The Politics of Peasants Shukai Zhao,2017-07-10 This book is an analysis and exploration of the relationship between peasants and policies within the process of reform in China After examining the long term rural policies either before or after the reform it was found that all these policies have been expected to promote peasants interests and claimed to take enhancing peasants happiness as their goal Nonetheless the history and current reality of rural development have demonstrated that the same policy starting point had lead to very different policy designs Even today quite a few institutional arrangements with good intentions have ended up with opposite results and have even become bad policies that do harm to people This book argues that the reason for such serious deviation between political intentions and institutional arrangements as well as between policy goals and its results is as a political force the peasantry itself has not effectively engaged with the political process of the country

The Politics of the Welfare State in Turkey Erdem Yoruk, 2022-05-23 In *The Politics of the Welfare State in Turkey* author Erdem Y r k provides a politics based explanation for the post 1980 transformation of the Turkish welfare system in which poor relief policies have replaced employment based social security This book is one of the results of Y r k's European Research Council funded project which compares the political dynamics in several emerging markets in order to develop a new political theory of welfare in the global south As such this book is an ambitious analytical and empirical contribution to understanding the causes of a sweeping shift in the nature of state welfare provision in Turkey

during the recent decades part of a global trend that extends far beyond Turkey Most scholarship about Turkey and similar countries has explained this shift toward poor relief as a response to demographic and structural changes including aging populations the decline in the economic weight of industry and the informalization of labor while ignoring the effect of grassroots politics In order to overcome these theoretical shortages in the literature the book revisits concepts of political containment and political mobilization from the earlier literature on the mid twentieth century welfare state development and incorporates the effects of grassroots politics in order to understand the recent welfare system shift as it materialized in Turkey where a new matrix of political dynamics has produced new large scale social assistance programs **10-Step**

Guide to Becoming the Prime Minister of India Honey Makhija,2024-08-31 10 Step Guide to Becoming the Prime Minister of India is a comprehensive manual for aspiring leaders offering a clear step by step approach to achieving the highest office in the country In his 11th book Honey Makhija distills the complexities of Indian politics into actionable steps from grassroots engagement to national leadership With a focus on integrity vision and strategic planning this book equips readers with the tools and strategies needed to navigate the political landscape win the trust of the electorate and sustain leadership in one of the world s largest democracies Christianity, Politics, and the Predicament of Evil Bradley B.

Burroughs,2019-06-04 Christianity Politics and the Predicament of Evil overcomes a defining divide in contemporary Protestant political ethics created by two contrasting conceptions of politics The first exemplified in the work of Reinhold Niebuhr construes politics as a matter of statecraft that utilizes the power of government to secure the greatest possible order and justice for society as a whole The second most prominently articulated by Stanley Hauerwas maintains that politics concerns itself with the cultivation of virtue consequently it finds not the well ordered state but the church to be the exemplar of politics Not only illuminating the divide between politics as statecraft and politics as soulcraft but also redeveloping the conceptual space between them this book reconceives politics within a theological framework in which the eschatological City of God rather than the well ordered state or the faithful church functions as the paradigm of political life At the same time it simultaneously recognizes that the existence of evil which corrupts individual wills and social structures inhibits human beings from building the City of God in this world Analyzing criticizing and drawing resources from Niebuhr and Hauerwas as well as looking beyond to Augustine Martin Luther King Jr and others this book specifies the respective roles of soulcraft and statecraft in a political ethic capable of guiding Christians as they witness to God s eschatological intention to establish the City of God in a world currently mired in the predicament of evil **Women Transforming**

Cinematic Portrayals of African Women and Girls in Political Conflict Norita Mdege,2023-10-27 This book

provides an interdisciplinary exploration of the cinematic representations of the experiences of African women and girls in situations of political conflict. The role of cinema is important in providing information about the situation of women and girls in situations of political conflict and the main characters often also become signifiers of wider social, political and economic ideas at both global and local levels. Drawing on fictional and biographical cinematic representations, this book considers films covering a range of different regions, experiences, historical periods and other contexts to draw a nuanced picture of African women and girls who participate in or are affected by African political conflicts. The films are analysed using a decolonial feminist cultural approach which combines cultural approaches, African feminisms and the contrapuntal method to ensure an inter-textual, intersectional and decolonial examination. The book engages with multiple themes and topics including nationalism, nation building, neocolonialism, memory, history, women's and girls' agency and activism. Through these themes and topics, the book explores how the films represent African women's and girls' agency in relation to their participation in social, economic and political activities. This book will make a significant contribution to literature focused on African women and girls within politics, conflict studies and film studies.

Latinas/os in the United States Havidan Rodriguez, Rogelio Saenz, Cecilia Menjivar, 2007-11-21. Clara E. Rodriguez. As is befitting a book on Latinas/os at the start of the 21st century, the chapters in this volume reflect the contemporary panorama of Latinas/os in the United States. Today Latinas/os are the largest minority group. They accounted for 12.5% of the total U.S. population in the last decennial census; recent estimates showed the Hispanic population to be 41.3 million as of July 1, 2004, or 14% of the nation's total population. However, this estimate does not include the 3.9 million residents of Puerto Rico who are also U.S. citizens and would raise the total to 24.52 million. This would make the U.S. population of Latinos the second largest Spanish origin population in the hemisphere after Mexico. The growth of this population since 1980 has been dramatic. Hispanics/Latinos grew more than seven times faster than the population of the nation as a whole, increasing by half, whereas the white non-Hispanic population increased by only 6% between 1980 and 1990. U.S. Bureau of the Census 1991 Table 1. U.S. Bureau of the Census 1993 p. 2. In the 1990s, the Hispanic population increased 58%. Moreover, between 2003 and 2004, one of every two people added to the nation's population was Hispanic/Latino. Consequently, not only are Latinos a substantial part of the U.S. population, but they account for half its population growth.

Electoral Justice and Political Culture Dai Zhicheng, 2021-12-15. The election process reflects the essence of the electoral system. The justice of the electoral process can best reflect whether the electoral system is legitimate and democratic. The democratic and legal shortcomings of China's electoral system can be solved by rationalizing and democratizing the electoral process, which is consistent with the realization of justice under the electoral process. In this book, procedural justice is combined with the electoral process to find the conditions and elements needed to achieve more justice in elections. The electoral system is still based on the political will of the political party to rule, and the electoral system itself has serious legislative problems, which shows that the foundation

of China's electoral system has problems. Then China's electoral system cannot truly represent the political voices and political interests of the people in the implementation and at the same time cannot reflect the fairness of the election in the electoral procedure and the determination of the election results. The People's Congress system and the Political Consultation system simply cannot elect the right representatives who truly represent the interests of the people. The elected government and state power organs are separated from the people's political status, political interests and development interests in the operation of their duties and the exercise of power. By analyzing the problems in China's electoral system and election procedures, the book concludes the conditions for the realization of more justice, rationalization and democratization of China's electoral system and election procedures through procedural justice. The spiritual connotation of procedural justice under the electoral system and election procedures are combined with the traditional Chinese democratic political culture to construct an electoral political culture adapted to the contemporary Chinese political environment, advancing the development of procedural justice in China's electoral system to realize the rationality, legitimacy and democracy of elections.

Latina Politics, Latino Politics Carol Hardy-Fanta, 2011-02-02. Political organizing by men and women in Boston's Latino community.

God at the Grass Roots, 1996 Mark J. Rozell, Clyde Wilcox, 1997. God at the Grass Roots 1996 is composed of entirely new and original essays that analyze the impact of the Christian Right in the 1996 national state and local elections. The nation's leading scholars of religion and politics identify and illuminate numerous trends that have dramatically evolved since the landmark elections of 1994. More than simply a revised version of the popular God at the Grass Roots, this fundamentally new edition examines the Christian Right's nationwide influence and the essays arrive at starkly different conclusions about America's most organized and observed political interest group. This text will complement all courses on parties and elections and religion and politics.

Informal Justice in Contemporary Society Dr. Lee Li-On, 2016-05-06. Drawing on an ethnographic study in a multicultural city of Arabs and Jews in Israel, this book examines the models and expressions of power implicated in discourse and conflict resolution practices in cross-cultural contemporary community. The author explores community politics expressed in daily life as a contextual background to the analysis of conflict resolution politics, exploring perspectives of state and civic stakeholders. Through case analysis and addressing the individual, organisational and societal levels, Dr. Li-On illustrates that conflict resolution is dominated by politics, with culture, ethnicity and identity playing a significant role. Disputing groups rely on conflict resolution to achieve contesting socio-political goals. The book explores core concerns in the field, illustrating obstacles, challenges and opportunities confronting informal justice in contemporary communities. Informal Justice in Contemporary Society is motivated by the field's research-practice gap and the lack of real-world impact research in cross-cultural settings. The book contributes insights towards theory refinement and conflict resolution practice by addressing practical issues confronted by mediators in the field. This innovative research path introduces a holistic approach to the study of informal justice in social context, deploying multilevel

ethnographic analysis to broaden the perspectives and understanding of conflict resolution in contemporary communities
