Grassroots Rhythmic Travels Of The Soul:

Singing in My Soul Jerma A. Jackson, 2005-12-15 Black gospel music grew from obscure nineteenth century beginnings to become the leading style of sacred music in black American communities after World War II Jerma A Jackson traces the music's unique history profiling the careers of several singers particularly Sister Rosetta Tharpe and demonstrating the important role women played in popularizing gospel Female gospel singers initially developed their musical abilities in churches where gospel prevailed as a mode of worship Few however stayed exclusively in the religious realm As recordings and sheet music pushed gospel into the commercial arena gospel began to develop a life beyond the church spreading first among a broad spectrum of African Americans and then to white middle class audiences Retail outlets recording companies and booking agencies turned gospel into big business and local church singers emerged as national and international celebrities Amid these changes the music acquired increasing significance as a source of black identity These successes however generated fierce controversy As gospel gained public visibility and broad commercial appeal debates broke out over the meaning of the music and its message raising questions about the virtues of commercialism and material values the contours of racial identity and the nature of the sacred Jackson engages these debates to explore how race faith and identity became central questions in twentieth century African American life

Key of Black Life Mark Anthony Neal, 2014-02-04 In *Songs in the Key of Black Life* acclaimed cultural critic Mark Anthony Neal turns his attention to Rhythm and Blues. He argues that R & B, often dismissed as just a bunch of love songs, yet the second most popular genre in terms of sales, can tell us much about the dynamic joys, apprehensions, tensions, and contradictions of contemporary black life if we listen closely. With a voice as heartfelt and compelling as the best music, Neal guides us through the work of classic and contemporary artists ranging from Marvin Gaye to Macy Gray. In the first section of the book, *Rhythm*, he uses the music of Meshell Ndegeocello, Patti LaBelle, Jill Scott, Alicia Keys, and others as guideposts to the major concerns of contemporary black life, issues such as gender, feminist politics, political activism, black masculinity, celebrity, and the fluidity of racial and sexual identity. The second part of the book, *Blues*, uses the improvisational rhythms of black music as a metaphor to examine currents in black life, including the public dispute between Cornel West and Harvard President Lawrence Summers and the firing of BET's talk show host Tavis Smiley. *Songs in the Key of Black Life* is a remarkable contribution to the study of black popular music and valuable reading for anyone interested in how race is lived in America.
