Hollister,2013-06-29 Curious about the images of the city that have been evolving in the different social sciences we did what academics often do in such a situa 1 tion we set up a seminar on Images of the City in the Social Sciences From the start we counted on the help of specialists in other fields to pursue their interests Of the persons who agreed to participate all but two came from the United States and their analyses in the main reflect the experience of Western countries and the United States In our formal instructions to our collaborators we took fi r granted that a variety of images of the city could be found or inferred in their fields of expertise We asked them to identify these images and their functions to explain how and why they have changed over time and to relate these images to the distinct intellectual traditions and techniques analytical or otherwise in their respective fields The definition of image was left to the judgment of the participants   **A New Gnosis** David M.
