Grasslands The Living World:

The Living World Tony Seddon, Jill Bailey, 1987 Presents snippets of lesser known information about plants and animals

Life in the Grasslands (ENHANCED eBook) Edward P. Ortleb, 1998-09-01 The information and activities in this resource book enhance children's knowledge and awareness about the components of a grassland environment including physical and biological characteristics. Students will discover where grasslands are located on our planet. They will find out what features grasslands have in common, what types of organisms live there and how they are adapted to survive. As they explore grassland organism adaptations, students will discover similarities and differences between living things in grasslands and those in other ecosystems. Activities that emphasize the ecology of plants and animals, food chains and food webs, and survival will enable students to relate the structure of living things to their roles in the ecosystem. Four transparencies, print books or PowerPoint slides, eBooks are included to engage students in discussion and reinforce the concepts presented in the book.

Natural History DK, 2021-11-02 A monumental and beautiful guide to Earth's wildlife and natural history: its rocks, minerals, animals, plants, fungi, and microorganisms. This landmark of reference publishing has been extended and updated. In the 11 years since this book was released, thousands of new species have been identified and new revelations have redrawn the tree of life. Already featuring galleries of more than 5,000 species, The Natural History Book now includes discoveries such as the olinguito, the kitty bear of the Andean cloud forest, and the painted manakin of Peru. It takes advantage of the first living observations of the giant squid and the deep sea anglerfish. And it has reorganized the groups of living things to reflect the latest scientific understanding. All this ensures that this is the only eBook to offer a complete visual survey of all kingdoms of life. It remains the benchmark of illustrated natural history references. Written by a worldwide team of natural history experts, The Natural History Book is the perfect addition to every family bookshelf as well as an ideal gift for any nature lover. From granites to grapevines, from microbes to mammals, The Natural History Book is the ultimate celebration of the diversity of the natural world.

those needing more specific information Wild Plains Trek Yves Earhart, AI, 2025-01-11 Wild Plains Trek offers a compelling exploration of the world's grassland ecosystems focusing particularly on the Serengeti while drawing parallels to similar plains worldwide. The book weaves together three fundamental themes: grassland ecosystem dynamics, animal migration patterns, and critical conservation efforts, presenting a comprehensive view of these endangered landscapes through both scientific data and engaging field observations. Following the natural rhythm of seasonal changes, the narrative takes readers on a journey from the challenges of the dry season through the spectacular migrations triggered by rainfall patterns. The book's unique strength lies in its ability to connect complex ecological principles with real-world conservation challenges, utilizing detailed research from satellite tracking, soil analysis, and long-term field studies. Readers gain insights into the fascinating adaptations of endemic species, from specialized grasses to the diverse array of insects, birds, and mammals that call these plains home. Through accessible scientific language and information-rich visualizations, the book bridges the gap between academic research and practical conservation. It addresses crucial debates in wildlife management while maintaining a balanced, evidence-based approach to both conservation successes and challenges. Whether for conservation professionals seeking current research or general readers interested in grassland ecology, the book provides valuable insights into the delicate balance of these vital ecosystems and the urgent need for their preservation.
