Grass Roots Socialism Radical Movements In The Southwest 1895 1943

Robert E. Weir

Grass Roots Socialism Radical Movements In The Southwest 1895 1943:

Grass-roots Socialism James R. Green,1980 **Grass-Roots Socialism** James R. Green,1978-07-01 Grass Roots Socialism answers two of the most intriguing questions in the history of American radicalism why was the Socialist party stronger in Oklahoma than in any other state and how was the party able to build powerful organizations in nearby rural southwestern areas Many of the same grievances that had created a strong Populist movement in the region provided the Socialists with potent political issues the railroad monopoly the crop lien system and political corruption With these widely felt grievances to build on the Socialists led the class conscious farmers and workers to a radicalism that was far in advance of that advocated by the earlier People s party Examined in this broadly based study of the movement are popular leaders like Oklahoma s Oscar Ameringer The Mark Twain of American Socialism Red Tom Hickey of Texas and Kate Richards O Hare who was second only to Eugene Debs as a Socialist orator Included also is information on the party s propaganda techniques especially those used in the lively newspapers which claimed fifty thousand subscribers in the Southwest by 1913 and on the attractive summer camp meetings which drew thousands of poor white tenant farmers to week long agitation and education sessions [Encyclopedia of American Social Movements](#) Immanuel Ness,2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice [Opposition to War](#) Mitchell K. Hall,2018-01-04 How have Americans sought peaceful rather than destructive solutions to domestic and world conflict This two volume set documents peace and antiwar movements in the United States from the colonial era to the present Although national leaders often claim to be fighting to achieve peace the real peace seekers struggle against enormous resistance to their message and have often faced persecution for their efforts Despite a well established pattern of being involved in wars the United States also has a long tradition of citizens who made extensive efforts to build and maintain peaceful societies and prevent the destructive human and material costs of war Unarmed activists have most consistently upheld American values at home [Opposition to War An Encyclopedia of U S Peace and Antiwar Movements](#) investigates this historical tradition of resistance to involvement in armed conflict an especially important and relevant topic today as the nation has been mired in numerous military conflicts throughout most of the current century The book examines a largely misunderstood and underappreciated minority of Americans who have committed themselves to finding peaceful resolutions to domestic and international conflicts individuals who have proposed and conducted an array of practical and creative methods for peaceful change from the transformation of individual behavior to the development of international governing and legal systems for more than 250 years Readers will learn how individuals working alone or organized into societies of various size have steadfastly campaigned to stop war end the arms race eliminate the underlying causes of war and defend the civil liberties of Americans when wartime nationalism most threatens them *Democracy's Prisoner* Ernest

Freeberg,2010-10-15 In 1920 socialist leader Eugene V Debs ran for president while serving a ten year jail term for speaking against America s role in World War I In this book Freeberg shows that the campaign to send Debs from an Atlanta jailhouse to the White House was part of a wider national debate over the right to free speech in wartime Politics, Labor, and the War on Big Business David R. Berman,2012-07-15 Politics Labor and the War on Big Business details the rise fall and impact of the anticorporate reform effort in Arizona during the Progressive reform era roughly 1890 1920 Drawing on previously unexamined archival files and building on research presented in his previous books author David R Berman offers a fresh look at Progressive heritage and the history of industrial relations during Arizona s formative period In the 1890s once heavily courted corporations had become in the eyes of many outside money interests or beasts that exploited the wealth of the sparsely settled area Arizona s anticorporate reformers condemned the giant corporations for mistreating workers farmers ranchers and small business people and for corrupting the political system During a thirty year struggle Arizona reformers called for changes to ward off corporate control of the political system increase corporate taxation and regulation and protect and promote the interests of working people Led by George W P Hunt and progressive Democrats Arizona s brand of Progressivism was heavily influenced by organized labor third parties and Socialist activists As highly powerful railroad and mining corporations retaliated conflict took place on both political levels and industrial backgrounds sometimes in violent form Politics Labor and the War on Big Business places Arizona s experience in the larger historical discussion of reform activity of the period considering issues involving the role of government in the economy and the possibility of reform topics highly relevant to current debates **The Gospel of the Working Class** Erik S. Gellman,Jarod Roll,2011-06-28 In this exceptional dual biography and cultural history Erik S Gellman and Jarod Roll trace the influence of two southern activist preachers one black and one white who used their ministry to organize the working class in the 1930s and 1940s across lines of gender race and geography Owen Whitfield and Claude Williams drew on their bedrock religious beliefs to stir ordinary men and women to demand social and economic justice in the eras of the Great Depression New Deal and Second World War Book cover **American Dreamers** Michael Kazin,2012-09-04 ONE OF THE BEST BOOKS OF THE YEAR NEWSWEEK THE DAILY BEAST THE NEW REPUBLIC THE PROGRESSIVE The definitive history of the reformers radicals and idealists who fought for a different America from the abolitionists to Michael Moore and Noam Chomsky While the history of the left is a long story of idealism and determination it has also been a story of movements that failed to gain support from mainstream America In American Dreamers Michael Kazin one of the most respected historians of the American left working today tells a new history of the movements that while not fully succeeding on their own terms nonetheless made lasting contributions to American society Among these culture shaping events are the fight for equal opportunity for women racial minorities and homosexuals the celebration of sexual pleasure the inclusion of multiculturalism in the media and school curricula and the creation of books and films with altruistic and anti authoritarian messages Deeply informed judicious and impassioned and

superbly written this is an essential book for our times and for anyone seeking to understand our political history and the people who made it Dust Bowls of Empire Hannah Holleman,2018-01-01 A profound reinterpretation of the Dust Bowl on the U S southern plains and its relevance for today The 1930s witnessed a harrowing social and ecological disaster defined by the severe nexus of drought erosion and economic depression that ravaged the U S southern plains Known as the Dust Bowl this crisis has become a major referent of the climate change era and has long served as a warning of the dire consequences of unchecked environmental despoliation Through innovative research and a fresh theoretical lens Hannah Holleman reexamines the global socioecological and economic forces of settler colonialism and imperialism precipitating this disaster explaining critical antecedents to the acceleration of ecological degradation in our time Holleman draws lessons from this period that point a way forward for environmental politics as we confront the growing global crises of climate change freshwater scarcity extreme energy and soil degradation American Studies Jack Salzman,1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 Class in America Robert E. Weir,2007-06-30 In the United States social class ranks with gender race and ethnicity in determining the values activities political behavior and life chances of individuals Most scholars agree on the importance of class although they often disagree on what it is and how it impacts Americans This A Z encyclopedia the first to focus on class in the United States surveys the breadth of class strata throughout our history for high school students to the general public Class is illuminated in 525 essay entries on significant people terms theories programs institutions eras ethnic groups places and much more This useful set is an authoritative fascinating source for in demand information on key aspects of our culture and society and helps researchers to narrow down a broad topic Class is revealed from angles that often intersect through history with entries such as Founding Fathers the Industrial Revolution Westward Expansion through economics with entries such as Dot com Bubble Robber Barons Chicago School of Economics Lottery Wage Slaves Economic Equal Opportunity Act Stock Market Inheritance Taxes Wal Mart Welfare through social indicators such as Conspicuous Consumption the Hamptons WASP Homelessness Social Climbing through politics with entries such as Anarchism Braceros Heritage Foundation Communist Party Kennedy Family and through culture through entries such as Country Music The Great Gatsby Television and Studs Terkel Class is also

approached from ethnic sexual religious educational and regional angles Special features include an introduction timeline suggested reading per entry cross references reader s guide to topics and thorough index Sample entries Immigration Education Labor Movement Pink Collar Workers AFL CIO Strikes Great Depression Jacob Riis Literature the Rockefellers Slavery Music Academia Family Suburbia McMansions Taxation Segregation Racism Ivy League Robber Barons Philanthropists Socialites Religion Welfare the American Dream Dot com Millionaires Equal Opportunity Founding Fathers Wage Slaves Industrial Revolution Capitalism Economics Appalachia Horse Racing Gender Communist Party Country Clubs Religion American Indians Conspicuous Consumption Studs Terkel Film Class Consciousness Work Ethic Media Television Puritans Homelessness Status Symbols Assimilation Melting Pot Art Westward Expansion Poverty The Great Gatsby Stock Market Working Poor Gated Communities the Hamptons Social Climbing Crime Lottery Elitism WASP American Dream Noam Chomsky Fortune Magazine

America in the Age of the Titans Sean Dennis Cashman,1988-08-01 Detailing the events of the Progressive Era and World War I 1901 20 America in the Age of the Titans is the only interdisciplinary history covering this period currently available The book contains the results of research into primary sources an drecent scholarship with an emphases on leading personalities and anecdotes about them Sean Dennis Cashman s sequel to America in the Gilded Age gives special attention to industry and inventions and social and cultural history He covers developments in science technology and industry the Progressive movement and the presidencies of Theodore Roosevelt immigration the new woman and labor including the Industrial Workers of the World and the Great Red Scare the transportation and communications revolution in radio and motion pictures the cultural contribution of artists architects and creatice writers and America s foreign policies across the world Written in a lively accessible style with over sixty illustrations this book is an excellent introduction to these momentous years It provides an assessment of the contributions of the titans political scientific and industrial

The Right and Labor in America Nelson Lichtenstein,Elizabeth Tandy Shermer,2016-03-24 The legislative attack on public sector unionism that gave rise to the uproar in Wisconsin and other union strongholds in 2011 was not just a reaction to the contemporary economic difficulties faced by the government Rather it was the result of a longstanding political and ideological hostility to the very idea of trade unionism put forward by a conservative movement whose roots go as far back as the Haymarket Riot of 1886 The controversy in Madison and other state capitals reveals that labor s status and power has always been at the core of American conservatism today as well as a century ago The Right and Labor in America explores the multifaceted history and range of conservative hostility toward unionism opening the door to a fascinating set of individuals movements and institutions that help explain why in much of the popular imagination union leaders are always bosses and trade union organizers are nothing short of thugs The contributors to this volume explore conservative thought about unions in particular the ideological impulses rhetorical strategies and political efforts that conservatives have deployed to challenge unions as a force in U S economic and political life over the century Among the

many contemporary books on American parties personalities and elections that try to explain why political disputes are so divisive this collection of original and innovative essays is essential reading **The Human Tradition in American Labor History** Eric Arnesen,2004 Assembles biographical stories of famous leaders and unknown activists covering the 18th century up to 1970 Relates to enslaved artisans interracial unionism immigration Jewish radicalism and gender the New Black Politics reverse migration in World War II the United Farm Workers Union etc **The Unemployed People's Movement** James J. Lorence,2011-03-01 In Georgia during the Great Depression jobless workers united with the urban poor sharecroppers and tenant farmers In a collective effort that cut across race and class boundaries they confronted an unresponsive political and social system and helped shape government policies James J Lorence adds significantly to our understanding of this movement which took place far from the northeastern and midwestern sites we commonly associate with Depression era labor struggles Drawing on extensive archival research including newly accessible records of the Communist Party of the United States Lorence details interactions between various institutional and grassroots players including organized labor the Communist Party the Socialist Party liberal activists and officials at every level of government He shows for example how the Communist Party played a more central role than previously understood in the organization of the unemployed and the advancement of labor and working class interests in Georgia Communists gained respect among the jobless especially African Americans for their willingness to challenge officials help negotiate the welfare bureaucracy and gain access to New Deal social programs Lorence enhances our understanding of the struggles of the poor and unemployed in a Depression era southern state At the same time we are reminded of their movement s lasting legacy the shift in popular consciousness that took place as Georgians influenced by a new sense of entitlement fostered by the unemployed organizations began to conceive of new more equal relations with the state **In the Balance of Power** Omar H. Ali,2008-08-13 Historically most black voters in the United States have aligned themselves with one of the two major parties the Republican Party from the time of the Civil War to the New Deal and since the New Deal and especially since the height of the modern civil rights movement the Democratic Party However as In the Balance of Power convincingly demonstrates African Americans have long been part of independent political movements and have used third parties to advance some of the most important changes in the United States notably the abolition of slavery the extension of voting rights and the enforcement of civil rights Since the early nineteenth century there has been an undercurrent of political independence among African Americans They helped develop the Liberty Party in the 1840s and have continued to work with third parties to challenge the policies of the two major parties But despite the legal gains of the modern civil rights movement elements of Jim Crow remain deeply embedded in our electoral process In the Balance of Power presents a history and analysis of African American third party movements that can help us better understand the growing diversity among black voters today

American Social Leaders and Activists Neil A. Hamilton,2014-05-14 Profiles more than 285 men and women who

fought for social reform and influenced American history Mother Jones Magazine ,1979-01 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues **A Companion to the American South** John B. Boles,2008-04-15 A Companion to the American South surveys and evaluates the most important and innovative writing on the entire sweep of the history of the southern United States Contains 29 original essays by leading experts in American Southern history Covers the entire sweep of Southern history including slavery politics the Civil War race relations religion and women s history Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and anticipates future concerns **The Rise and Fall of the Southern Tenant Farmers Union in Arkansas** James D. Ross,2024-01-12 Founded in eastern Arkansas during the Great Depression the Southern Tenant Farmers Union STFU has long fascinated historians who have emphasized its biracial membership and the socialist convictions of its leaders while attributing its demise to external factors such as the mechanization of agriculture the repression of wealthy planters and the indifference of New Dealers However as James Ross notes in this compelling revisionist history such accounts have largely ignored the perspective of the actual sharecroppers and other tenant farmers who made up the union s rank and file Drawing on a rich trove of letters that STFU members wrote to union leaders government officials and others Ross shows that internal divisions were just as significant if not more so as outside causes in the union s ultimate failure Most important the STFU s fatal flaw was the yawning gap between the worldviews of its leadership and those of its members Ross describes how early on STFU secretary H L Mitchell promoted the union as one involving many voices sometimes in harmony sometimes in discord but later pushed a more simplified narrative of a few people doing most of the union s work Struck by this significant change Ross explores what the actual goals of the rank and file were and what union membership meant to them While the white leaders may have expressed a commitment to racial justice white members often did not he writes While the union s socialist and communist leaders may have hoped for cooperative land ownership the members often did not Above all the poor farmers who made up the membership wanted their immediate needs for food and shelter met and they wanted to own their own land and thus determine their own futures Moreover while the leadership often took its inspiration from Marx the membership s worldview was shaped by fundamentalist Pentecostal Christianity In portraying such tensions and how they factored into the union s implosion Ross not only offers a more nuanced view of the STFU he also makes a powerful new contribution to our understanding of the Depression era South James D Ross Jr is an associate professor of history at the University of Arkansas at Little Rock He is a specialist in the interaction of race class and religion in twentieth century United States history

If you ally craving such a referred **Grass Roots Socialism Radical Movements In The Southwest 1895 1943** ebook that will provide you worth, get the categorically best seller from us currently from several preferred authors.
