness that can be possible when human beings try to judge the conduct and try to act according to the impartial spectator. Specifically, this impartial spectator is reinterpreted by the author in the light of the concept of immediacy.

Reflections on Commercial Life Patrick Murray, 2014-06-11. *Reflections on Commercial Life* an anthology of writings from the ancient Greeks to contemporary thinkers provides students, scholars and general readers an opportunity to develop a more self-conscious and critical relationship to commercial life. Through an inquiry into history, nature and outcomes, this volume offers the opportunity to explore as never before alternatives to modern commercial life.

A Selected Bibliography of Significant Works About Adam Smith Martha Bolar Lightwood, 2016-11-11. The two hundredth anniversary in 1976 of the publication of *An Inquiry into the Nature and Causes of the Wealth of Nations* emphasized the already evident new interest in the relationship between Smith's social and political thought and his economic theory. Only recently have economists turned their attention to Smith's other works, long overshadowed by the more renowned *The Wealth of Nations*. Martha Lightwood here argues that *A Theory of Moral Sentiments* actually laid the philosophic groundwork for *The Wealth of Nations* and emphasizes that Smith's writings, considered in their totality, represent a compelling interest not solely in economics but in philosophy and the study of society. Selected for this bibliography are major contributions and representative studies on three aspects of Smith's work: moral philosophy, the history of the development of scientific methodology and political economy.

Karl Marx and Friedrich Engels Cecil Eubanks, 2015-04-17. The project to publish the works of Marx and Engels continues and this book, published in 1984, puts together a comprehensive bibliography of their works, either written in or translated into English, including books, monographs, articles, chapters and doctoral dissertations, together with the works of their interpreters. The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels.
