**The Mythical Mediterranean Sea** Nick Ceramella, Umberto Gori, 2019-04-25 This volume brings together papers presented at the 7th Annual International Conference co organised by Florence University of the Arts Italy and Stony Brook University SUNY USA The contributors explored the many connections that define the Mediterranean Sea as a symbol of tradition and modernity and examined it as a region capable of congregating synergizing and transforming cultures Their writings focus on the relationship between the cultural social and historical environment of Mare Nostrum to pinpoint the elements defining its identity Hence particular emphasis is placed on the role and relevance of the Mediterranean as the first beacon of multi ethnicity which may be seen as a symbol of diversity and unity as well as a model that holds clues to understanding the global merging of cultures As such it is a real shame to see that the general interest in this unique and fascinating area has arisen not thanks to such highly positive features but because as Pope Francis says it has become an open air cemetery where thousands of people keep drowning The multifaceted approach to this topic has resulted in the book being divided into four sections covering the following thematic areas Literature History Culture and Identity
