book explores the broad issue of Postmodernism and tells the story of the movement that has changed the face of architecture over the last forty years In this completely rewritten edition of his seminal work Charles Jencks brings the history of architecture up to date and shows how demands for a new and complex architecture aided by computer design have led to more convivial sensuous and articulate buildings around the world Polish Architecture in Contemporary Innovation Nina Juzwa, Jakub Świerzawski, 2023-09-28 Authored by two architects Polish Architecture in Contemporary Innovation Thoughts Dreams and Places tells a story of buildings that were built in Poland between 1980 and 2020 as architecture developed in the Western world and Japan Its main focus is public utility buildings which the authors have touched in situ and which have moved them or sparked their interest The book is divided into three parts Part I focuses on the problem of creating and shaping architectural form and uses examples of both international and Polish architecture In this section the authors pose the question why is the Pritzker Prize so important Part II attempts to answer the question of how architecture can change the image of a place The answer consists of mainly Polish examples of user friendly architecture value and beauty in architecture and place Part III analyses buildings that were created in contemporary Poland Examples are listed in groups according to their function pointing out forms that were inspired by the culture of the region the historical culture of the place or those which are a new quality and are the foundation of the creation of a place This book aims to demonstrate Polish architectural solutions in the context of contemporary trends in the West traditionally seen as more technically and technologically developed countries The floor plans and sections of the buildings presented in the book show the beauty of geometric and formal solutions and give a new and rare perspective on the latest changes in modern Polish architecture This book will be of interest to architects as well as researchers and students of contemporary Polish architecture and culture and its place in the European and international context The Polish edition of this book published in 2021 by the National Institute of Architecture and Urban Planning in Warsaw received the Vitruvius Prize 2022 by the Architecture and Urban Planning Committee of the Polish Academy of Sciences Ecstatic Architecture Maggie Toy, Charles Jencks, 1999-06-22 Today there is a broad trend towards an architecture that could be called ecstatic partly motivated by pure architectural ideas pushed to their limits and a shift from functional concerns to sensual ones Ecstatic Architecture is stimulating holistic and overpowering its primary contemporary monument is Frank Gehry's New Guggenheim Museum in Bilbao Ecstatic Architecture has opened up architectural thought and made links with historic building The term encompasses buildings widely distant in function and time from cave art to the new cinema centre in Dresden from explicitly erotic architecture to buildings which have a spiritual role from conceptual and cybernetic artefacts to pure architecture It suggests comparisons between the current practice of leading architects such as Hans Hollein Coop Himmelblau Nigel Coates and Egyptian Baroque and Art Nouveau architecture Essays examining the historic and philosophical implications are complemented by major projects in the genre by Frank Gehry Will Alsop Ron Arad Odile Decq Eric Owen Moss and Shin
