Timothy,2015-11-19 Food is one of the most fundamental elements of culture and a significant marker of regional and ethnic identity It encompasses many other elements of cultural heritage beyond the physical ingredients required for its production These include folklore religion language familial bonds social structures environmental determinism celebrations and ceremonies landscapes culinary routes smells and tastes to name but a few However despite all that is known about foodways and cuisine from hospitality gastronomical supply chain and agricultural perspectives there still remains a dearth of consolidated research on the wide diversity of food and its heritage attributes and contexts This edited volume aims to fill this void by consolidating into a single volume what is known about cuisines and foodways from a heritage perspective and to examine and challenge the existing paradigms concepts and practices related to gastronomic practices intergenerational traditions sustainable agriculture indigenous rituals immigrant stories and many more heritage elements as they pertain to comestible cuisines and practices The book takes a global and thematic approach in examining heritage cuisines from a wide range of perspectives including agriculture hunting and gathering migration ethnic identity and place nationalism sustainability colonialism food diversity religion place making festivals and contemporary movements and trends All chapters are rich in empirical examples but steady and sound in conceptual depth This book offers new insight and understanding of the heritage implications of cuisines and foodways The multidisciplinary nature of the content will appeal to a broad academic audience in the fields of tourism gastronomy geography cultural studies anthropology and sociology **A History of Domestic Space** Peter

Ward,2007-11-01 This is a history of domestic space in Canada Peter Ward looks at how spaces in the Canadian home have changed over the last three centuries and how family and social relationships have shaped and been shaped by these changing spaces A fundamental element of daily life for individuals and families is domestic privacy that of individuals and that of the family or household There are also two facets of privacy privacy from and privacy to Personal privacy sets the individual apart from the group creating opportunities for seclusion Family privacy draws boundaries between the household and the community defending the solidarity of the home and providing a basis for family relationships In both ways privacy is intimately involved with the history of the house Over time the changing size shape and location of the home have created widely different opportunities for family and personal privacy Together with major shifts in household composition family size and domestic technology they have gradually altered the conditions of everyday domestic life But the pattern of change has been far from uniform for the nature meaning and experience of privacy in Canadian have varied widely over the past 300 years This book explores some of those experiences and meanings reflecting on their implications for family and social life historically as well as in the recent past
