Grass Roots How Ordinary People Are Changing America:

Grass Roots William Thomas Adams, 1991 Tracing the entire process of the grass roots movement from origins to maturity this manual offers guidelines for organizing an effective grass roots political effort Grass Roots Emily Dufton, 2017-12-05 How earnest hippies frightened parents suffering patients and other ordinary Americans went to war over marijuana In the last five years eight states have legalized recreational marijuana To many continued progress seems certain But pot was on a similar trajectory forty years ago only to encounter a fierce backlash In *Grass Roots* historian Emily Dufton tells the remarkable story of marijuana's crooked path from acceptance to demonization and back again and of the thousands of grassroots activists who made changing marijuana laws their life's work During the 1970s pro pot campaigners with roots in the counterculture secured the drug's decriminalization in a dozen states Soon though concerned parents began to mobilize finding a champion in Nancy Reagan they transformed pot into a national scourge and helped to pave the way for an aggressive war on drugs Chastened marijuana advocates retooled their message promoting pot as a medical necessity and eventually declaring legalization a matter of racial justice For the moment these activists are succeeding but marijuana's history suggests how swiftly another counterrevolution could unfold The Suburban Crisis Matthew D. Lassiter, 2023-11-07 How the drug war transformed American political culture Since the 1950s the American war on drugs has positioned white middle class youth as sympathetic victims of illegal drug markets who need rehabilitation instead of incarceration whenever they break the law *The Suburban Crisis* traces how politicians the media and grassroots political activists crusaded to protect white families from perceived threats while criminalizing and incarcerating urban minorities and how a troubling legacy of racial injustice continues to inform the war on drugs today In this incisive political history Matthew Lassiter shows how the category of the white middle class victim has been as central to the politics and culture of the drug war as racial stereotypes like the foreign trafficker urban pusher and predatory ghetto addict He describes how the futile mission to safeguard and control white suburban youth shaped the enactment of the nation's first mandatory minimum drug laws in the 1950s and how soaring marijuana arrests of white Americans led to demands to refocus on real criminals in inner cities The 1980s brought just say no moralizing in the white suburbs and militarized crackdowns in urban centers *The Suburban Crisis* reveals how the escalating drug war merged punitive law enforcement and coercive public health into a discriminatory system for the social control of teenagers and young adults and how liberal and conservative lawmakers alike pursued an agenda of racialized criminalization *New Visions of Community in Contemporary American Fiction* Magali Cornier Michael, 2008-04 In this engaging optimistic close reading of five late twentieth century novels by American women Magali Cornier Michael illuminates the ways in which their authors engage with ideas of communal activism common commitment and social transformation The fictions she examines imagine coalition building as a means of moving toward new forms of nonhierarchical justice for ethnic cultures that as a result of racist attitudes have not been assimilated power

with each other rather than power over each other is a collective goal Michael argues that much contemporary American fiction by women offers models of care and nurturing that move away from the private sphere toward the public and political Specifically texts by women from such racially marked ethnic groups as African American Asian American Native American and Mexican American draw from the rich systems of thought histories and experiences of these hybrid cultures and thus offer feminist and ethical revisions of traditional concepts of community coalition subjectivity and agency Focusing on Amy Tan s *The Joy Luck Club* Barbara Kingsolver s *The Bean Trees* and *Pigs in Heaven* Ana Castillo s *So Far from God* and Toni Morrison s *Paradise* Michael shows that each writer emphasizes the positive liberating effects of kinship and community These hybrid versions of community which draw from other than dominant culturally specific ideas and histories have something to offer Americans as the United States moves into an increasingly diverse twenty first century Michael provides a rich lens through which to view both contemporary fiction and contemporary life
